**Greek Laborers Have Grievance**

We feel that we have not received justice in these C. B. & Q. yards at Alliance. Some of us have worked here for 10 years some four, others two and so on. For the last year and a half we have had a very good foreman. He was an honest man. He took charge of these yards nearly two years ago and the yards were in awful bad shape; a wreck in the yards every day and sometimes two. We boys worked so hard and took pride in our work. We tried to please everybody. And we were so happy and peaceful with good feeling for everybody. We bought so many Liberty Bonds every one of us. We also bought War Savings Stamps and we helped the Red Cross. Some of us are citizens of the United States and we are all friendly and in great sympathy with the U. S. in her trouble with other countries. Now we have a Roadmaster and a timekeeper and they do not seem to like our foreman nor us Greek men. None of us know why. For we have these yards in such good shape. Never a wreck in the yards any more. The timekeeper is a Mexican and said he only wanted his kind of people so they got a man in our foreman's place and discharged our assistant foreman and had our time checks all ready then told us to go to work again. We did not understand what this meant so we went and consulted our Postmaster who knows us boys so well on account of us buying so many Liberty Bonds and War Savings stamps so he advised us to go up to the Court house and we could all consult and talk it over. So we did and met some of the business men and the railroad detective was there and told us we could all go back to work. We were not in charge of officers and could not understand why they could have this railroad detective take this affair as it was merely a consultation. We wanted to know why we were being sent away and Mexican Scabs taking our place who never done anything for this country only fight it at every available chance. They have fixed our assistant foreman and filled his car with Mexicans and he sure was a good man on the track. He understood his work and he and us boys surely worked hard under our foreman who had thirty years track experience and when I did not go back to work the road master would not give me a pass neither would they give the assistant foreman a pass after discharging him. We do not know why all this is done. We are honest boys and Christians. We pray for our country and this coun-

try every night. Now can anyone tell us why honest people are misrepresented and trodden down, this is all and we pray to our heavenly Father to send us justice.—George Lookin.

**Country Wants Bigness.**

The bigger the man the more room there is for him out in the country. Not much room there for the small souls.

**LITTLE GIRL NOW A PICTURE OF HEALTH**

Suffered Day and Night For Years—After Taking Tanlac Looks Like Different Child.

"My little daughter Jean, has gained ten pounds on Tanlac and now she's the very picture of health," said Jim Snell, well known poultry and truck farmer of Raleigh, Tenn. "When Jean was only seven years old," continued Mr. Snell. "She was taken with something like nervous stomach trouble, and there wasn't a day or night she didn't suffer, until we got Tanlac for her, and she's now fifteen years old. Her stomach was in such a bad condition she had to live on toast and eggs and milk, and she couldn't eat any kind of meats or vegetables. She complained of pains in her stomach all the time and would spit up half digested food. She was nervous and would toss and roll all night, for she couldn't sleep well at all. She was bilious and her complexion was bad, and she looked pale and sickly all the time. We gave her most every kind of medicine we could think of, but nothing helped her.

"After hearing of some of the good work Tanlac was doing, we got some for Jean, and it has done wonders for her. She actually looks and acts like a different child, and she's taken only two bottles of the medicine. She commenced picking up as soon as she started Tanlac, and she has gained ten pounds. She never has indigestion now, and eats just anything she wants—even such things as beans and other vegetables, and meats of all kinds. Why, she ate corn for dinner yesterday, and it was the first time in eight years she dared taste corn, and she eats boiled bacon that's cooked with vegetables. She's not nervous nor bilious now, and sleeps like a baby, and we never hear anything out of her from the time she goes to bed until she gets up in the mornings. Her skin has cleared up and her cheeks look fresh and rosy. You can just look at her and tell she's enjoying good health."

Tanlac is sold in Alliance by F. E. Holsten, in Hemingford by Hemingford Merc. Co., in Hoffland by Maltery Grocery Co.

**ALL WHEAT DEALERS LICENSED THIS YEAR**

President Wilson Has Signed Proclamation Putting New Measure Into Effect July 15.

Due to the fact of the bumper wheat crop in this section of the state, a considerable amount of interest is being taken by millers, elevator operators and others falling within the provisions of the rule, of the ukase issued on Wednesday of last week. On that day Julius Barnes, United States wheat director, announced that President Wilson had signed a proclamation putting under license of the wheat director persons, firms, corporations and associations dealing in wheat, wheat flour or baking products, manufactured either wholly or partly from wheat flour. The only exception are farmers and small bakers.

The proclamation, which goes into effect July 15, applies to the business of "storing or distributing wheat or manufacturing, storing or distributing wheat flour," as well as to the manufacture of bread or other bakers' products, either wholly or partly from wheat flour. The exceptions are listed as follows:

(a) Bakers and manufacturers of bakers' products, whose consumption of flour in the manufacture of such products is, in the aggregate, less than fifty barrels per month.

(b) Retailers and farmers or cooperative associations of farmers or other persons with respect to the products of any farm or other land owned, leased or cultivated by them. Common carriers are required to secure on or before July 15 a license from Mr. Barnes "in such form, under such conditions and under such rules and regulations governing the conduct of the business as he may from time to time prescribe."

Blank forms to be used in applying for such license may be obtained from the zone agents of the grain corporation in Baltimore, Chicago, Galveston, Orleans, Omaha, Philadelphia, Portland, Ore.; St. Louis, San Francisco, Buffalo and Duluth.

**Try This on Your Eczema**

If you are afflicted with any form of dry eczema or pimples, use the soothing, healing ointment, Dry Zensal. For the watery eruptions, Moist Zensal is the only sure treatment. 75c. a jar.

HARRY THIELER

**JACK DEMPSEY WHIPPED JESS WILLARD EASILY**

In one of the most one-sided fistic battles ever recorded wherein a championship title was at stake Jack Dempsey, the Colorado demon, easily defeated the Kansas giant and titleholder, Jess Willard at Toledo, Ohio, July 4th. In the first round Willard went to the floor at least five times and during the entire three minutes escaped a knockout by clinging to the ropes. At the expiration of the time allotted to the third round Willard's seconds, that the champion might be saved the punishment of a still more severe beating and the humiliation of a knockout, which was certain of coming, threw a towel into the ring and by such action conceded the victory to Dempsey. This is the only case on record where a champion quit before being put to sleep or the fight being stopped.

**Maize Grown in China.**

Indian corn, or maize, is grown extensively throughout the entire section of China. It is generally planted after the wheat is harvested and in fields with beans, the beans ripening after the corn is harvested. The lack of scientific seed selection prevents the production of as large a yield as would otherwise be obtained.

**Exams.**

On being asked how many persons were saved in Noah's ark one student replied, "We all of us were." The question, "Why does a blacksmith heat an iron tire before putting it on the wheel?" received from one boy who apparently thought it a "catch" question, the answer, "He doesn't."

**WHEN YOU WAKE UP DRINK GLASS OF HOT WATER**

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do. For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.

**100 WILD ANIMALS EXHIBITED FREE IN PARADE THE GREATEST SHOW IN THE WORLD!**
