BOWLES LIVE STOCK MARKET INFORMATION

Fat Cattle Strong and Higher—Good to Choice Butchers Stock Firm—Others Are Lower

Stockers and Feeders Steady—Hogs Holding Around Minimum—Sheep and Lambs Higher

(By C. A. Mallory, Mgr. Bowles Live Stock Commission Company) Omaha, Nebraska.

Union Stock Yards, Omaha Nov. 21st. The entire World is gradually adjusting itself to the new era of Peace and Liberty which is bound to result in the forthcoming Peace negotiations, which will be attended by our President and a suitable representation of our people.

As we have often predicted during the last six months, the conditions were favorable for a continuation of good prices for live stock after Peace was declared, and we are more confident now than ever that prices will rule higher before next year is out on practically all kinds of live stock than it did this year. We feel more confident regarding beef than anything else, but also believe that pork and mutton will come in for their share.

We continue to advise everybody who is properly situated, and who understands the business, to keep in the live stock "game" to the full limit of their ability as this country must do more than its share toward feeding the World and supplying the depleted countries of Europe with breeding stock. The weather has been unusually favorable this Fall for continued free movement of range stock of all kinds, and so long as the weather conditions and these prices hold up, we look for liberal receipts, but in any event they cannot last many weeks.

We look for higher prices on all desirable grades of steers and "she" stock just as soon as the supply of range stock lets up materially.

The shortage of roughness and the high price of hay and other feed is having a bad effect on light and common stock, causing heavy shipments from one end and light demand from the other, and these cattle are selling at big discounts and will continue so

during the balance of the year. We continue to advise everyone who has light cattle, especially of decent or good quality, also all kinds of good breeding stock, to hang on to it as we believe it will pay them well for so doing. We also advise all who are able to handle any kind of cattle to buy them as soon as possible as prices are bound to be higher latter on.

As we have often predicted regarding the hog situation, the Food Administration was obliged to place another embargo on shipments to the Chicago market this week because the shipments of hogs were excessive and beyond the capacity of the packing houses to handle. Prices are holding up above the minimum and today the good to choice hogs are selling 15 to 25c higher than the minimum price. We still have confidence in good prices for hogs all next year, and under existing circumstances, believe that every farmer who has the feed should hold his pigs and immature hogs until they have more weight and dispose of them gradually so as to avoid congestions and embargos.

Our sheep and lamb trade is showing a little more life as the Eastern mutton market has improved, but the wool market is in bad shape so far as the movement is concerned and considerable anxiety and curiosity exists relative to the future.

As we have stated on several occasions the amount of cattle, sheep and lambs on feed West of the Missouri river and in the South-Western section of this country shows a considerable reduction compared with last year, and this will make it necessary later for the packers in Omaha to pay closer to Eastern prices, and will therefore be a more attractive market for Western Iowa and South Dakota, as well as Nebraska shippers.

The market is closing very strong on all kinds of desirable steers and butchers stock, and prices are about the best of the season for fat steers and for the very best "she" stock.

Canners and the common to fair stock are selling at about the lowest prices of the season, causing an extremely wide range in prices. We still advise shipping any cattle that are ready or intended for the market as you can get cars, and by consigning them to the BOWLES outfit, everybody will be happy.

We quote Nebraska grass cattle:
Good to choice fat steers—\$13.00 to \$16.00

Fir to Good—11.50 to 13.00
Good to choice heavy feeders—12.00 to 15.00

Fair to good—10.50 to 12.00
Good to choice light steers and yearlings—10.00 to 11.25
Fair to good—11.50 to 13.00
Good to choice fat cows and heifers—8.50 to 11.00
Fair to good—7.00 to 8.50
Canners and cutters—4.25 to 6.00
Stock cows and heifers 5.50 to 7.50
Stock calves—7.00 to 10.00
Veal calves—11.00 to 13.00

COMMON CATTLE AT THE USUAL DISCOUNTS GOOD TO CHOICE WYOMING AND SOUTH DAKOTA CATTLE AT USUAL PREMIUMS

NOTE: As the range season is drawing to a close, we will not send our market letters to the so-called Range-trade much longer this season but if you would like some other market paper or report throughout the entire year, do not fail to write BOWLES at Omaha just what you would like, and do not fail to write them any time you need anything in the way of live stock information or service.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

Awarded High Honor

Brother of Walter Wightman awarded Military Cross for Leading Company While Wounded

Duncan Whitman, M. C. brother of Walter Whitman of Denver, secretary-treasurer of Richards & Comstock Company, owners of the big Spade ranch at Ellsworth, was recently awarded the military cross of the English army for bravery in action.

Duncan Wightman was in Canada at the time America entered the war and later joined the Canadian forces. He was assigned to the Queens university Holland division as a lieutenant of infantry. After some months of training he was sent into the front line trenches and within a few days went over the top. During the ensuing battle he was shot thru the leg and his captain was so severely wounded that he had to be removed to a base hospital leaving Lieutenant Wightman in charge of the company. Altho he was suffering from a gun shot wound, the lieutenant made a successful attack, capturing the enemy positions, and soon after completely recovered from his wound.

It was for this act that he was awarded the cross, which is the second highest award for bravery in the British forces. Immediately after his first battle he was promoted to the rank of captain and since then has been in five successive battles.

Expecting Too Much.

The girl or boy who expects her friends to be perfect has many a disappointment in store. Human nature is full of surprises, but perfection would be the greatest surprise of all. Do not be astonished when you discover some little flaw in your friend's character. For unless love has blinded him, it is very certain that your friend has discovered a similar flaw in yourself.

ceived a soaking rain on Saturday and Sunday, the rainfall in some places being two inches. The subsoil soaked to a great depth, placing it in excellent condition for the fall crops.

SHORTHORN CATTLE

Pure Bred Shorthorn Bulls for sale. Raised in Western Nebraska and thoroughly acclimated. Eight yearlings will be sold at very reasonable prices if taken before January first. See them at the farm.
