"FLIVVER" PRODUCTION TO BE INCREASED SINCE WAR OVER

The Ford factory, getting back to production of automobiles and trucks since the coming of peace, announces that everything possible is being done to expedite the manufacture of the cars in sufficient quantities to meet the greater than ever demand. Coursey & Miller, local distributors, have just received a letter from the Ford people in which they are asked the number of orders that can be obtained by them at this time. The company expects to be able to furnish a limited number of both pleasure cars and trucks, in the near future and in due course of time get back into their normal production again.

"We have now on file about fifty orders for Ford cars," said Mr. Coursey, "and feel very optimistic in the chance for the early delivery of at least a part of this number."

NEWSPAPERS RELEASED FROM NEWSPRINT RESTRICTION

The following notice from the War Industries Board will be received with no little appreciation by the country newspapers. However as we understand it this does not in any way release weekly newspapers from the order making it mandatory upon them to collect subscriptions in advance.

"Notice is hereby given that on and after December 1st., 1918, the rules of the War Industries Board governing weekly newspaper will be withdrawn and no further reports will be required.

In making this announcement, the Board prompted by the fact that the amount of paper consumed by weekly newspapers is not sufficient to at this time materially affect the newsprint situation, and as the Holiday season is at hand, it is felt that it is desirable to remove the restriction at this time so that merchants and publishers may profit by the Holiday activities." (Signed) Thos. E. Donnelly,

"BUY TO YOUR HEARTS' CONTENT," SAYS COUNCIL

We are to have an old-fashioned Christmas after all. The national council of defense has lifted the restrictions on the production and sale of holiday gifts and to the manufacturer, merchant and buyer says in effect, "Go to it," as in the opulent days of peace. The country is chiefly interested in the reamsorption of war labor by the holiday trade.

In the announcement of the lifting of the ban the council says:

"Before the armistice the council of national defense, composed of the secretaries of war, navy, interior, agriculture, commerce and labor, entered into an agreement with representatives of leading industries and retail interests of the effect that the sale of Christmas goods should undergo certain restrictions with regard to the employment of labor during the Christmas season and the conservation and delivery facilities. Certain other agreements were likewise, entered into. The council of national defense now believes that one of the steps essential to the rapid establishment of normal after-the-war conditions should, and it hereby does, lift its ban in connection with holiday buying in the desire to give a natural impetus to the re-employment of those normally engaged in the holiday trade. The council is further impelled to this decision by reasons if the necessity now confronting us to get our military forces and munition factory workers back to the ordinary pursuits of life with the least possible shock in making the change."

St. Swithin's Day.

St. Swithin's day is July 15. The tradition is that if rain falls then it will rain for 40 days. The official weather records, however, do not support the tradition.

SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to flush Kidneys and neutralize irritating acids—Splendid for systems.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

BOWLES LIVE STOCK COM. CO.

CHICAGO OMAHA KANSAS CITY

BOWLE'S LIVE STOCK MARKET INFORMATION

from each of the boys upon his ar-Fat Cattle and Feeders Strong At Top Prices; Other Grades Improving; Prospects Favorable Next Year
Hogs Uneven—Prices Above Minimum—Sheep and Lambs Advancing
(By C. A. Mallory, Mgr. Bowles Live Stock Commission Company) Omaha, Nebraska.

Union Stockyards, Omaha, Nebr., Dec. 6.—

The Thanksgiving holiday this year found more people genuinely thankful throughout the world than ever before in its history, and we congratulate all of the good, loyal and well-meaning people on the great success that right has accomplished. Our predictions of the past few months have proven correct, and the market for all kinds of fat cattle, good to choice feeders closing strong at about the best prices of the entire season. The light and common stock, especially the canners and fair to medium "she" stock that have sold comparatively low for some weeks are also showing improvement and in our judgement, will sell higher during the next two or three months; in fact, we look for a considerable advance in these grades during the next three months.

The demand is very strong for all kinds of beef cattle, and as the number of cattle on feed west of the Missouri river are showing a considerable decrease compared with last year, we look for even higher prices during the next six months than we have had recently. We are glad that range conditions are favorable throughout the western country and congratulate everyone who has young stock of good quality, and still advise them to go the limit in this business.

We will not use any quotations in this letter, but will simply say that all of the desirable grades of cattle of every kind and description are selling at about the best prices of the season with good prospects for the future; other grades are selling 50c to 1.00 higher than the low time with favorable prospects for a further advance. We continue to suggest shipping

any stock that is ready for market or that the owner wishes to dispose of whenever it is most convenient.

The hog trade continues to fluctuate and whenever the receipts let up the market advances, and with heavy receipts it declines as usual, but prices are still above the minimum. Good hogs around \$17.25 in this market, and will probably continue so during December at least, unless the Food Administration takes off the "lid".

Sheep and lambs are in a little better demand, although prices are not very satisfactory to the ones who have been feeding grain. We expect to see prices considerably higher during the next four or five months.

As this will be our last special letter published in the Herald this season, we take this opportunity of thanking our many friends and patrons for their very generous patronage and good will, and assure the

as well as the readers of this good paper, that we will be very glad to hear from anyone interested in live stock in any way, and will also be pleased to continue sending this paper, or any other good paper that the stockman may wish. All we ask is the opportunity to get acquainted with anyone interested in live stock, and with our double salesman system and special arrangements for getting the latest and best market information, we feel justified in asking the support and patronage of all who may read these lines.

Write BOWLES at South Omaha if your Herald stops, and you want it, or for any information regarding live stock.
