DON'T THROW AWAY YOUR OLD SHOES

Make Them Wear Like New—As Did This Canadian Officer

A Canadian army officer, William Pemberton, of the famous Princess Pat Regiment, told of the extraordinary wear given him by a pair of army boots twice repaired with Neolin Soles.

"Six months of trench warfare under destructive conditions put the first pair of Neolin Soles out of business," said Lieutenant Pemberton, "but ordinary soles would have gone to pieces in much less time."

Don't throw away shoes that can be repaired. Have them re-bottomed with tough, durable Neolin Soles. Any cobbler or repairman will do the work for you. The price is no more than for soles that give less wear. Remember—Neolin Soles are created by science to be what soles should be. They are flexible and waterproof as well as durable. They come on new shoes of all styles. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.
