Established 1899.

Paid Up Capital \$100,000.00

F. E. Reddish recently returned from a trip of six weeks to the western coast, spending a large part of the time on his farm in the Willamette valley of Oregon. His farm is located at Eugene, Oregon. While in Oregon and along the coast he paid particular attention to the spruce industry, which is jumping ahead by leaps and bounds. Most of the small towns are deserted as the inhabitants have gone to the big cities to engage in war work and to the spruce forests to cut spruce, wages in this line of work being exceptionally high. Mr. Reddish journeyed from Seattle to Old Mexico, visiting Camp Kearney.

A recent news dispatch from Riverton, Wyoming, in the Bopo Agie valley, stated that thousands of tons of potatoes raised there must be thrown out to rot unless more freight cars can be provided for their shipment. A very greatly increased area had been planted to potatoes there this year and the unusually wet season made the dry land potato crop very heavy.

Miss Irene Rice left Monday noon for Omaha, where she will attend the Van Sant business college. Her mother and younger sister will soon follow and make their home there during the winter. Mr. Rice, who is now in Omaha, spends much of his time there and they will make their home in a cozy apartment rented there the first of the week.

A. L. Payne, circulation manager of the Iowa City Daily Citizen, published at Iowa City, Iowa, was a visitor in Alliance last week. While here he visited the potash district and inspected some of the big potash plants.

J. H. Welton, well known newspaper man of Mullen is non-partisan candidate for county judge of Hooker county. He is one of the best known men in western Nebraska, and should win the race with but little trouble.

Mrs. W. A. Coleman returned home after a three weeks' visit with her daughter, Mrs. Arthur Schieb, of Tabernash, Colo. The time was spent in camping, fishing and enjoying the baths at Hot Sulphur Springs.

Bruce Mallery, one of the Alliance boys who joined the service sometime ago, returned Tuesday afternoon on 43, for a short visit with relatives and friends. He was in the week, but had just stepped out of the smoking car a few minutes before the crash.

### Peculiar to Women

Many women continually bear the burden of distress and pain with fortitude just because they are women. Few of them realize that their ailments are due primarily to disturbed nerve function that can easily be corrected so that they may be free of the nerve-racking, system-wrecking spells that make life miserable for them periodically. Most women can be strong, healthy, happy and vigorous, because their highly nervous and complex organism readily responds to Chiropractic Adjustments that offer a safe and effective means of restoring normal function.

Chiropractic (Ki-ro-prak-tic) corrects the cause by adjusting the spine and relieving the nerves of the bone pressure, which disturbs the nerve function. With the pressure removed normal function is restored and Nature builds up and strengthens the system. Acute and chronic cases are handled by Chiropractic in Nature's own way. Operations, drugs and instruments are needless in.

**CHIROPRACTIC**  
THE BETTER WAY TO HEALTH

Women everywhere are turning to Chiropractic for relief, because they find it not only effective, but free of the embarrassments of other methods. Every woman should investigate Chiropractic and learn what it can do for them in a health way.

PRICES ADVANCE ON  
HEAVY RUNS.

MANY GRADES SELLING ON TOP.  
HOGS SELL ABOVE \$10.00

SHEEP AND LAMBS FIRM

by  
C. A. MALLORY, Mgr.  
BOWLES LIVE STOCK COMMIS-  
SION COMPANY  
Omaha, Nebraska.

Union Stockyards, Omaha, Neb., Sept. 12.—A good part of last week's congestion was overcome, and, altho the receipts of cattle continue liberal and still beating all records, the trade has become accustomed to these conditions and everybody is "keyed up" to working faster and the movement has been more active and the results better.

Our readers know that the Bowles Commission company have "hit the

nail on the head" most of the time, and while there will be times during the season when there will be a shortage of cars and some delays in the movement, we believe conditions will average better the balance of the season.

The demand for everything continues active and very broad. Corn feeders are competing with the packers for the fleshy and heavy feeders and the packers and shippers are operating to their full capacity.

The Omaha market shows an advance of 50c to \$1 during the week on nearly all grades of steers and "she" stock, and is now nearer in line than any time this season. Present prices are certainly good and while we still have plenty of faith in the markets this year and next, we hardly feel justified in advising anyone to hold cattle that are ready or that are not paying their board. The corn crop is safe and while not the largest on record, the quality is excellent which will make up much of the loss by drouth. There is a good demand for calves, yearlings and all kinds of stock steers, cows and heifers, and we believe this demand will increase as the season advances.

The Bowles outfit at Omaha is handling its share of the western grass cattle, but are not overcrowded and with its present organization are in position to give each consignment to them the proper attention and at

these prices the "fill" counts more than ever.

Bowles sold Wednesday two cars of 700-lb yearlings from Woodlake at \$11.75 and some extra Wyoming steers sold at \$17.75, with the market closing strong at the top prices of the season. Men who have not been on the market this month don't know how high it really is.

We quote Nebraska grass cattle:  
Good to choice heavy fat steers ..... \$13.00 to \$15.75  
Fair to good ..... \$11.50 to \$13.25  
Good to choice fat cows and heifers ..... \$8.50 to \$10.25  
Fair to good ..... \$8.00 to \$9.25  
Wet cows ..... \$7.50 to \$8.75  
Canners and cutters ..... \$6.50 to \$8.25  
Good to choice heavy feeders ..... \$12.50 to \$15.25  
Good to choice 800 to 900 lb. feeders ..... \$10.00 to \$12.75  
Light stock steers ..... \$8.25 to \$10.25  
Stock calves ..... \$8.00 to \$11.25  
Veal calves ..... \$11.50 to \$13.75  
Fat bulls ..... \$7.50 to \$9.75  
Feeding bulls ..... \$7.25 to \$8.75  
Common to fair grades at the usual discounts.

Wyoming, South Dakota and selected cattle generally 25c to \$1.00 higher than these quotations.

The hog trade has gone over the top again; best hogs selling above \$20.00 in the Omaha market this week with bulk from \$19.50 to \$20.00. In our judgement it will be some weeks before we will see enough of this year's hog crop to break the market permanently.

The supply of sheep and lambs continue large, but the demand is very strong and prices are well sustained. Good to choice fat and feeding lambs \$16.50 to \$17.25; fat ewes \$10.00 to \$11; feeding ewes \$7.50 to \$9.00.

The different branches of the government administration are working together, and from the best information we can secure, we believe that conditions will improve, and in any event, there is a sufficient demand in sight and also a sufficient amount of rail and ship transportation to take this year's meat supply at high prices.

Our readers should not fail to notify Bowles at South Omaha, Neb., any time their paper or the Bowles special information fails to reach them promptly and regularly, and any time they have any shipments to make see that at least a portion of them are consigned to this good and reliable company.

Due to the volume of our business and the co-operation of our customers, we have been able to reduce the cost of production of Original Kansas Germ Free Fluid Vaccine made by Dr. O. M. Franklin, and are, therefore, giving the consumer the benefit of that reduction.

HEREAFTER the regular price of this vaccine will be 40 cents per dose. To those who are not familiar with our product and to show that we have every confidence in our vaccine, we will give a written guarantee that it will save every calf from Blackleg. The price with this written guarantee is 50c per dose.

WE MAKE ONE QUALITY OF VACCINE ONLY

### The Fifth Avenue Trend in Coats

No. 202-M—All-wool velour, satin-lined to the waist and heavily interlined, is the material for this youthful coat. The large convertible collar, pockets and stylish double belt are all button trimmed.

No. 228-M—A very fine silver-tone coating is used for this most fashionable coat which is lined with lustrous satin and heavily interlined. The big pockets, shapely flaring cuffs and novel collar are features of the vogue.

Fifth Avenue likes serviceable fashions this season for the war's sake, but Miss Manhattan has not forgotten what becoming magic can be wrought with pockets, belts and collars.

It's just in such little touches as a novel pocket or a belt that one senses the fashion feel of New York—just a new turn to the collar or a general air of jauntiness—and there is Fifth Avenue's mark.

COME IN and see these new Miss Manhattan styles fresh from New York—offered to you when they are at the very height of their vogue.
