

**PUBLIC NOW TOLD
ALL ABOUT TANLAC**

Authorities Now Show Just What This Medicine Really Is.

In a recent issue of this paper announcement was made that Tanlac now has the largest sale of any medicine of its kind in the world, and that more than twelve million bottles had been sold during the past four years.

These are unusual figures, and the question naturally arises in the mind of the reader why this phenomenal success and why has this preparation so far outstripped all other medicines of its kind. It is only natural therefore that the manufacturers should offer some explanation to satisfy public interest.

In the first place, Tanlac is manufactured in one of the largest and most modernly equipped laboratories in this country. Its formula is purely ethical and complies with all national and state pure food and drug laws. Altogether there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

Many of these ingredients have been individually known and used since civilization first began, and some of them have been used and prescribed by leading physicians everywhere, but until they were brought together in proper proportion and association as in the Tanlac formula, humanity had not heretofore realized their full value and effect.

In referring to one of the more important ingredients of Tanlac, the Encyclopedia Britannica says: "It has long been the source of the most valuable tonic medicines that have ever been discovered." In referring to others of the general tonic drugs contained in Tanlac the 13th Edition of Potter's Therapeutics, a standard medical text book, states that—"they impart general tone and strength to the entire system, including all organs and tissues."

This same well known authority in describing the physiological action of still another of the ingredients of Tanlac which is of value in treating what is commonly known as "a run-down condition" uses the following expression: "It is highly esteemed in loss of appetite during convalescence from acute diseases."

There are certain other elements in Tanlac which because of their influence upon the appetite, digestion, assimilation and elimination improve the nutrition and vital activity of all the tissues and organs of the body, and produce that state of general tonic which is called health.

In discussing another ingredient the Encyclopedia Britannica says: "It is one of the most efficient of that class of substances which act upon the stomach so as to invigorate digestion and thereby increase the general nutrition. It is used in dyspepsia, chlorosis, anemia and various other diseases in which the tone of the stomach and alimentary canal is deficient." Concerning still another ingredient this same standard authority says: "It causes dilation of the gastric blood vessels, increases secretion of the gastric juice, and causes greater activity in the movements of the muscular layers in the walls of the stomach. It also tends to lessen the sensibility of the stomach, and so may relieve gastric pain." r

The United States Dispensatory makes the following comment regarding another ingredient: "It may be used in all cases of pure debility of the digestive organs or where a general tonic impression is required. Dyspepsia, atonic-sour hysteria, and intermittent fever are among the many affections in which it has proven useful."

There are certain other ingredients described in the Dispensatory and in other standard medical text books as having a beneficial action upon the organs of secretion, whose proper functioning results in the purification of the blood streams passing through them. In this manner objectionable and poisonous ingredients of the blood are removed, and the entire system is invigorated and vitalized.

Tanlac was designed primarily for the correction of disorders of the stomach, liver, and bowels. At the same time, however, it is a powerful reconstructive tonic and body builder, for it naturally follows that any medicine that brings about proper assimilation of the food and the thorough elimination of the waste products must therefore have a far-reaching and most beneficial effect upon the entire system.

Although Tanlac's claims for supremacy are abundantly supported by the world's leading authorities, it is the people themselves who have really made Tanlac what it is. Millions upon millions have used it, and have told other millions what it has done for them. That is why Tanlac has become the real sensation of the drug trade in this country, and that is also why it is the most widely talked-of medicine in the world today.

Tanlac is sold in Alliance by F. E. Holsten, in Hemingford by Hemingford Merc. Co., in Hoffland by Mallory Grocery Co.

HOME DEMONSTRATION DEPARTMENT

By LULU BOYES
Home Demonstration Agent.

A great many poultry raisers think with the coming and passing of June their work is or can be reduced to the minimum. This, of course is a great mistake. In all seasons, in all sections at all times, the vermin question must be fought. Lice and mites do more damage than the average person knows, or cares to admit. Right now all over the United States lice and mites are very busily engaged in their propaganda work of increasing their membership. Get out your machine guns and don't give them a chance, this is the month for good offensive work, don't get lazy. Get in touch with the County or Home Demonstration Agent, ask them to furnish you with the proper information as regards the infertile egg business.

There seems to be a mistaken idea that Miss Boyes, is here to work with the country women alone. The government has placed the Home Demonstration agents in the counties for the women, whether they live in the city or in the country their interests are the same in relation to their home problems. When the women in Alliance are ready to plan and arrange for meetings Miss Boyes will be glad to meet with them.

The value of Nebraska's butterfat output would be increased several cents a pound if all of the dairy farmers could be induced to give the milk and cream better care, says Nebraska Agricultural Experiment Station Circular No. 3, entitled, "Cooling Tanks and Milk House as Factors in Cream Improvement," which has just been reprinted. The circular discusses cleanliness, utensils, cream cooling, cream cooling tanks, cream grading, milk houses, etc. A copy will be sent upon request to the Nebraska Agricultural Experiment Station, Lincoln.

**SAFE, GENTLE REMEDY
BRINGS SURE RELIEF**

For 200 years GOLD MEDAL Haarlem Oil has enabled suffering humanity to withstand attacks of kidney, liver, bladder and stomach troubles and all diseases connected with the urinary organs and to build up and restore to health organs weakened by disease. These most important organs must be watched, because they filter and purify the blood; unless they do their work you are doomed. Weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, pains in the loins and lower abdomen, gravel, difficulty when urinating, rheumatism, sciatica and lumbago all warn you of trouble with your kidneys. GOLD MEDAL Haarlem Oil Capsules are the remedy you need. Take three or four every day. The healing oil soaks into the cells and lining of the kidneys and drives out the poison. New life and health will surely follow. When your normal vigor has been restored continue treatment for a while to keep yourself in condition and prevent a return of the disease. Don't wait until you are incapable of fighting. Start taking GOLD MEDAL Haarlem Oil Capsules today. Your druggist will cheerfully refund your money if you are not satisfied with results. But be sure to get the original imported GOLD MEDAL and accept no substitutes. In three sizes. Sealed packages. At all drug stores.

JOYFUL EATING
Unless your food is digested without the aftermath of painful acidity, the joy is taken out of both eating and living.

KI-MOIDS
are wonderful in their help to the stomach troubled with over-acidity. Pleasant to take—relief prompt and definite.
