

# "I Want to See Every Wage Worker Own His Own Home."

—W. B. WILSON, SECRETARY OF LABOR

This is a direct plea from the Secretary of Labor to every WORKING MAN AND WOMAN IN THE UNITED STATES. The Secretary of Labor knows, from his own early experiences, that it is possible for every working man to own his own home. He knows, further, that homes are not created by chance, but by hard and persistent effort. Homes bring self respect; homes inculcate the habit of thrift; and homes are the very foundation for your future usefulness AS AN AMERICAN CITIZEN.

**THE HARDEST THING IN GETTING A HOME IS IN WORKING YOUR DETERMINATION TO THE STARTING POINT.** After making the start the rest is easy. **LET US HELP YOU WITH THE STARTING POINT.**

**HOME BUILDERS**

### THE LUMBER DEALERS BOOST "BUILD NOW" CAMPAIGN

Give More Added Impetus When They Announce Reduction of Retail Prices on Material

The lumber dealers of Alliance have done much to stimulate the "build now" campaign when they announce a reduction in the retail prices of lumber. Action was taken this week by the managers of the three local yards to make the prices as much lower as is possible at this time, that the work might be encouraged.

While the costs of lumber and building materials were not advanced by the war-time conditions as were the costs in some other lines, there has as yet been no lowering of these costs to the retailers and the action taken by the local dealers comes therefore as a direct result of desiring to assist in the work of building up the community and is by the same right very commendable.

If there is one thing needed in Alliance more than another it is the erection of a number of modern residence buildings. Seldom does a day pass but that some one calls at this office seeking a house, furnished or some sort of residence accommodations. Many, no doubt, who would otherwise locate in the city, leave because of their inability to find suitable quarters. Others, who though they manage to live, cramped into one or two rooms, would be only too glad to buy or to rent a home were such to be had. The Community Building Association is to build ten new houses, but ten is greatly insufficient. This number will, of course, relieve the situation to an extent, but fifty would be none too many. A number of local people have expressed their intention to build in the near future and some of them have already made preliminary plans for such, while others have awaited a hoped-for drop in the cost of materials. A marked drop cannot be hoped for, we believe, in the very near future. Local dealers do not see signs that would indicate such a change, but they have come forward with a plan that means much to the prospective builder, to the community and to themselves in that in assisting so materially in so important a move they show a splendid spirit of co-operation toward their fellow citizens and boosters. By all means the campaign for more houses—to be built now—should be pushed with all vigor. Many fold will be the good derived therefrom, and among the many benefits surely the employment of the returned soldier boys should receive due consideration.

"Build houses—build NOW!"

**HEREFORD AND SHORTHORN SALE**  
At Ansley, March 28, 1919. 100 head Registered Hereford and Shorthorn Cattle—70 bulls, 30 young bred cows. Write for catalog. B. J. TURNEY, Ansley, Nebr. 11-7837

**An Inside Bath Makes You Look and Feel Fresh**  
Says a glass of hot water with phosphate before breakfast keeps illness away.  
This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

### IS THE WAR OVER?

"The war is over—rather I should say it is simply a lull in the storm." Such is the comment of Premier Clemenceau of France on the present situation. What does he mean by such a statement? Just this—that while the victory has been won, there yet remains the necessity of making it good.

Orderly government must be established, anarchy must be crushed, if the future peace of the world is to be assured. Hunger is today breeding anarchy in over half the world.

Serbia is being fed by the British armies, Russia is out of the producing game, the new Czech-Slovak republic is crying for food, millions of acres of land in France have been devastated, millions of producers have been killed. If the world is to be a safe place in which to live, America must produce.

American farmers patriotically answered the call for increased production last fall and saved the day. It is estimated that this year's harvest will be greater inasmuch as a greater acreage has been planted. Thus the American farmers replied to the appeal to produce.

There is a nation-wide shortage of farm labor. To meet just such emergencies, to produce seasonal labor for the farmers of the nation, the U. S. Boys' Working Reserve was organized. Town, city and country boys from sixteen to twenty-one are enrolled in the Reserve.

In November, 1918, nearly forty thousand Nebraska boys registered for agriculture service, placing their labor at the disposal of the farmers. Those who have not had considerable experience on the farm are being taught the rudiments of farm work through the high schools of the state. Will you need help this summer? Your Federal County Director, E. G. Lains, will be pleased to have you communicate with him.

### HENRY FORD ANNOUNCES A CHEAPER AUTOMOBILE SOON

Alliance Would Be Excellent Location for Establishment of One of Factories

Los Angeles, Calif.—Henry Ford is organizing a new huge company to build a cheaper car. The machine was designed by the Detroit automobile manufacturer during his "rest" period at Altadena, and will sell at from \$250 to 350. The new car will be handled by another organization than the Ford Motor company.

Mr. Ford and his party departed Wednesday for Detroit.

In an interview, Mr. Ford said: "I have decided on the new undertaking and, as matters stand, intend to go ahead with it."

"In this company all the stock will be owned by my family."

"For our new project we are already looking about for water power sites. The car itself is well advanced, for I have been working on it while 'resting' here in California. We shall have a plant on this coast and all over the country. In fact we purpose to dot the whole world with our factories because I believe that every family should have a car and it can be done."

"I can mention Los Angeles, San Francisco, Portland, Denver, Omaha, Seattle, Tacoma and Spokane among the western cities in which I expect to build factories. With these numerous factories I will cut transportation costs to a minimum and the public will get the benefit."

Alliance would be an excellent point for one of the numerous factories. The local Ford distributors, Coursey & Miller, have shown that the demand for cars in this territory is almost unlimited and have by their efforts given this popular car a prestige that causes the demand to be unfilled the larger part of the year.

### REPORT OF CONDITION OF THE Alliance National Bank at Alliance, in the State of Nebraska, at the Close of Business on March 1, 1919.

| RESOURCES   |              |                     |

State of Nebraska, County of Box Butte, ss:  
I, F. W. Harris, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

Correct—Attest: F. W. HARRIS, Cashier.  
F. E. KNIGHT,  
R. E. HOLSTEN,  
F. E. KNIGHT, Directors.

Subscribed and sworn to before me this 15th day of March, 1919.  
(SEAL) M. S. HARGRAVES, Notary Public.

### OLD POSTAGE RATES WILL RETURN ON JULY FIRST

As announced in The Herald last week, beginning July 1st postage rates for first-class mail will return to pre-war rates. A letter may be sent anywhere in the United States for two cents and postcards and local letters may be sent for one cent. No changes in the rates on second-class matter have been announced.

The repeal of the 3-cent postage regulation is provided for in the revenue act of 1918.

Printing of 3-cent stamps will be restricted and postmasters are urged to dispose of all 3-cent stamps and 2-cent post cards as rapidly as possible.

A limited supply of a new 3-cent victory stamp will be printed for souvenir purposes. The stamps will not be issued to patrons unless called for. The new stamp will be purple, and will bear the design of the figure of Victory standing against a background of the allied colors. The stamps will be distributed within a month.

**How to Train Your Mind**  
The man who makes most of his mind makes most of his life. A free course of twenty-six lessons leading to higher mental efficiency by Dr. Marvin E. Dana will appear one each week in the Sunday State Journal; the same kind of lessons for which many are paying large fees. Journal readers will secure them free. This course is an opportunity for old, young and middle-aged, of the student, the worker and the professional man, of every one who wants to make the most of life thru mental mastery of his work. A great mystery story is just starting, a page a week, "The Mystery of the Downs." Also a series of page articles by Stefansson telling of his marvellous experiences in the arctic. Potash and Perlmutter are telling of the peace conferences. The Sunday Journal is being made better every week. A clever comic strip, The Gumps, has just been added to the daily. Why don't you order The State Journal? Forty cents a month without Sunday or \$4 a year, sixty cents a month with the Sunday, \$6 a year. Send your order today and commence with these new features.

**OPEN NOSTRILS! END A COLD OR CATARRH**

**How to Get Relief When Head and Nose are Stuffed Up.**

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sniffing, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

## Armour and Company

### NOT in the Retail Grocery Business

CERTAIN jobbing salesmen are circulating reports to the effect that Armour and Company control certain retail grocery stores or are planning to enter into the retail grocery business.

These reports are utterly and absolutely false. We desire to brand them as such once and for all. Armour and Company do not control any retail grocery stores wholly or in part. Neither have we any affiliation or connection in any way whatsoever with any owners of any retail grocery stores. Armour and Company have no intention of engaging in the retail grocery business.

Armour and Company distribute and sell a very limited number of food lines not directly produced from livestock. This is only the result of natural evolution. Our system of distribution and marketing must be maintained with the greatest possible efficiency. It is necessary, for reasons of economy, that it handle as great a volume at all seasons as possible.

This same distributive system enables us to carry staple foods to the people of this country with greater efficiency and at a cost that is low commensurate with the service. If our facilities are such that we have been able to serve the public more economically and efficiently than our competitors, then it is the retailer and consumer who benefit.

Armour and Company are more than packers. They are food purveyors. But, our participation in grocery lines represents only 4.6 per cent of our total business. Yet, wholesale grocery houses whose representatives spread these false reports are, themselves, engaged in numerous side-lines far removed from edible products. A recent bill of goods which we purchased from a wholesale grocer, contained more than forty items, not one of which could be used for food—except by an ostrich.

Reports of our engaging, or intending to engage, in the retail grocery business are, without exception, untrue. In the words of Mr. J. Ogden Armour, "We have no intention of adding the woes of retailing to the burdens of manufacturing and distributing."

Armour and Company will continue to regard all retailers as our co-workers. By means of our refrigerator cars and our branch houses it will be our effort to continue to provide them with the finest foods of all kinds that we can select and prepare—under the quality mark of the OVAL LABEL.
