

Local News Notes

The dance at Antioch on Friday night attracted a number of Alliance young people.

Secretary W. D. Fisher returned Friday from Wyoming. He was also in attendance at the sixth district good roads meeting at Sidney last Wednesday.

Nebraska furnished 51,000 soldiers, sailors and marines during the great war, or one man with the colors for each twenty-four of the population. And Nebraska challenges any other state to excel that record.

Walter Overton, proprietor of the Overton garage left Tuesday night for Denver. He plans to take in the stock show and to attend to some business matters pertaining to his business here.

Chas Brittan, well known Alliance banker, returned Monday morning from a business trip east which took a week. Mr. Brittan is optimistic over the western Nebraska outlook for the coming year and believes that Nebraska will have a prosperous era during the coming months.

F. B. Tobin well known western Nebraska volunteer fireman of Sidney, spent Monday in the city. He joined the Alliance delegation and journeyed with them to Fremont to the state convention.

Switchman Ed. Healy suffered a very painful injury last Wednesday when he fell while at his work in the yards and in falling dropped a switch frog on his left foot. While no bones were broken he is forced to use crutches in getting around and will no doubt be unable to return to his work for some little time.

Lloyd C. Thomas, editor of The Herald, is at Fremont this week in attendance at the Firemen's convention, to which he is an Alliance department delegate.

An article in last week's Herald was headed "City Light Department earned Nearly \$200." The second paragraph was incorrect in that a portion was omitted by error. The paragraph should have read, "The report showed gross earnings for the month of \$5,733.04, discounts allowed \$386.56, operating expenses \$2,234.16, construction expenses \$185.35 and net earnings \$2,926.97. The month previous showed gross earnings of \$4,957.92, discounts allowed \$381.38, operating expenses \$4,203.37, construction expenses \$208.40 and net earnings of \$164.77. The same month a year ago showed gross earnings of \$4,284.08, discounts allowed \$279.39, operating expenses \$2,320.36, construction expenses \$209.67 and net earnings of \$1,474.66.

The company prospecting for oil near Harrisburg, Banner county, is evidently hopeful, for it is still at work and already its prospect hole is down deeper than 99 per cent of the prospect holes. Some trouble has been experienced in losing drills and by chocked casing, but the drilling is proceeding with all possible speed. The company is prepared to go to a depth of 5,500 feet or more than a mile before abandoning the project.

Will M. Maupin, director of the Bureau of Publicity, in his annual report to the governor, showed that he had kept well within the limits of his appropriation; that he had printed and circulated 12,000 copies of "Nebraska Facts;" that he had printed and circulated 180,000 pieces of printed matter about Nebraska, and answered several thousand letters of inquiry about Nebraska. He recommends the continuation of the department with an adequate appropriation. Mr. Maupin says in his annual report that he cannot speak too highly of the co-operation shown the Department of Publicity by the newspapers of Nebraska.

Reports to the State Board of Agriculture point to a largely increased wheat acreage and the crop prospects were never better at this time of year. Western Nebraska reports an unusual amount of snow, which spells growing season.

On January 2, 1919, the deposits in the banks of Nebraska totaled approximately \$70,000,000 more than January 1, 1918. This, too, despite the fact that Nebraska bought more Liberty Bonds and Thrift Stamps in proportion to population than any other state.

During 1918 the secretary of state issued 170,000 automobile licenses. There are enough automobiles in Nebraska to give every man, woman and child in the state a ride all at the same time without undue crowding an average seven passengers to the car.

The sugar campaign in Nebraska is practically closed, but one factory now remaining in operation and it will close about February 1. During the campaign the four Nebraska factories made approximately 125,000,000 lbs. of sugar and paid out upwards of \$5,500,000 for beets and labor. Contracts for the 1919 crop are now being made on the basis of \$10 per ton beets at the factory, with the unrestricted delivery after October 5, and \$1 per ton extra for sliced beets, slicing being optional with the grower. The indications are for a greatly increased acreage.

WORK WEARS ON THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for People Who Work in Alliance

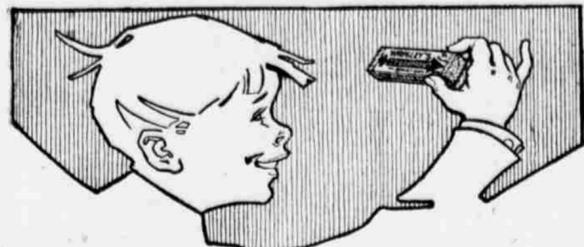

Many Alliance people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other

ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills are for weak kidneys and bad backs. Their effective work in Alliance is convincing proof of merit.

Mrs. Lee Moore, 114 Platte Ave., Alliance, says: "Because of the help Doan's Kidney Pills have given so many people I know, as well as what they have done for me I know, they

are a good kidney medicine. I had spells of kidney disorder. My back was lame and weak and ached in a steady wearing way. Keeping around at my housework was hard and I had headaches and was nervous. Doan's Kidney Pills relieved me of this suffering."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Moore had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

MAKE YOUR SHOES WEAR LONGER

Ten months ago, W. H. Kelley, a lumber salesman of Omaha, had a pair of shoes re-soled with Neolin Soles. Mr. Kelley does much walking and has worn these shoes constantly. He says "they are still good for another ten months of year."

Good shoe stores carry Neolin-soled shoes in many sizes for men, women and children. They cost you no more than shoes that give less wear. Neolin Soles are also available everywhere for re-soles. Remember—these soles are created by science to be what soles should be. They are comfortable and waterproof—as well as long-wearing. They are made by The Goodwear Tire & Rubber Company, Akron, Ohio, who also make Winslow Heels—guaranteed to outwear any other heels.

B'S'NESS

With U and I Left out

Doesn't look natural, does it? This only goes to prove the old saying:

"It Takes Two-to Make a Bargain"

That's why they put U and I in

BUSINESS

to round out the word and make its meaning complete, representing both buyer and seller.

No business, our's included, can succeed without U. Knowing this, we always consider U first. We spell business with a capital "U" and a little "I"—like this

bUsiness

and we want U to know it. In other words, your interests are always considered first. Our aim is to please U in every possible way, shape and manner, in service, quality and price.

We Need U

and, by the same token,

U Need Us
