Beauties of Constantinopie.

The city of Constantinople is full of beautiful and interesting things, but in the way of buildings, after Santa Sophia the mosque of Youl Valideh Sultan, the wife of Ahmed I, is the most wonderful. The effect of these tile-lined walfs, hs seen from Galata bridge, with their elaborate interlacing patterns and borders, is extremely striking and there seems to be nothing quite comparable to it. The tiles in this old mosque are considered to be among the finest in all Constantinople.
