United States Senate.
Each United States senator is elected for six years, unless he is chosen to fill the unexpired term of some senator who has died or resigned. On March 4 in every "odd year"—1919, etc.—the terms of 32 senators expire; that is, one-third of the whole number. By this plan there is never an entirely new senate. Even if no members were re-elected, two-thirds of the membership would always consist of men who have had either two or four years' service.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat less meat if you feel Backache or have Bladder trouble—Salts fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a table-spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

Be Your Own Creditor

Benjamin Franklin, the pioneer of American thrift said:

"The borrower is slave to the lender, and the debtor to the creditor. If you would know the value of money try to borrow some."

Be your own creditor. So regulate your expenditures that the first charge against your income will be savings. Put aside a certain proportion of your money for necessary spending in the future.

Your savings are a safeguard against want in old age, and against the rainy day. They form a fund for that golden opportunity that may be on the way.

Your savings are safe and readily available if invested in War Savings Stamps, guaranteed by the government and earning 4 per cent interest compounded quarterly.

(Make a start with Thrift Stamps, costing 25 cents each).

Your W. S. S. at maturity will give you a bank account.
