

SOCIETY

Alliance Post No. 1, American Legion, composed of returned soldiers, sailors and marines of the World war, has arranged for its first annual ball to be given at the city armory on Wednesday evening, September 17th. The boys are very anxious that all their friends attend this their initial social event and assure the public that provisions have been made for their entertainment in a royal manner.

Tomatoes, 75c basket, at Tatro Flower Store. 41-11-8214

Engineer Henry Sitzman, employed by the Burlington lines at this place, left Saturday for Rochester, Minnesota, where he will consult with Mayo Brothers regarding the failing condition of his health. Word received from Mr. Sitzman today by Alliance friends conveys the news that as yet he had been unable to get a hearing from the hands of the specialists because of the demand made for their time.

W. R. Harper and Paul Back drove to Chadron last evening where Mr. Harper was called as a juror for the term of Federal court now in session at that place.

Druggist H. F. Thiele is back at his post of duty in the store again after a trip to New York and Boston during which he purchased a supply of holiday goods for his trade here.

R. B. Hanks, a pioneer western Nebraska settler, who moved to northwest Missouri many years ago, was in the city the first of the week visiting old friends. Mr. Hanks homesteaded the old Swan ranch in Sheridan county, just east of Alliance. He stated that if he had dropped into Alliance without being told the name of the place he would not have recognized it, so great have been the improvements and changes in recent years.

The first issue of the Grand Island Commercial Bulletin, issued by the Grand Island Commercial Club, has reached Alliance. G. S. Otis, secretary of the commercial club, is managing editor of the Bulletin, which is an attractive twenty-page magazine and which carries some interesting write-ups of western Nebraska, including one of the Potash Highway by Lloyd C. Thomas, secretary of the Potash Highway Association.

Alliance volunteer firemen are much interested in seeing that the city installs new and modern fire plugs on Box Butte avenue before the paving is laid. As one pioneer fireman expressed himself at the fire meeting Wednesday night, "Those old fire plugs were out of fix twelve years ago", and we are still using them or endeavoring to use them. Some firemen asserted that there is not a real good plug or hydrant between the depot and the standpoint.

Judge L. A. Berry appeared in district court at Hyannis the first of the week as attorney for the defendant in the case of *Berzina vs. Pelican*, the case concerning a conflict of laws between the states of Nebraska and Texas. The judge was successful in winning the suit.

Half Soles Guaranteed.

Oscar Oscarson, of Lakeside, claims to have discovered a half-sole that will last a person a life-time or even longer. Oscar has a heavy auto on which he has been using cord tires for a couple of years. He recently received a new cord tire which had been badly damaged in shipment.

Not wishing to throw away the tire he made use of an inspiration which came to him. He made a pair of half-soles from the tread of the tire and securely nailed to a pair of shoes which needed sole-ing. Oscar claims that inasmuch as the tire was guaranteed to run for 8,000 miles on a car on which the weight on each would be a half-ton, the half-soles made therefrom should carry a man, weighing only 165 pounds, for a distance of at least 50,000 and perhaps 100,000 miles. His experiment is being watched with much interest and it is reported that shoe makers are considering getting an injunction against him, due to the fact that if his new plan does prove successful it will put them out of business. Those of us who are still on (and not in) terra firma fifty years from now will learn with interest of the result of Oscar's somewhat extended but very useful experiment.

Men Wanted

General work, \$2.75, \$2.90 and \$4.00 for 10 hours. Can use boys over 16 years, \$3.00 per day. Car fare returned after 60 days.

Want 6 men with families year round work.

A NEW MUSICAL SPECTACLE

"My Sammy Girl" that comes to the Imperial Theatre, one night only, Sept. 15th. The reports are most favorable about this production and play and company are called an entertainment new in construction and thoroughly entertaining and of the different sort. "Sammy" and her chorus, "girls that were left behind are a happy band of young ladies, good looking and talented. They dance and sing during the action of the play and form a happy relief against the more serious part of the performance. "My Sammy Girl" is a plausible military love story well written and intelligently acted by the Kilroy & Britton Company. The well known writer, L. B. Parker, is responsible for it and to say it is a pronounced hit, original in theme and character and a production entirely different is but telling the truth. The idea of introducing a large and pretty chorus of show girls, enlivens the comedy and pleases the audience. "My Sammy Girl" will be presented here for the first time.

BIG ATTRACTION FOR STATE FAIR VISITORS

Thousands of People Visit Miller & Paine Department Store Week of State Fair.

Miller & Paine department store, Lincoln, reports splendid increase in business during state fair. One noticeable feature this year was the interest in better grades of merchandise, particularly in china, ready-to-wear, shoes, materials and domestics.

This store was a mecca of "Fair" sight-seers. From the tower, 150 feet above the street, a remarkably clear view of Lincoln and surrounding territory is possible.

While this store serves only breakfast, luncheon and afternoon tea, more than twenty-five hundred were served Thursday, September 4th, and more than two thousand of these took luncheon at noon. This will give you some idea of the popularity of the tea-room, tiffin-room and luncheonette.

During the fair week this store threw open its candy factory to the public; it was of never ceasing interest. High above the dust and grime of the street, in great, white, sunlit room, good candy chefs make every sort of sweetmeat. We doubt if better candy is made than that made by Miller & Paine.

This store departs in many ways from the usual beaten paths of department stores. For instance, it manufactures all its ice creams used in the store, its formula requiring 20 per cent of butterfat although the state law requires only 14 per cent. Here all hot water is softened by the famous Borrowmire hot water softener—the invention, by the way, of a Nebraska University professor.

Shades and valances for stores and private homes are made to order, in fact a complete decorating department is maintained. The fur factory manufactures fine furs sold in the store, great care being taken that all furs may be recommended by this firm whose reputation for dependability is well known. There are cold storage vaults with capacity for more than 5,000 garments, for storing rugs, furs and garments. There is not another plant of such completeness between Lincoln and Chicago.

A framing factory with saws, choppers, planes, mitre saws, circular mat cutter, great press, etc., assures correct frames for pictures ordered. Embroidery and knitting lessons are taught daily in the art needle work section.

Great pleating machines do pleating for dresses and trimmings. Power hemstitching and picot edging machines turn out a large volume of work daily, not only for Lincoln trade but for customers throughout this state and other states. Buttons of many styles are made to order. The shoe repairing factory does everything but make shoes, and it could do that, if it were necessary. A shoe shining and cleaning section adjoins the women's rest rooms.

A large mail order service, which treats each communication as a personal request from a friend, brings this great store to those communities which cannot find everything required in the "home" stores.

In the basement is a complete low-priced department store where there are bargains at all times.

A matron looks to the welfare of those in the store's employ and a cafeteria is maintained for the benefit of the store employees only. Here food is sold at reduced prices. A rest room is also provided for the women of the store. There are more than four hundred men and women employed in this store.

By many, Miller & Paine is considered the most beautiful—inside and out—in the state. Its stocks are such as you expect to find only in cities many times the size of Lincoln.

Food in the Far North.

Reindeer stew and roast water fowl, bear meat or a walrus stew are among the dishes offered in Labrador, Greenland and Faroe Islands. In time a taste may be acquired for these things; it one is frozen in long enough to be of a grateful spirit. Coarse bread, plenty of codfish, cranberry jam or a blueberry (dried) cake may help matters along.

Author of Immortal Song.

"Home, Sweet Home," was written in 1823 by John Howard Payne. In but a very few of the sixty years of his life Payne was sufficiently long at any one place to call it his home. He died in Tunis, Africa, April 1, 1852, and it was thirty-one years afterwards before his body was brought to his native country, the place he no doubt had in mind when he penned these appealing words.

HE WOULD WALK FLOOR FOR HOURS

Had Smothering Spells And Could Hardly Breathe—Suffered 26 Years

"I have been in poor health for twenty-six years, and have tried many different medicines and treatments, but my troubles were not overcome until I commenced taking Tanlac," said C. D. Williamson, who is employed as engineer for the Twin City Pipe Covering Co., and who lives at 1069 Everett Court, St. Paul, Minn., the other day.

"I suffered from stomach trouble and indigestion during all these years," he continued, "and when I commenced taking Tanlac, I had given up all hope of ever finding a medicine that would do me any good. During the past year I took six different treatments, but I didn't get any relief at all. Everything I ate soured on my stomach, and I would be bloated up with gas for hours at a time, and would have the worst sort of cramping spells. Very often this gas would get up into my chest and cause my heart to palpitate so bad that I could hardly get a good breath, and when these spells came on me at night I couldn't lie down, and just had to walk the floor for hours at a time trying to get a good breath. Sometimes my arms and legs would go to sleep and I would have to rub them for a long time before I could use them. I finally got so weak and run down that I had to lose a lot of time from my work."

"One day a friend of mine told me that he knew a man who had suffered exactly as I was, and that Tanlac had brought him around all right. Well, I thought that if it had done that man so much good, it ought to help me, and I commenced taking Tanlac right away. I am glad I took that view of the matter, for my twenty-six years of suffering is a thing of the past now, and I am in better health in every way than I have been for many years. I am completely rid of that stomach trouble and indigestion. I have a fine appetite, and eat just anything I want and I never suffer a particle afterwards. I never have those awful cramping spells now, and my legs and arms do not go to sleep on me like they did. In fact, I am as well and strong as I ever was in my life, and I go to sleep as soon as I hit the bed at night, and am dead to the world until time to get up every morning. I can do as much work as anybody now, but I never lose any time from the job. Yes, sir, Tanlac was a godsend to me, and I say a good word for it every chance I have."

Tanlac is sold in Alliance by F. E. Holsten, in Hemingford by Hemingford by Hemingford Merc. Co., in Hoffland by Mallery Grocery Co.

Church of Christ.

The added interest in all departments of the work is very gratifying. The growth in attendance at the services is very pleasing and is an indication of renewed interest. The best is none too good for the Lord's work. The use of every talent with prayerful consideration gives and brings the blessing. The minister will use the following subjects for sermons next Lord's Day: "At the Crossroad", and "Potential Power and Possibilities". The Young People program with Robt. Lawrence president of the C. C. as leader. At this service the minister's sermon is only secondary. The mid-week church meeting on Wednesday evening continues interesting and helpful to the many who attend. Come to the church with a message and a welcome.

S. J. EPLER, Minister.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting mors food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

Notice to Parents and Guardians.

Under the school law of the state of Nebraska, all children between the ages of 7 and 16 should attend school all the time school is in session and it is made the duty of all parents and guardians of such children to see that they do attend. Failure to perform this duty will result in the prosecution under the law of such parents or guardians.

(Signed) W. R. PATE
Supt. of Schools

The school authorities respectfully request the cooperation of all tobacco dealers in the enforcement of the tobacco and cigarette law; also the cooperation of pool hall proprietors in the enforcement of the law relative to minors frequenting pool halls. It is not the desire of the school authorities to make trouble for those who conscientiously attempt to keep the law, but dealers who are careless in their attempts or who openly violate the law will be prosecuted.
