The names of subscribers will be instantly removed from our mailing list at expiration of time paid for, if publishers shall be notified; otherwise the subscription will remain in force at the designated subscription price. Every subscriber must understand that these conditions are made a part of the contract between publisher and subscriber.

Hauser For Fire Commissioner

Harry J. Hauser, known throughout the state as "Nebraska's most popular volunteer fireman", is being endorsed widely for appointment as state fire commissioner for the two year term beginning the first of January.

Harry Hauser is not only capable of filling the place to the satisfaction of everyone but he is eminently qualified because of his experience in the Nebraska State Volunteer Firemen's Association. As president and member of the executive committee and as one of the leading and most active members of the association, he has learned the needs of the state in fire protection.

Hauser has the endorsement of the members of the Alliance Volunteer Fire Department and will undoubtedly be endorsed by all of the departments over the state.

Germany Wants The Potash

News dispatches of Tuesday state that Germany desires the terms of the armistice modified so she can have "economic intercourse with the territory on the left bank of the Rhine as before the armistice."

Dr. Solf, German foreign secretary asks permission for German owners to exploit as heretofore the coal, potash and iron ore mines and the general free use of the Rhine for transport within the old boundaries of the German empire.

The United States now has no need for German potash, although the German deposits could undoubtedly be used very handily by the agricultural districts of France, Italy and England. This country can be amply cared for as far as potash is concerned from the immense resources of western Nebraska, the output of potash from this field being constantly increased.

Permanent Roads for Nebraska

Now that peace is in sight, Nebraska as well as her sister states, will get back to the problems which need solving at home. One of the most important facing this state is that of permanent road construction. Geo. F. Johnson, state engineer, recently issued the following statement regarding the road proposition for Nebraska:

The question of constructing permanent roads in Nebraska is one which, assuming gigantic proportions, must be answered sooner or later by the voters of the state. What the answer will take cannot now be definitely stated. Other states are answering this same question satisfactorily in various ways.

This month, the voters of the state of Illinois have been called upon to pass judgment upon the \$60,000,000 bond issue for the construction of 800 miles of hard surface roadways. The law provides that the principal and interest of the bonds be paid from automobile licenses during a period of twenty-five years. By means of this plan, the roads are to be built by the State's automobile owners, without a cent of direct tax to the tax payers. The automobile owners who use the roads will finance them. Every citizen in the state profits.

Although the question is not at present submitted to the people of Nebraska, in the same form, nevertheless we may look ahead and profit by the issue in Illinois. Just what the state of Illinois proposes to do, might be successfully carried out in this state, if the need were realized. It is noted the reasons why Illinois pushed the bond issue and attempted to draw partial comparisons with state and ours.

Sixty-five per cent of the people in this state, live on the roads in the state and eighty-five per cent live this five miles of the main road, this is true, each, automobile driver, business man, manufacturer of labor will profit in some way by a ready access to markets, railroads, and waterways afforded by permanently constructed hard-surfaced roads.

Each automobilist in the State could be interested in road improvement, since he must pay the tax for actual construction. He is aware that miles of hard-surfaced paved roads will serve, manures the cost each year in the road upkeep of his car. The fund

paid for license will be turned into the fund within the State, and in a short time the owner will be using the roads he has helped to build.

The manufacturer is well aware the roads will add more than their cost to the value of the farms in his immediate vicinity. Suppose he owns his car. If railroads are made accessible by good roads, the farmer saves time when transporting products to large cities. If he does not own his car, he must realize that motor trucks are sure to pass his door in the near future as "return load" motor truck traffic is being organized in every county throughout the state. The average farmer is well aware that motor trucks are destructive to most earth roads, and in certain seasons of the year earth roads are almost impassable. As owner of a car, he cannot afford to miss the chance of aiding in hard-surfaced road building in Nebraska; he is presented with good roads at low cost.

Each business man realizes the importance of good roads in relation to the success of his business. Little need be said concerning the benefits received, as they are ever present and ever increasing. Of the share good roads play in his business, his market for raw products is stimulated, his chances of shipping quickly, increased; his time and labor saved; his investment doubled.

The laboring classes should realize their share in the benefit of hard-surfaced road building. If road construction were to begin tomorrow in this state, the greater proportion of production cost of road materials to be used, would go to the laborer in wages.

The production workers of such materials as cement, asphalt, brick, tar, sand, gravel, steel and machinery will receive directly the benefits of such a bond issue as is proposed.

We have not mentioned the educational and social advantages afforded to nearly every person in the state. These however are relatively small in comparison to the other benefits. Illinois did not propose to begin extensive road-building until after the war but the recent peace negotiations will hasten construction and Illinois will have suitable employment for the thousands of discharged soldiers and munition plant workers. Illinois is facing the question now, and will be prepared to do its share in adjustment and reconstruction. They are planning, like other states, for the future.

The city of Cleveland, Ohio is planning now for just such problems. Mayor Davis has asked all departments to submit to him an outline of needed public improvements. These reports will be referred to the City Planning Commission and upon approval, will be put in operation.

Secretary of the Interior, Franklin

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

K. Lane, in a recent communication has called attention to the reconstruction problem of this country and has partly outlined a plan for their solution.

Are we ready for the reconstruction problems in Nebraska? They are demanding consideration. We must be prepared.

Germany has pleaded to be saved from starvation. Food stuffs must be shipped to the Allies; we cannot ship food over impassable roads. What is accomplished by staying the hand of needed public improvements, must give the problem fair consideration and be willing to put the construction of permanent roads "over the top" now.

NEW HOMESTEADS FOR SOLDIER BOYS

Hundreds of Thousands of Acres of Land Made Available for Entry Under Stock Raising Land Act

Secretary of the Interior Lane announced that during September 653,619 acres of land were rendered available for entry in tracts of 640 acres or less by designation under the stock-raising homestead act. The areas by States are indicated in the following table:

State	Acres
California	120,595
Kansas	25,120
Colorado	62,815
New Mexico	435,299
Oklahoma	7,810
South Dakota	360
Wyoming	620

Total 653,619

The total area thus far classified for entry under this act is a little less than nine and a half million acres, and the total number of applications upon which favorable action becomes possible by virtue of these classifications is somewhat more than 14,000.

In addition to the stock-raising classifications a little more than half a million acres have been classified as nonirrigable during the month and rendered available for entry in tracts of 320 acres or less under the enlarged acts. The designations by States are indicated in the following table:

State	Acres
Arizona	4,720
Colorado	167,597
Idaho	40,720
Kansas	8,920
New Mexico	134,280
North Dakota	141,621
Washington	2,680

Total 500,538

The total area thus for classified as nonirrigable under these acts aggregates more than two hundred and eighty-two million acres.

THANKSGIVING RALLY

The First Baptist church will have a special meeting at 7:30 p. m., Thursday, Thanksgiving evening Nov. 28th, to which all of the congregation and friends are invited.

We invite all who desire to express their gratitude to God for His mercy and goodness to come and join in Thanksgiving service.

A special program of music and addresses are being arranged for the evening.

A. A. Layton, Pastor.

FIRST BAPTIST CHURCH

Sunday School at 10 a. m. Classes for all ages.

Preaching at 11 a. m., and 7:30 p. m. Special music by the choir both morning and evening.

Every member is urged to be present to express our appreciation for church privileges once more.

A. A. Layton, Pastor.

All the news all the time—The Herald, of course!

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Liniment

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 30 cent bottle of old, honest "St. Jacobs Liniment" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica and lame back misery so promptly!

THIS SPECIAL THANKSGIVING

As this will be a Special Thanksgiving, you will want a lot of good things for that dinner you are planning, and we want to suggest to you, to buy it early and be sure you get the best. We have for your selection Fat Turkeys, Geese, Ducks, Hens and Beef, Pork, Veal, and Mutton roast, Fresh Oysters, Celery, Lettuce, Parsley, Radishes, Cranberries and Sweet Potatoes.

Our fresh fruits will be fine, Apples, Oranges, Grapes, Grapefruit, Lemons, ripe Tomatoes, Pears and Bananas.

You will also need Citron, Orange, and Lemon peel, Spices and Extracts, Swansdown Flour and Marshmallow for your cakes and pies.

We guarantee our Quality coffee to be the best in the City, at 40c per pound, or \$1.15 for a 3 pound can. We have a fancy Peaberry, coffee, in the grain at .25c per pound A No. 1 Japan tea, at 60c per pound.

No. 2 Corn per can	.17
No. 2 Tomatoes per can	.18
No. 2 1/2 Tomatoes per can	.20
No. 3 Tomatoes fancy per can	.25
No. 2 Early June peas per can	.15
No. 10 (commonly called gallons) Blackberries, at	\$1.25
No. 10 Loganberries, at	\$1.35
No. 10 Red Raspberries, at	\$1.35
No. 10 Black Raspberries, at	\$1.35
No. 10 Red Pitted Cherries, at	\$1.50
No. 10 Peaches, at	.85
No. 10 Pears, at	.85
No. 10 Apricots, at	.85
No. 10 Catsup, at	.90
