

The Imperial theatre will close after the shows on Sunday for a period of about thirty days or until the changes planned are made. The work of laying the new floor in the greatest of the job and when finished this popular picture house will be second to none in western Nebraska.

Gomper's Appeal for Savings.
Samuel Gompers, President of the American Federation of Labor, said of the War Savings and Thrift Stamp campaign:

"While it helps our government, it also helps those who obey. It is good work."

"Intelligent saving means MORE JOBS, MORE WORK AND BETTER WAGES. If you practice saving and help others to do so, you perform a patriotic duty to your country, uphold the principles you advocate and add strength to the organization to which you belong. This does not mean hoarding your savings in a 'stocking' but its investment in Government securities or some other safe investment. If each of the 3,000,000 members of organized labor saved a dollar a week, they would accumulate \$159,150,000 in a year."

REHABILITATION OF DISABLED YANKS

United States soldiers, sailors and marines who are injured in the service of their country are receiving special consideration at the hands of the United States Civil Service Commission and the Federal Board for Vocational Education, working in cooperation.

When the Civil Service Commission receives an application for examination from a discharged Yank, whose physical condition is such that he would not ordinarily be accepted, his case is referred to the Federal Board for Vocational Education. The Federal Board turns the matter over to a field officer who promptly goes out after the man and offers him the services of the Board's organization for special training to fit him for the work for which he has applied, or for some other employment if it does not seem practicable to train him for the work for which he made application to the Civil Service Commission. Hundreds of such cases have been referred to the Federal Board by the Civil Service Commission.

Under a recent amendment of the Civil Service Rules, made on the recommendation of the Civil Service Commission, the Commission may waive the established physical requirements in favor of a disabled and honorably discharged soldier, sailor, or marine, upon the certification of the Federal Board of Vocational Education that he has been specially trained for and has passed a practical test demonstrating his physical ability to perform the duties of the class of positions in which employment is sought.

Housing Conditions in Washington.
The congestion of Washington D. C., which resulted from the influx of war workers, has now been considerably relieved, according to a statement of the United States Civil Service Commission. Fully 20,000 persons have left Washington since the signing of the armistice, and a gradual further reduction will cause living conditions in the Capital City to continue to improve. The Commission states that it is informed by the Washington office of the Home Registration Service of the Department of Labor that it is in a position to provide rooming and boarding accommodations for all who apply for them. The Home Registration Service constantly maintains a list of available rooms in private houses. Where two persons share a room, the room with board, that is, the two principal meals of the day, may be had for \$40 or \$42.50 a month for each person. In addition, the Government conducts attractive residence halls in which about 2,000 women are accommodated. A separate room with board in the Government residence halls costs \$45 a month. Every comfort and convenience is provided.

Notwithstanding reductions in some branches of the service, the force in Washington is so large that hundreds of vacancies in permanent positions are constantly occurring. Stenographers, typists, and bookkeepers especially are in demand. Full information and application blanks may be obtained from the secretary of the local board of civil-service examinations at the post office or customhouse in any city.

Miss Josephine Macey of Lakeside is visiting Wanda Adams.

Actual work has been begun on the new garage of Lowry & Henry. The residence has been moved and men and teams are now doing the excavating.

Burlington fireman A. N. Whitley, who is confined to the pest house while nursing a case of genuine smallpox is getting along nicely under the care of City Physician George J. Hand.

Local fight fans have had their inning this week. A few wagers have been placed and there are to be found plenty of admirers of each of the principals. We are going to venture a guess that "Jack" Dempsey will be the new champion.

Classifying Time.
That man has great tomorrows before him who has great yesterdays behind him and is trying to put a great deal of greatness into his todays.

TEXAS OIL AGAIN

So great was the response to our advertisement in last week's papers, about the great money to be made in Texas Oil stocks, that we are forced to come back and tell our friends more about it. Everyone wants to know what chance they will have of getting some of this great flow of liquid gold by investing a few hundred dollars in the stocks of reliable oil companies. I am here to tell you. In no place in the world has there ever been found such big pools of rich oil as we have in Texas. Excitement is running wild because of the great riches. Big fellows can't control it. The little stockholder is making the money.

THE WHEAT CROP

of Nebraska will not equal the great production of oil for the first ten months of this wonder oil pool. The development has just begun. Next year it will be more than doubled. If you want some of this great wealth get in right now. Send me what money you can spare and I will invest it for you in stocks of oil companies that I have personally investigated and know positively are good companies. I am a broker and handle your money as carefully as I do my own. I charge you nothing for this service as I get my broker's commission from the seller. Don't wait another day. A week makes ancient history in oil. Tear out this ad, pin it to your check for any amount you wish to invest and mail to me today. I will return to you the certificates in oil companies that I positively know are reliable and will guarantee that they get production.
