MARRIAGE OF A PROMINENT COUPLE

Native Box Butte Young Man and Well Known Teacher Married on Wednesday

Miss Florina M. Mills and John G. Hennings were married at the Baptist church in Alliance on Wednesday, April 17, the ceremony being solemnized by Rev. A. A. Layton, pastor of the church. The wedding was an impressive one and attended by a large number of friends and relatives of the popular young couple.

The bride is a sister of Mrs. H. M. Adams, of Alliance, her parents residing at Sioux Rapids, Iowa, where they moved from Box Butte county about four years ago. She has been teaching school near Hemingford for the past two years and has a wide acquaintance in that district. She is a popular Box Butte county young lady and a host of friends wish them much success.

The groom was born in Box Butte county and is a son of Mr. and Mrs. C. Hennings, of Hemingford. He is a young man of excellent habits and is highly regarded in his home community. The Herald joins in wishing them a long and happy married life.

LESS POTATOES AT CHICAGO IN LAST WEEK

(Continued from Page One)

The market was firmer Thursday with white stock from nearby states selling from \$1.10 to \$1.20, mostly at \$1.15. Western stock was quoted at \$1.10 to \$1.25. Receipts were only 24 cars and the accumulation on track had been reduced to a total of 93 cars.

Friday's market continued firm at former levels under a good inquiry. Receipts were 30 cars.

Advance in Kansas City Market

Kansas City, Mo.—Receipts of potatoes last week were light and prices advanced accordingly. Northern and western common whites in carlots, sacked, were about 15c higher than a week ago, prices ranging from \$1 to \$1.15 per cwt. Russet Burbanks and Red McClures brought about the same prices. Seed potatoes strengthened in sympathy with the rest of the market, being used as table stock to some extent, prices ranging from 90c to \$1 per cwt.

St. Louis Prices Lower

St. Louis — Further declines were noted in potatoes last week and the market is unsatisfactory. Dealers are well supplied and new business is hardly worth mentioning. Off stock and common of all kinds are selling at 50¢ to 75¢, and fair to fancy. Northern Early Ohio at 70¢ to 75¢ per cwt; fair to choice western and northern Rurals and Burbanks bring 80¢ to \$1; fancy Western Rural \$1.05 to \$1.10, and western select Russet Burbanks \$1.15 to \$1.20. There is no accurate market on red stock other than Early Ohio—last sales being at 55¢ to 85¢ in a jobbing way. New potatoes are also easier, Florida hampers of Triumphs selling at \$3.50 to \$3.75 delivered for No. 1, and \$2.75 to \$3 for No. 2.

New Potatoes from Texas

Kansas City, Mo.—New potatoes from the Rio Grande valley of Texas will begin rolling in carlots within the next few days, according to reports from Texas operators to local dealers. The movement of Caney Valley potatoes in Texas and the Louisiana crop is expected to be a little later than usual, it now being reported here that these crops will be moving around the middle of May.

Plenty of Seed Potatoes.

Philadelphia. — According to C. F. Preston, secretary of the potato growers of Pennsylvania, there are many bushels of seed potatoes available at low prices and growers should make every preparation now to secure their planting stock. The average price, Mr. Preston said, was now around \$1.50 a bushel. He is urging farmers to keep up the potato acreage this year. Storage conditions, he said, have been most ideal, especially in the heavy growing potato section where modern storage cellars are fast becoming a part of the regular farm equipment.

Kentucky Seed Situation

Louisville, Ky. — Plans for a big potato week in Louisville to dispose of the remainder of the 1917 second crop of Jefferson county spuds were discussed at a meeting at the Tyler hotel during the latter part of last week, this meeting being attended by most of the local produce men, commission merchants, potato growers, retail grocers, etc. The meeting was called by W. H. Kaye, federal food administrator for the Fifth district, under orders of Fred M. Sackett, the state administrator.

At this meeting it was stated that 40 per cent of the local second crop of potatoes from 1917 was still in the hands of the growers. Plans for potato displays in downtown stores, screen advertisements in moving picture houses and newspaper publicity were discussed, in connection with a big potato week.

A prominent produce shipper and received in discussing the problem stated that in his opinion there has not been such an over supply in Louisville as reports would indicate. Between six and seven cars of northern potatoes have been rolling into

derailing second crop Kentucky stock as a result of the high prices that the growers have asked.

It is estimated that there are between 20,000 and 30,000 barrels of potatoes in cold storage warehouses, which will be utilized as seed potatoes for the second crop. The first crop as planted represents a fairly large acreage, to be shipped in July, beginning to move about July 1 to 6. Most of the potatoes now in storage will be used for seed stock for the second crop. That there is 40 per cent of the second crop still in the county isn't probable, according to some of the produce men who claim that there is a less percentage of the last fall crop still on hand than there was at the same time in some previous years.
