**HEAVY MEAT EATERS HAVE SLOW KIDNEYS**

Eat less meat if you feel backache or have bladder trouble—Take glass of Salta.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salta from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will set fine. This famous salta is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salta is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Don't muster out your dollars until Uncle Sam completes the job.

**HOOVER WILL OUTLINE NEW FOOD PROGRAM SOON**

Herbert Hoover, United States Food Administrator, is unable to outline the future policy of food distribution to the Allies, neutrals and enemy countries, at this time, according to a cablegram received by Gordon W. Wattles, Federal Food Administrator for Nebraska.

However a definite policy will be outlined within a very short time. In the meantime Administrator Wattles is asking his county administrators to maintain their organizations so that Nebraska will be ready to meet any demands that may be made.

Our conservation has just begun" says Wattles. "We do conservation in the future will be radically different from that of the past, we are yet to prove that we can feed the world. We must send 20 million tons of food across the water but happily it was a different sort of food than the meat and wheat which we have been limited to. Freedom for transportation will make possible the export of much food which heretofore has been denied the Allies.

"Nebraska must be ready, when the call is made, to go over the top as she has in every single instance."

**LADIES! LOOK YOUNG, DARKEN GRAY HAIR**

Use the Old-time Sage Tea and Sulphur and Nobody will Know.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Peace will have a three-fold meaning if at this Christmas season your gift is a War Savings Stamp. It makes the recipient a stockholder on the biggest and best corporation on earth. It lays the foundation for someone's future prosperity for who but those who acquire habits of thrift and economy are made prosperous and strong, independent and self-reliant?
