Thursday May 29th, 1919.

LIVE STOCK PRICES AT SOUTH OMAHA Beef Steers S'ow to 25c Lower Than Last Week HOGS SELL 15-25c LOWER

Broad Demand for the Limited Offerings of Sheep and Lambs at Prices 15@25c Higher Than Last Friday .---California Spring Lambs \$18.65.

Union Stock Yards, South Omaha, May 27 .- Although there was only a moderate run of cattle for a Monday, 5,800 head, the market was slow to 25c lower than the close of last week. Desirable yearlings at \$14.00@15.00 were not so very much lower, the decline falling mainly on the good heavy cattle at \$15,25@16.25 and the fair to good kind at \$13.50@14.50. Cows and heifers ruled slow to 10@15c lower than last week while stockers and feeders were in limited supply and about steady.

Quotations on cattle; Choice to prime heeves, \$15.50@17.00; good to choice beeves, \$14.00@15.25; fair to good beeves, \$13.00@14.00; common to fair beeves, \$11.00@13.00; good to choice yearlings, \$14.00@15.75; fair to good yearlings, \$12.00@13.75; common to fair yearlings, \$9.50@12.00; good to choice heifers, \$12.00@13.75; prime cows, \$11.75@13.75; good to choice cows, \$10.00@11.75; fair to good cows, \$9.00@10.25; cutters, \$6.50@9.00; canners, \$5.50@6.50; veal calves, \$8.00@ 14.00; bologna bulls, \$8.50@10.00; beef ... bulls, \$10.00@12.50; good to choice feeders, \$12.50@13.50; medium to good feeders, \$10,50@12.50; good to choice stockers, \$12.00@13.00; fair to good stockers, \$10.00@11.00; common to fair grades, \$8.00@9.50; stock helfers, \$8.50 @10.00; stock cows, \$8.00@9.50; stock calves, \$8.00@12.00.

A 15@25c Break in Hogs.

There was a liberal run of hogs for the opening day of the week, 11,300 head, and buyers were able to force a further decline in prices amounting to 15@25c. Tops brought \$20.35 and the bulk of the trading was at \$20.00@ 20.15 or a half dollar lower than one week ago.

## Sheep and Lambs Higher.

The run of sheep and lambs was comparatively light, 6,500 head, and although the opening was rather slow, it did not take dealers long to clean up the supply at a 15@25c advance. Spring lambs brought \$18.50@18.65. Quotations on sheep and lambs: Lambs, spring, \$17.00@18.65; lambs, handy weight, \$13.50@14.35; lambs, heavy weight, \$12.50@13.50; lambs, culls, \$6.00@12.00; yearlings, \$11.00@ 12.00; wethers, \$9.50@11.00; ewes, good to choice, \$9.75 \$10.25; ewes, fair to good, \$8.50@9.75; ewes culls, \$6.00 @8.00.

(Prepared by the United States Depart-ment of Agriculture.)

Now that farming is to be restored to a peace-time basis, the United States department of agriculture believes that many lands formerly devoted to pasture or meadow but recently used for emergency grain production should be reseeded to grass. The signing of the armistice found the United States with relatively large supplies of foods and relatively small supplies of feeds, with much land impoverished by having been planted to grain year after year, and with a still

Raise More Dairy Calves-the Nation Needs Them.

increasing demand for meat and fats. Numbers of all classes of live stock have been maintained. Those of swine and sheep have been increased, the former largely, the latter slightly. But the quantities of forage and pasturage for live stock have been diminished. Sound agricultural practice demands, the department thinks, the reestablishment of regular and satisfactory rotations so that fertility may be WANTED TO BREAK SOD-We restored and the live stock carrying capacity of the land increased.

Live stock, since it helps to retain fertility on the land, provides a profitable use for large amounts of roughthroughout the year, should find a place on a larger number of farms. Diversified farming should become more general, to the end that each

farm shall produce the necessary food for its family and the necessary feed coats at very low prices—Keep-U-for its live stock. Loss from preventable plant dis-

eases should be guarded against by seed treatment and spraying. Harvesting of fruits and vegetables before exposure to frost, and greater care during harvesting, packing, storing, and marketing, are urged, together with continued organized efforts

Use Time to Advantage. Time, which never stands still itself, will not allow any one of us to stand still. It delivers into our hands sixty minutes every hour and compels us to dispose of them in some way. Whether we will or not, a constant accounting has to be rendered. One who falls into the habit of dissipating time dissipates not only opportunity but happiness, for the spendthrift of time becomes a spendthrift of the other things which make life worth while .-- Forbes Maga-

## What Quadrille Means.

GEORGE J. HAND, M. D.

Asthma and Hay Fever

Recent articles on the war tax just levied on soft drinks, confections, etc., have given rise to some misunderstanding, and the Wm. Wrigley, Jr., Company issues a statement to the effect that the 3% tax on chewing gum does NOT affect the retail dealer or the consumer. Wrigley explains that the manufacturers stand this tax, and there should be NO CHANGE in the price chargely a for your package of Wrigley's Spearmint, Doublemint or Juicy Fruit. In other words, the

CHANGE OF BOUNDARIES BE-TWEEN THE ALLIANCE AND BROKEN BOW LAND DISTRICTS IN THE STATE OF NEBRASKA.

Notice is hereby given that the President of the United States, by Executive Order of April 8, 1919, in accordance with the provisions of Section 2253 of the Revised Statutes of the United States, and by virtue of 20tt7911 the authority therein given, directed that:

the land office at Alliance.

of the land office at Broken Bow, Nebraska, will transact no business pertaining to the lands referred to after June 30, 1919.

May, A. D., 1919.

## ANNOUNCING UNDERTAKING PARLOR You are assured when you

have your funeral arrangements handled by this establishment that you will have the best of service and supplies at reasonable prices.

Labor-Saving Devices.

Water is used to transport fine coal through pipes, and in Oregon a blast of air is used to load hay in freight cars. The hay is drawn up to a deck or float beside the car to be loaded, a crane then lifts the hay to this platform, and a blower, driven by a gasoline engine, huris the hay forcibly in to the car, packing it better than can be some with old-fashioned hand fork.

Dally Thought. Dreaming of a tomorrow, which tomorrow will be as distant then as to-

DRINK A GLASS **OF REAL HOT WATER** BEFORE BREAKFAST. Says we will both look and feel clean, sweet and fresh and avoid iliness.

Sanitary science has of late mad rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the hu-man body as it is to the drains of the

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stom-ach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large vol-ume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are both-ered with constipation, billous spells, stomach trouble, rheumatic stiffness others who have sallow skins, blood disorders and sickly complexions are stone phosphate from the drug store. urged to get a quarter pound of limewill cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation .

eases of animals.

Increase in Pork in West Virginia More Than Million and One-Half Pounde-Silage le Fed.

(Prepared by the United States Depart-ment of Agriculture.)

County agents of West Virginia, in carrying out the program of the United States department of agriculture and the state agricultural college to increase food production, last year encouraged the farmers of the state to keep additional sows, the result being that these sows produced 13,722 pigs, which increased West Virginia's pork production by more than a milbeen one of the things particularly emphasized by the agents and thereby 16,446 cows were bred to registered sires instead of scrubs, which meant an increased value at birth of calves of at least \$164,460, it is estimated. The agents report that 7,520 cattle were fed silage for the first time last winter with a resultant saving of not less than \$37,600 to their owners. Ewes to the number of 6,895 were bred to registered rams instead of scrubs with a prospective increased value of the lamb crop of upward of \$8,600. Sheep numbering 4,225 and valued at more than \$21,000 were saved from the ravages of parasites through the activi-

ties of the various county agents.

their pigs during the weaning period.

If we are to continue to eat beef we must exert ourselves to produce more beef cattle.

More pigs are lost between farrowing and weaning than at any other period.

Oats, scattered out thinly to force exercise, are fed to brood sows by many good hog men.

There are a lot of cows in barns that ought to be in tin cans. The cow-testing associations find them.

## The Target at Fault.

A company of militia had been out all day for target practice, and on their return the captain said to one of the sergeants: "How are your men coming along, sergeant?" "Well, sir," said the sergeant, with an air of great pride, "my men shot very well today, very well, but they would have shot better perhaps if the target had stood a little more to the left !"

The word "quadrille" is derived Mollring, Alliance, Nebr. 12-tf-7950 from the position of the dancers, the French word "quadrille" meaning a little square, "Country dance" does not mean a rustic dance, but it is a corruption of the French term contredanse, which relates to the position of the couples-opposite to each other."
