

POTATO MARKETS ARE MUCH STRONGER THIS WEEK

(Continued from Page 1)
 potato market continues quite active and inquiries, which are quite heavy, usually mean orders. The roads are yet in bad shape and are being aggravated at the present time on account of a drizzling rain which has been falling. Operators say they are running short on certain varieties and may not be able to fill all standing orders on these kinds. With the tone strong, sacked round whites brought \$1.50 and \$1.55 per cwt., mostly the latter, f. o. b. usual terms. Burbanks were being quoted at \$1.60, and were scarce. Sacked Early Ohio and Rose seed stock brought \$1.40 and \$1.45, and Red River Ohio \$1.25 and \$1.30 f. o. b. the Valley.

Wednesday prices were slightly higher on table stock and seed stock showed a stronger tone at an advance of 5c. The temperature was 4 degrees below freezing and roads were a trifle harder. Sacked U. S. round whites brought \$1.55 and \$1.60 f. o. b., usual terms. Burbanks \$1.60 and \$1.63, and Early Ohio and Rose seed \$1.45 and \$1.50.

Thursday and Friday found little change in the market here, all varieties holding about the same. The temperature was about at the freezing point.

New York Price Advances
 NEW YORK CITY.—There was a much better feeling in the potato market last week and prices advanced a trifle. Receipts have been very light in New York as offerings from shipping sections have been smaller than for some time. This, the shippers say, is because of the bad roads. However, advices from Maine this week by wire are that the roads are in much better condition and that they expect heavier offerings from now on.

In New York state, shippers were paying farmers \$1.40 and \$1.50 per cwt. and were quoting \$1.90 and \$1.95 per cwt. delivered New York. States were selling in the yards here at \$3.75 per 180 pounds bulk.

Up in Maine, shippers were paying farmers \$2 and \$2.25 for Green Mountains and \$1.75 per 165-pound barrel for Cobblers. They were quoting \$1.90 and \$2 for Mountains and \$1.70 and \$1.75 per cwt. for Cobblers delivered Harlem River. Maine stock in the yards was bringing \$3.75 and \$4 per 180 pounds bulk.

"I FEEL JUST LIKE SHOUTING FOR JOY"

Mrs. Biggs Had No Idea Any Medicine on Earth Could Help Her as Tanlac Did

"When I think about how much Tanlac did for me, I feel just like shouting for joy," said Mrs. Lizzie Biggs of Smithfield, Illinois. "For fifteen years I had stomach trouble," she continued, "and I couldn't eat a bite of anything without being miserable for hours afterwards. I also had bilious spells and my head would ache like an iron band was tied around it and often I would get as yellow as a pumpkin. I was nervous, too, and so restless and fitful that often I couldn't go to bed and go to sleep but I would have nervous rigors and many a night I have laid awake waiting and hoping for morning to come and sometimes I couldn't lie in bed any longer, and would just have to get up and sit in a chair, for the rest of the night. I finally got so weak that I couldn't have walked a block if I had been paid a hundred dollars to do it and I felt so bad all the time that life was a burden to me. I tried all kinds of treatments and medicines but none of them did me a bit of good and I began to think there was no hope for me at all."

"When I heard about Tanlac doing so much good and decided to try it I was too weak to go for a bottle myself, and had to send my daughter. I didn't believe it possible for any medicine to do what Tanlac has already done for me. Before I finished the first bottle my strength began to come back and I could sleep better than I have for years. Of course I ordered some more and kept on taking it according to directions and now I feel as strong and healthy as I did thirty years ago. I don't have any more bilious spells and the headaches are gone and my skin is clear again. When meal time comes I have a good appetite and don't have to worry about what I eat or how much because it all agrees with me. All signs of nervousness have left me and now when I go to bed I fall asleep almost as soon as my head touches the pillow. I don't have to send my daughter to the store for Tanlac now, as I can go myself and only the other day I walked down and bought six bottles. I weighed while I was down there and found I had gained twenty pounds. My daughter and I both think Tanlac saved my life and I never intend to be without a bottle of this grand medicine in my house as long as I live."

Tanlac is sold in Alliance by F. E. Holsten, in Hemingford by Hemingford Merc. Co., and in Hoffland by Mallory Grocery Co.

JOBS FOR 10,000 FIGHTERS

Knights of Columbus Employment Bureaus Solving a Pressing Problem.

More than ten thousand former soldiers and sailors are now working at jobs obtained for them by the Knights of Columbus, co-operating with the United States Labor Department. Ten times ten thousand soldiers and sailors will probably find jobs through the Knights within the next twelve months, because this organization is conducting more than seventeen hundred employment bureaus especially for this service.

The Government, recently, went on record commending the Knights of Columbus work in this direction.

To inform employers regarding the men returning from Europe who desire and are eligible for jobs, the Knights have instituted a card system that covers every avenue of information.

These cards, issued by the K. of C. committee on war activities, co-operating with the United States employment service, call for detailed information regarding the soldier, his qualifications, experience, etc. He is asked to state where he worked before and where he now desires to work. The cards are presented to returning troops while at sea, giving the men ample time to fill them out.

Before the soldiers embark on this side the cards are collected by the Knights of Columbus secretaries, who forward them to headquarters at New Haven, where they are sorted and then sent to the K. of C. man in charge of the job-finding service in the locality where the soldier desires employment.

In this way through its 1,700 councils, through its secretaries engaged in transport work, and its secretaries at naval stations and home camps, the Knights will bring to the problem of returned defenders a well organized and efficient machinery.

In home camps secretaries have been co-operating with the Department of Labor and with the Government's Employment Service, aiding in the replacement in civilian occupation of many hundreds of soldiers. The men returning from overseas have not had the same opportunity to get in touch with employers as the men stationed at home.

Through the Knights of Columbus about one-third of all applicants for work are placed in positions within one week after filing an application.

An Obstacle.
 For most people an obstacle is something in the way to stop going on, but for General Armstrong it merely meant something to climb over, and if he could not climb all the way over he would get up as high as possible and then crawl—General Marshal.

Appealed to Novelists.

Fully a score of novels have been written round the case of Lesurques, who was wrongfully executed in France for the robbery of the Lyons mail and the murder of the courier; the real criminal was one named Duboscq, to whom Lesurques bore a striking resemblance. The crime also formed the subject of several stage dramas; in one of them Sir Henry Irving scored a success in the dual part of Lesurques-Duboscq.

When a Nut Isn't.

The peanut isn't a nut at all, but a member of the pea, bean and clover family. It is a legume and gathers nitrogen from the air. Peanuts do not grow from roots, but on shoots which grow out from the plant above ground, bear a little sterile yellow blossom and then shoot directly into the ground, where they peg—that is, where peanuts begin to grow on them.—St. Nicholas.

Live in Today.

Do today's duty, fight today's temptations, and do not weaken and distract yourself by looking forward to things which you cannot see, and could not understand if you saw them.—Charles Kingsley.

Human Fruitage.

Nature does not bear fruit for herself, but for man. The branch does not bear the rich clusters for its own selfish appetite. Our fruitage must be for mankind. Your aim is a mistaken one if you are seeking spiritual comfort, quiet satisfaction, joy here and hereafter, just for your own little self.—Christian Herald.

EXTRA LONG WEAR FROM SHOES

T. D. Collins of Ookala, Hawaii, makes a remarkable statement which demonstrates the money-saving durability of Neolin Soles.

He writes, "After wearing a pair of Neolin-soled shoes off and on for thirty-three months, I wore them on a trip to the volcano of Kilauea and walked around the crater over hot lava six times and still the soles showed only slight signs of wear."

This experience is not accidental. It results from the scientific process by which Neolin Soles are made to be exactly what soles should be—comfortable, waterproof and exceedingly economical because of the long wear they give.

Get them on new shoes for all members of the family and have them put on worn shoes. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.

Naval Names Perpetuated.

Few of the famous British regiments still bear the names under which their early battle honors were won, but the navy—whose record of fame dates from a much earlier period than the army—has consistently followed the policy of perpetuating her famous names. The name of a famous battleship is handed down to a capital ship, while a famous frigate or sloop is perpetuated in a modern gunboat or light cruiser.

Aleppo Once of Importance.

In ancient days Aleppo was a depot on the great trade trail between India, the regions along the Tigris and Euphrates, and the Mediterranean. Although it has lost much of its commercial importance, it still sends to Alexandria the products of Mossoul and Bagdad.

FOR SALE or TRADE

A five passenger HUPMOBILE Touring car in excellent condition completely equipped in every way. Will sell for cash or trade for cattle.
