Bingham News

Mrs. S. E. Gilbaugh attended the district meeting of the Red Cross at Antioch on Monday. She reported an interesting meeting.

Mrs. E. R. Marshall returned from Antioch and Alliance on Monday.

Mr. Claude Flemming of Marsland, came last Thursday for a few days' hunting and to visit his friend, Frank Williams.

J. T. Burtons received a telegram telling of the death of a nephew in Colorado. T is the second son in the family who has died this summer, the other one being killed by lightning some time ago.

Mr. and Mrs. Ira Cotton went to Alliance the first of the week to consult a doctor. Mrs. Cotton is bothered with throat trouble.

The Misses Agnes and Margaret Welch and J. M. Ballinger went to Bayard Saturday returning Monday via Oshkosh.

Pat Welch and family are living on the Dr. Emerson place, north of Ellsworth where he is caring for cattle.

Mrs. J. G. Ficklin and the children have gone to Hyannis to spend the present school year.

Dewy Guy came in from Boton on a ten day furlough last Sunday. This was a happy surprise to his people and friends.

Mr. Dudley is still unable to teach school. He expects to resume his work next Monday if his health permits.

Wednesday was little Richard Rentfros seventh birthday. His grandmother gave a party for his little friends in honor of the event.

Art Note.

There appears to be a gang of sculptors making busts of near-statesmen in Washington. Sculpting near-statesmen is making a bust of sculpture. Such statuary ought to be deferred until a man shall have been dead ten years and then very little of it will need to be made.—Houston Post.

Moon Superstition.

Among the Hindus and Egyptians the house was carried to the moon, De Gubernate says: "The pagan sun god crushes under his feet the mouse of the night. When the cat's away the mice will play. The shadows of night lance when the moon is absent."

When the Worker Loses

The spirit of efficiency permeates the business life of today to such an extent that the very pulse of commerce has experienced a quickening that is noticeable. Yet much of the benefit of efficient business is lost thru the worker's inefficiency due to physical inefficiency.

A sick worker is a poor workman. He is a loss to himself in wages and a loss to his employer in production. Much sickness is caused not by work or physical unfitness, but rather through the waste of energy caused by faulty nerve action, which so weakens the system that the body becomes an easy victim of ailments and diseases.

Big successful, healthy business men know that to succeed, to keep up with the strain and demands of the times, they must be fit. They must conserve every ounce of their energy and power. Many of them have found that they can best do this through

CHIROPRACTIC

THE BETTER WAY TO HEALTH

because it corrects the cause of faulty nerve action and permits Nature to bring about the normal distribution of energy. Health and vigor usually follow. Chiropractic (Ki-Ro-Prak-Tic) is drugless. Every one should investigate Chiropractic, because of the greater material benefit to be derived through it.

BOWLES LIVE STOCK MARKET INFORMATION

Record Cattle Receipts Fail to Stampede Market—Lambs Take Big Drop.

HOGS ARE ON THE LANDSLIDE

Beef Steers and Heavy Feeders Are Steady—Others Somewhat Lower.

by
C. A. MALLORY, Mgr.
BOWLES LIVE STOCK COMMIS-
SION COMPANY
Omaha, Nebraska.

Sept. 26.—The week opened with record breaking receipts at the principal markets, but the demand is so strong for all kinds of beef steers, heavy fat cows and good to choice feeders that the trade ruled active and prices have been well sustained.

As usual, under heavy offerings the lighter stuff and poorer grades of steers and cows suffered some decline, but all classes and conditions of cattle are still selling at good prices, and as stated by us many times, we have confidence in a comparatively good market throughout the entire season.

The food administration has given out instructions that only steer beef that will dress 575 pounds and upwards will be used for army and navy purposes and exported to our allied forces and that the civilian classes, which means all of the people remaining in the United States, except our soldiers and navy boys, must use the lighter grades.

If we understand this proposition correctly, and the Food Administration intends to enforce their order literally, we believe it will have a tendency to not only check the advance on the cattle selling at \$17.00 and upwards, but in all probability will cause some reaction on the high-priced cattle, unless the Government raises their prices for the beef as their highest September price of \$23.55 would not warrant packers paying the extreme prices that have been paid for the best cattle. On the other hand, it ought to have a tendency to stimulate the demand for the lighter grades, including "she" stock, and the spread in prices naturally become narrower.

In any event, we still have confidence in a good market for several years and believe it good judgment to hold back all light and good breeding stock that can possibly be properly cared for, as it will all be wanted at high prices, especially after the war is over. From our latest information from all over the west, we believe receipts will continue heavy during October and at least half of November, and still advise our readers to keep their fat stock moving as fast as they can get cars.

We also believe it good judgment to ship any kind of stock that really must be disposed of on the same basis. The demand for all kinds of stock and feeding cattle continues strong as most sections East and North of us have good crops, plenty of roughness and considerable pasture. We believe the demand for heifers and cows will increase as the season advances, and also that the calf market will be better, especially for calves that are well bred and in good condition.

On Tuesday we sold two cars of 1170 lb Dakota whitefaces at \$16.50 belonging to O. J. Brownfield of Belle Fourche. On the same day we sold two cars of 1050 lb. horned whiteface steers at \$13.85, belonging to A. J. Rodabaugh of Upton, Wyo., and three cars of choice 1036 lb. sandhill whiteface steers at \$13.25. These cattle all went for feeders except the horned cattle.

We are handling cattle from all over the sandhill country and a good many from Wyoming and South Dakota, but do not have as many as some firms, and therefore, have the time and room to handle the business properly with our splendid organization of skilled salesmen and yard forces and we invite correspondence from anyone interested in the live stock business.

In the absence of quotations we quote the market about steady compared with last week on the better grades, but 25c to 50c lower on the other grades with a fairly good clearance.

The hog market was hit pretty hard by the packers even on moderate receipts, and the bulk of the hogs are selling from \$18.75 to \$19.25 with only fair prospects for the near future.

Sheep and lambs made another record run, and although fat sheep held steady, fat lambs declined about 25c, but feeder lambs declined another \$1.00 to \$1.50 or about \$3.00 under the top prices of the season and about that much lower than a year ago.

Any of our readers who are in the market for any kind of young or breeding stock will do well to write us fully what they need so that we can keep them closely advised, and through our special buying department get some good bargains for them on the weak spots.

Kansas City continues to be "flooded" with cattle of all kinds from Kansas, Colorado and the southwest and according to all reports that market has been very badly congested and prices much lower. The Chicago market has been the high mark all through the season as the bulk of its range cattle only come from Montana and the Dakotas.

Cattle men from this district should ship either to Chicago or Omaha during the next six weeks if they want the best results. No use bucking up against a brick wall.

STOP THAT HOLE—

That's Our Business

We make perfect and permanent tire repairs by the Shaler Wrapped Tread Method. This system makes repairs that don't spoil the looks of your tires.

Give us a chance to show you why our method is better than any other.

Our prices are low, we guarantee all work—both on Casings and Tubes, and we give prompt service.
