Sheep and Lambs 25c Lower. Under the influence of heavy Monday's supplies there was a general decline of 25c in sheep and lamb prices. Best fat lambs brought \$15.50. Palestine's Salt Mountain. Palestine possesses a remarkable salt mountain situated at the south end of the Dead sea. The length of the ridge is six miles, with an average width of three-quarters of a mile, and the height is not far from 600 feet. There are places where the overlying earthy deposits are many feet in thickness, but the mass of the mountain is composed of solid rock salt, some of which is as clear as crystal.

Farmer's Good Work. Some people find it impossible to do two things at the same time. The farmer often does four, and does them well—he walks, thinks, talks, and milks all at once.

Minute Men. The Minute Men were a class of citizens pledged to take the field at a minute's notice. They were first known during and immediately previous to the War of the Revolution and afterward at the beginning of the Civil war. Sometimes they were regularly enrolled as militia.

Clock of Long Service. In the examination hall at Canton, China, where under the old regime students sat for their military tests, is a water clock which was automatically recorded the time for 3,000 years.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Cause of Apoplexy. Despite the fact that medical men look upon apoplexy as nine-tenths predisposition, the courts and laity have at times regarded it as almost traumatic in its nature. The physician thinks in terms of the blood pressure, hypertrophy of the heart and vascular degeneration, and to a much less extent to muscular effort and emotional stress, for these factors only precipitated an inevitable accident. An exciting cause may be minimal, a sudden exposure to cold, or absent altogether.—Medical Record.
