BOWLE'S LIVE STOCK MARKET INFORMATION

SHARP DECLINE IN CATTLE STOCKERS AND FEEDERS HIT HARDEST

Peace Matters Fairly Discouraged—Beef Cattle Wanted—Hogs Steady—Sheep and Lambs Lower

C. A. MALLORY, Mgr.
BOWLES LIVE STOCK COMMISSION COMPANY
Omaha, Nebraska.

Union Stockyards, Omaha, Oct. 17.—The world continues to move and our great fight for real democracy and the world's permanent peace is making wonderful progress. Each move on the battle field and in diplomatic circles pushes the arch enemy farther back, and we believe the time is near the final and ultimate goal.

There are many things to be considered, acted upon and concluded before the complete victory, but so far as our general and business affairs are concerned we believe that much of the effect these matters might exert have been largely discounted both in grain and live stock. The food and other constituted authorities should allow supply and demand to govern, giving all aid possible by buying and exporting heavily out of the surplus our ranchmen and farmers have produced at the request of our government. We believe all of our institutions and departments are acting in good faith, and will do the best they know how, but have always been opposed to price fixing especially on only one end or in the middle.

The patriotism of our ranch men and farmers is unbounded and none of our people have been more handicapped through shortage of labor, unsatisfactory railroad and other service, lack of capital at moderate interest rate and long time loans, but they have gone "Over the Top" and will do even better with the proper and necessary help.

Last week's decline continued until Monday of this week when the bottom seemed to have been reached, but not until the market showed a decline of \$1.00 to \$2.00 compared with the best time this season. The stock cattle suffered most, and

good to choice beef cattle the least. Butchers stock of all kinds were carried down 50c to \$1.00 or to about the lowest prices of the season. Since Monday, however, the trade has been a little more satisfactory and we note a reaction of 15 to 25c from the bottom on nearly all desirable grades and kinds.

The demand for stock and feeding cattle did not respond quite so well and prices are still hovering around the bottom, but we think when the feeders have digested the situation they will realize that the cattle feeding this year is bound to be 10 and 15c less than last year, and the demand greater, we believe the trade will improve. High price of hay and general scarcity of roughness are causing some to hesitate. We have confidence in good prices next year and still advise holding over all light and breeding stock of good quality, and shipping the others when cars can be secured. We look for continued liberal receipts for several weeks and don't believe it wise to expect much permanent advance, but do believe the outlook favors a more steady trade.

Our range business continues to increase each week, but we still have room for more and our readers who understand this "game" will appreciate that a commission firm with expert and experienced salesmen for each department and not overcrowded with business is in a position to promote and protect your interests to the limit.

We quote Nebraska grass cattle:—
Steers—
Good to choice fat \$11.50 to 14.50
Fair to good \$10.00 to 11.50
Feeders—
Good to choice heavy \$10.30 to 13.50
Fair to good \$8.00 to 10.50
Stock Steers—
Good to choice \$7.50 to 10.00
Yearlings—
Good to choice \$9.00 to 11.50
Fat Cows and Heifers—
Good to choice \$7.70 to 10.50
Fair to good \$6.70 to 8.00
Canners and Cutters \$5.75 to 7.00
Stock cows and heifers \$6.00 to 8.00
Stock calves \$7.50 to 10.00
Veal calves \$10.00 to 113.00

Common cattle at the usual discounts and the good to choice from Wyoming and South Dakota at the usual premiums.

The hog trade has settled down to about \$47.50 basis as outlined by the Food Administration; the bulk of the good hogs selling at \$17.40 to \$17.70 with prospects favoring more steady

market the balance of October but lower prices next month. Good demand for all we can produce and when all of the factors work in harmony the trade will be more satisfactory.

Fat sheep and lambs steady, but feeding stock is lower all around. We will have liberal receipts for some time, but we look for a better market later in the season.

Write or wire Bowles at South Omaha for any special or other information and don't fail to give at least a trial shipment to them during the season as this will mean a closer relationship and better results every way.

Counter Question.
She—"How do I know you are not marrying me for my money?" He—"If it comes to that, how do I know you are not marrying me to reform me?"—Boston Transcript.

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Bronzet Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

Art and Heredity.
The musical instinct is very often hereditary—witness the Jews, who have been the most musical race in the world since the days of the Old Testament. It does not, however, follow of necessity that if parents are artistic the children will follow suit, despite the famous reflection of the countryman who remarked that, now Mr. Wordsworth was dead, he supposed his son would carry on the old man's business.

Paper Shelf.
It is always a problem to keep old papers and magazines looking neat in the basement. Make a rack on the order of a swing shelf, having the shelf in slats about two inches wide and three inches apart. The papers can then be tied up without lifting from the shelf. After they are tied the bundles can be put in a corner ready to sell.

Tobacco Raising in Scotland.
During the American Civil war tobacco became so dear that several unsuccessful attempts were made in Scotland for its cultivation. The chief seat of the new culture was in the neighborhood of Kelso, where it succeeded so well that sixteen and one-half statute acres brought \$520 per acre.

Housefly Can Move Fast.
A housefly is not by inclination much of a traveler. But, when it wants to travel, it goes fast. Experiments have shown that, when pushed, it can cover 100 feet per second, or about 110 miles an hour straightaway.

NOTICE OF FINAL REPORT
In the matter of the estate of Richard H. Watkins, deceased, in the County Court of Box Butte County, Nebraska:

State of Nebraska:
To all persons interested in said estate, take notice, that the Executrix has filed a final account and report of her administration and a petition for final settlement and discharge as such, which has been set for hearing before said court on November 7th, 1918, at ten o'clock a. m., when you may appear and contest the same.

Dated October 16, 1918.
IRA E. TASH,
County Judge

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 60 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

SATURDAY, OCTOBER 19

She will be pleased to meet the ladies of Alliance and vicinity.

DON'T FAIL TO SEE THIS COMPLETE AND UP-TO-CATE LINE

I Know the Voice

WHICH TELLS THE SUFFERINGS FROM A SORE TOOTH

I have to see or read for the first time the works of any noted writer of the middle ages, anything that pertains to Dentistry. There could not have been the demand upon them then as in being made today.

THE SCIENCE OF MEDICINE AND DENTAL SURGERY

Which has shown such wonderful progress in such a comparatively short time, has been compulsory—so to speak. Again

NECESSITY WAS THE MOTHER OF INVENTION

For twenty years—every hour of every day, I have heard someone say, "Why does not some one invent something to relieve pain in a safe and easy manner?" The cry for this great necessity has dwelt on my mind so long, that I finally solved the problem and have put it into use. Through Sturgis & Sturgis, Attorneys, I filed for a patent on this most wonderful method to relieve pain.

I KNOW THE VOICE OF THE SUFFERER; I ALSO KNOW HOW TO ANSWER

in a manner that should immensely please. It's here for you to take advantage of. I will gladly show you.
