

FARMER MOORE HAS GAINED 37 POUNDS

All Trouble Overcome By Taking Tanlac—Had Suffered Eight Years.

"I suffered for eight long years before I found a medicine that would do me any good, but since taking Tanlac I have gained exactly thirty-seven pounds, and all my troubles have been completely overcome," said John N. Moore, a well known and prosperous farmer who lives on E. F. D. No. 4, Empire, Ill., while in Shortness's drug store in Bloomington the other day.

"When I commenced taking Tanlac," he continued, "I had reached the point where I couldn't do any work at all, and was forced to hire a hand to take my place on the farm. I had suffered so much and so long with stomach trouble, I was just about down and out so far as health and strength was concerned. During all these years my appetite was very poor, and what little I did manage to eat would cause me worlds of suffering. Gas would form on my stomach so bad that I could hardly get my breath, and I would have the worst sort of cramping spells. I finally got up where I was hardly ever able to retain what I ate, and would actually get nauseated every time I looked at anything to eat. I had fallen off so much, and was so low in health that all my friends were talking about the awful condition I was in. I was very nervous all the time and never knew what a good night's sleep was.

"I heard about Tanlac, then, and I thought I would give it a trial. Well, sir, my friends and neighbors are talking differently now. They are asking me what in the world I have been taking to make such a big improvement in my condition, and it just does my heart good to tell them that Tanlac did it. It is wonderful the way I have gained in weight and strength. I can go to the field now and do as much hard work as any hand on the farm. My stomach seems to be in perfect condition, and I never have indigestion, and am not bothered with gas forming after meals. I have the best appetite I ever had in my life, and can eat just anything I want. I am free from all that nervousness, too, and I sleep just like a boy every night. Tanlac has done all that for me, and I am as well and hearty now as I ever was in my life, and as long as I live I will pass the good word along to others who suffer as I did."

Tanlac is sold in Alliance by F. E. Holsten, in Hemingford by Hemingford Merc. Co., in Holland by Maloney Grocery Co.

Daily Thought.

Applause is the spur of noble minds, the end and aim of weak ones.—C. C. Colton.

Rich Brazilian Forests.

There are more than 300 varieties of woods in the Sao Paulo region alone and as a whole Brazilian forests not only abound in the finest of woods but are of enormous extent. Transportation facilities are developing slowly and the labor supply is a constant problem.

Need for Both Law and Sword.

In all government there must of necessity be both the law and the sword; laws without arms would give us not liberty but licentiousness, and arms without laws would produce not subjection but slavery.—Colton.

Jefferson's Wisdom.

Thomas Jefferson said: "I have often thought that if heaven had given me a choice of my position and calling, it should have been a rich spot of earth, well watered, and near a good market. No occupation is so delightful to me as the culture of the earth."

Aleppo an Ancient City.

In the center of the older section of Aleppo stands the ancient citadel, a deep moat encircling it. The great mosque is on the site of the tomb of Zacharias, the father of John the Baptist. If alleged Egyptian monuments can be accepted as an authority, the first settlement dates back close to 2,000 years B. C. The city at one time had a trade connection with Venice, as well as with Bagdad, and its name and importance became famed throughout Christendom.

Beautiful Ferns.

When the new shoots of potted ferns appear turn them to the light until they are well up and the shoot started in the right direction. When the fern is full grown the result will be a beautiful sound plant.

What Settled Him.

She—"You'd think he'd cut more ice! He's a Son of the Revolution, and—" He—"I know—but he married a daughter of the revolution."—Judge.

To Ward Off Frosts.

Dr. C. G. Abbott of the Smithsonian Institution, suggested that if it were possible to charge the lower air above citrus fruit orchards, with a heavy dose of ozone its absorption of outgoing nocturnal radiation might help ward off destructive frosts. While the amount of ozone in the lower layers of the earth's atmosphere is now known to be negligibly small, this substance is abundant in the upper atmosphere, where it plays an important role in regulating territorial temperatures by its absorption of radiation.

Gnat a Source of Musk.

To the list of sources of musk must be added a kind of gnat, order ampelid, class redavidae, genus amullus (stol.), which is so common in the Australian bush at times as to fill the air with a musky odor.

No Snap.

"Life is not merely tranquilly drawing one's breath," says the London Telegraph. But your boots it isn't! It's hustling like the dickens so that one can draw a few dollars at the end of the week to meet one's expense.—Boston Transcript.

Two Things Worth Having.

Growing plants are healthful in two ways. First, they absorb carbon dioxide given off by the lungs of persons in the house, and give off pure oxygen to the air. Second, the evaporation of moisture from the foliage and from the porous flower pots is one of the best ways to prevent the harmful drying out of air artificially warmed. You can't have too many plants or too many children in the house.

Origin of Lace Making.

The origin of lace making is so far out in the dark ages that it is impossible to know in which country the process began. It is certain, however, that the Italians were making most elaborate and beautiful laces soon after America was discovered.

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally that Nobody can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

Use for Broken Glass.

There is a use even for broken glass. Some of it is ground into fine powderlike particles and used for various purposes. Some is melted and made into new glass objects.

Philosophical.

"Love levels all things," sighed the sad-eyed swain, with a pang of pain, as his sweetheart sat on his new high hat and smashed it flat.

Daily Thought.

There is a great deal of unmapped country within us which would have to be taken into account in an explanation of our gusts and storms.—George Elliot.

YOU can't help cutting loose joy's remarks every time you flush your smokespot with Prince Albert—it hits you so fair and square. It's a scuttle full of jimmy pipe and cigarette makin's sunshine and as satisfying as it is delightful every hour of the twenty-four!

It's never too late to hop into the Prince Albert pleasure-pasture! For, P. A. is trigger-ready to give you more tobacco fun than you ever had in your smokecareer. That's because it has the quality.

Quick as you know Prince Albert you'll write it down that P. A. did not bite your tongue or parch your throat. And, it never will! For, our exclusive patented process cuts out bite and parch. Try it for what ails your tongue!

Tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and—that clever, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

SCENE—a garage; time, midnight. Characters, the dealer and a transient customer limping in with a damaged tire.

CUSTOMER—"Give me a Firestone; I know what it will do and I haven't time to experiment on an unknown tire."

DEALER—"Sure; you want most miles per dollar and I want most friends per mile."

Exit customer, happy and satisfied with—

Firestone

Most Miles per Dollar

Do your Jams and Jellies ever "Candy"?

Many women have been so discouraged by this trouble that they have almost stopped putting up fruit.

Yet, there is an easy, simple way to avoid it. Use 1/4 Karo (Red Label) and 1/2 sugar in your preserving syrup, instead of sugar alone.

Karo is a fine, clear syrup, with a natural affinity for the juices of the fruit.

It blends the sugar with the fruit juice—brings out all the "fruity" flavor.

You, too, will obtain perfect results this summer if you will use 1/4 Karo (Red Label) and 1/2 sugar instead of all sugar for preserving.

You will find your jelly clear and firm—your preserves rich with heavy syrup—your jams deliciously mellow and "fruity". Not a sign of "candyng".

For Cooking, Baking and Candy-Making Karo (Red Label) is used in millions of homes. In all cooking and baking recipes use Karo instead of sugar. It is sweet, of delicate flavor, and brings out the natural flavor of the food.

Use 1/4 Karo (red label) and 1/2 sugar

Makes perfect jams, jellies and preserves.

FREE A real cook book including recipes for sure results in preserving every-body appreciates. Sixty-eight pages handsomely illustrated. Write us today. The book is free.
