

# WAR HAS BEEN DECLARED ON THE CITY DUMP

WAR SAVINGS STAMP AND THRIFT STAMP WILL NOW COMPETE

Plan Will Solve One of the Problems of the "Clean Up and Paint Up" Campaign

The Department of Commerce has declared war on the city dump. The chief consumer of the waste material of this country is the city dump, but the Waste-Reclamation Service has formulated a plan which will lessen the annual loss through this channel. In conjunction with the national "Clean Up and Paint Up" Campaign Bureau and the Savings division of the United States Treasury, the department has established a new competitor for the waste material of this country. The War Savings Stamp and the Thrift Stamp will now compete with the city dump for the thousands of tons of valuable waste material which are now lost through our present method of disposal.

This is "Clean Up and Paint Up" time, and the accumulation of the winter will shortly be moving to the dump. In our urban communities we annually send to the dump 13 tons of valuable waste material for every 1,000 persons living in a community. Twenty per cent of this tonnage is made up of waste paper, as this is the first item that is destroyed. Based upon the present approximation of the population of our urban centers, about 150,000 tons of paper are sent to the dump annually.

Great Britain, under the stress of war, increased her collection of waste paper from 1,000 tons to about 6,000 tons of paper a week. America annually sends to the dump about twice as much paper as was collected in all of Great Britain in 1914. Great Britain increased her collection of paper approximately 500 per cent in four years. This tremendous increase in volume was effected through the efforts of the controller of paper. The War Savings and Thrift Stamp can become the paper controller for this country. The Waste Reclamation Service has requested the local Waste Reclamation Councils in centers advantageously situated to the markets to utilize the Stamp in an effort to check the movement of waste material dumpward. The councils have been advised to district their communities, assign a waste dealer to each district, and to have the housewife sell her waste for Thrift Stamps.

This plan will solve one of the problems of the local "Clean Up and Paint Up" campaign committees. It will lessen the burden on the collecting agency of the city and render it no longer necessary to burn the dump to prevent the waste paper from being blown back into the community.

The National "Clean Up and Paint Up" Campaign Bureau's program, which is receiving the support of the Department of Commerce and the Council of National Defense, as a means of stimulating local industries and intensifying the demand for

skilled labor in all centers, will include the waste saving feature in order to develop the waste trade in the community and to assist the Department of Commerce in its war on the city dump.

### REDUCED PRICES ON LUMBER

For the purpose of encouraging the erection of buildings at this time we are making substantial reductions in the price of lumber. For particulars call on

**FOWLER LUMBER COMPANY**  
J. D. Heck, Mgr. Alliance, Nebr.

One of the important features of a gas engine is the cost of upkeep and operation. The Cushman Light Weight will handle any work that any other engine of its size will handle and the cost will be very low. Among the several sizes you are sure to be able to select one suited for the job you have. They are compact, yet powerful; improved to the last word of gas engine perfection, yet priced very reasonable. See them on pany. 78651f

### Perfect Engineering Feat.

At Omaha, Neb., a brick chimney 202 feet high and weighing 237 tons was made to fall exactly where the engineer who performed the feat wanted it to fall, between two buildings, without marring either one of them. The bricks on one side of the base of the chimney were removed and replaced with hardwood timbers, which were burned.

### Concerning Snakes.

Poisonous snakes have diamond-shaped heads about four times larger at the jawbone than at the neck, according to World Wide Magazine. They also have blunt tails. Non-poisonous snakes have sharp heads, which are nearly the same size as the neck, and sharp tails. All snakes, however, are poisonous during the "shedding" period of seven days. They go blind two days before "shedding."

### No Need to Be Alarmed.

James brought his pet bulldog to the store. As the dog looked vicious, I moved away from him. James looked up quickly, then said: "Never mind him; he ain't bitous."—Exchange.

### KEEP IT SWEET

Keep your stomach sweet today and ward off the indigestion of tomorrow—try

## KI-MOIDS

the new aid to digestion. As pleasant and as safe to take as candy.

MADE BY SCOTT & BOWNE  
MAKERS OF SCOTT'S EMULSION

### For Dependable Power Keep Lubrication Correct

Farm tractors present a special problem in lubrication. Their operating heat is normally somewhat higher than automobiles—considerably higher where kerosene is the fuel.

## STANOLIND Tractor Oil

is manufactured to meet tractor engine requirements. It is endorsed for this service by leading tractor manufacturers. It coats, cushions and protects the engine's vitals—pistons, cylinders, valves and bearings—against destructive friction. Keeps engine power at par the year round.

# PRINCE ALBERT

the national joy smoke

PUT a pipe in your face that's filled cheerily brimful of Prince Albert, if you're on the trail of smoke peace! For, P. A. will sing you a song of tobacco joy that will make you wish your life job was to see how much of the national joy smoke you could get away with every twenty-four hours!

You can "carry on" with Prince Albert through thick and thin. You'll be after laying down a smoke barrage that'll make the boys think of the old front line in France!

P. A. never tires your taste because it has the quality! And, let it slip into your think-tank that P. A. is made by our exclusive patented process that cuts out bite and parch—assurance that you can hit smoke-record-high-spots seven days out of every week without any comeback but real smoke joy!

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

# The Tongue Test

Put a little alum on the end of your tongue and you will have the reason why alum baking powder should not be used in food.

England and France forbid the sale of baking powder containing alum.

You can tell whether baking powder contains alum by reading the label.

# ROYAL Baking Powder

Absolutely Pure

Royal Contains No Alum—  
Leaves No Bitter Taste

## Wyman Partridge

# HOME FROCKS—

Are Becoming

Many a woman thinks the house dress the most important part of her wardrobe! She believes that home is the place of all where a woman should look attractive, fresh and dainty. We agree with her.

And it's this refined type of woman who is attracted by the garments made in the model Wyman, Partridge & Co. factory.

Every frock combines service with style and economy in the way that meets her standards of good taste at a moderate expenditure.

The designs are varied and unusual, affording ample opportunity for personal choice. The "set" of collar, style of fastening, details of pocket, belt, etc., are planned to give something original in every model. And all are attractive without sacrificing practical, durable wear.

Just the style, color and size you want in the new models.
