

BOYS' FIELD MEET

Bronze and Silver Medals to be Given as Prizes

Boys Field Meet which proved a big event in last year's chautauqua, is to be held again this year. To the boys winning bronze medals last year, and winning all four events this year, will be given a beautiful silver medal. Boys winning for the first time, the four events, will be given a bronze medal. Boys of all ages are eligible. Get out and train for the events at once.

The following are the four events:

Running High Jump, Standing High Jump, Chinning, 100-Yard Dash.

All boys who want to win a badge must come and enter the try-outs in chinning, jumping and running. The crewman, who is a real athlete, will meet with you every morning, umpire your ball games, go hiking with you and train you for the field meet. Big field meet last day.

Get out and make a record for our town, boys, for we are all proud of you.

Chadron Normal

President Elliott went to Rushville Monday night to give an address at a reception in honor of the men who left for the training camp.

A number of new books have been received in the library, including several books on contemporary drama and the short story and back files of magazines.

There are between forty-five and fifty students attending this summer who are doing advanced work above the course required for the advanced diploma.

The temperature for the past week shows that this part of the state is not so hot as the eastern and southern parts. The minimum range of temperature was 56 to 74, and the maximum range 80 to 90. After all, this is a pretty cool part of the state.

Marcia Lenington, who will receive her A. B. degree this summer, has been elected to a position in the high school of this city as teacher of English and history. Mabel Fairhead, one of the seniors, has been elected to teach domestic science in the high school. Dora Argabright, a former graduate, had been elected to a position in the grades.

The class in primary methods, which meets at 7 o'clock with Miss Frazier, now has an enrollment of sixty. The teaching of the work, as well as the actual doing of the work and the materials used, is studied.

At chapel last Friday, the Chadron state normal trio played two selections, the first one being from "Samson and Delilah," by Saint Saens and the other a beautiful pizzicato movement by Thome.

The week that Prof. O. W. Neal was here, Hazel Lynn, Vida Sutterfield and Violet Eaton, members of the household arts class, served a three-course dinner to Prof. Neal, some of the members of the faculty, and a few of the citizens of Chadron. The girls planned the dinner and the decorations by themselves.

At the regular meeting of the Y. M. C. A. last week Miss Scovel sang a solo and Supt. Pate gave a very good talk, taking as his theme Van Dyke's story of "The Other Wise Man."

The war cookery class is having interesting lessons in the use of substitutes for flour. Thursday they made several kinds of bread, and Friday they had a sandwich sale. Monday of this week they made thirty kinds of muffins, eight of which contained three-fourths substitutes and one-fourth wheat flour, and the other 22 all substitutes. No sugar was used in making the muffins, but instead syrup was substituted. Government recipes were used and the attempts of the class were all successful.

There are now 78 stars in the normal school service flag.

Several casual detachments have recently been sent east from the various training camps. Among the number were Ray Biglow and Wayne Borton.

Rev. J. H. Mills addressed the students at chapel Friday. After the rehearsal of the girls' glee club Monday afternoon, Miss Cowan gave a reading to the members and visitors. The glee club is developing nicely and all are enthusiastic. The club will take part in the Fourth of July exercises at the normal next Thursday. The club will give a concert in the near future.

The normal trio is contemplating a trip to Hot Springs soon to give a concert there.

A Fourth of July celebration will be held at the normal this Thursday forenoon at 10 o'clock. All students and friends and citizens of Chadron have been cordially invited to attend. The celebration will consist of a patriotic program. Prof. Wilson will give the address.

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally that Nobody can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

This romance of pure delight and difference starts in

The State Journal Friday, July 5

King Solomon to the contrary, it is a new thing under the sun. It is a fairy story for practical moderns—a fairy tale that faces the facts of life squarely. It brims over with young love and ends with happiness ever after. It gives the dairy-lunch hero forty million dollars, snatches them back and restores them when he has learned their use. It turns the Fifth Avenue heroine into a boarding house waitress and makes you her humble worshiper. She is a Cinderella who knows how to make the prince come across.

Shall we send you the story with the Daily Journal at \$4 a year or Daily and Sunday at \$5? Or three months at \$1 daily or \$1.50 Daily and Sunday? Address

Order Your Coal Supply Early

It is the wise thing to do— You'll say so this winter, too.

If we could make plain to you the situation, we know that you would put in your winter's coal supply now. We are not trying to scare you, but we are trying to tell you. The car shortage exists. It may look to you like everything is moving, but you'll appreciate what we tell you when winter comes and it may be next to impossible to get coal.

We've got coal to sell you today. We've got coal today to put into your bin. We can't promise more. It's good coal and it's a fair price. We urge you to get busy— thing—act. It will prove to your advantage.

THE NATIONAL PARKS OPEN SEASON 1918

Special Summer Tourist rates to all the Parks will soon be announced. All facilities for the Summer volume of travel will be ample and as comfortable as usual.

YELLOWSTONE NATIONAL PARK is open from June 25th to September 15th; circuit tours embrace all gateways, including the Cody scenic entrance and the Burlington's triangle circuit mountain tour from Eastern Nebraska via Denver in one direction, through Yellowstone or Glacier National Parks, with Rocky Mountain National-Estes Park en route—three Parks on one grand circuit.

GLACIER NATIONAL PARK is open from June 15th to September 15th. The same general variety of Burlington circuit routes may be used that include the entire east slope of the Rockies from the British boundary to Colorado.

ROCKY MOUNTAIN NATIONAL-ESTES PARK is open from May 1st to November 1st. No National Park has, in the past two years, enjoyed such a wonderful increase of patronage as this Park, located just north of Denver on the Burlington's Denver-Casper-Yellowstone-Glacier line.

Ask the undersigned for Summer fares, publications; let him describe the circuit routes available that will permit you to make a most comprehensive scenic Rocky Mountain tour during the 1918 season.
