

HOW ANCIENTS KEPT BOOKS

Development of Comprehensive System Necessary to Merchant and Wage Earner.

Accountancy, which is the science of systematizing business, has a history that runs back at least 4,000 years.

The invention of double entry book-keeping early in the fifth century by the merchants and bankers of Venice gave to the commerce of Europe an invaluable trade instrument and one without which the great commercial enterprises of the later centuries could hardly have existed, according to Thrift.

Bookkeeping, as a formal subject of study, is taught in most of the public and private schools of this country, but it is only that form of bookkeeping that applies to the affairs of the merchant or the shopkeeper.

One Billion Dollars and more will be taken out of the soil by Nebraska farmers this year. Wheat, \$160,000,000; Corn, \$360,000,000; Soybeans, \$57,000,000; Rye, \$11,000,000; Barley, \$10,000,000; Potatoes, \$16,000,000; Hay, \$168,000,000; Cattle, \$120,000,000; Hogs, \$67,000,000; Horses, \$30,000,000; Poultry and Dairy, \$12,000,000. A total of \$1,101,000,000. And that does not take into account sugar beet production, seeds grown and marketed, the fruit crop, forage and other minor crops that would make this total larger. These figures are taken from the Government and State reports and make this The Banner Year of Nebraska BOTH IN THE AMOUNT PRODUCED AND THE PRICE RECEIVED. This enormous wealth pouring into Nebraska can mean only one thing to farm land values—A RAPID INCREASE IN PRICE AND A SCARCITY OF FARMS FOR SALE. If you are going to get your share of this wealth you must act quickly. Your opportunity today lies in the cheap, undeveloped lands of Box Butte County and the surrounding territory. This company has an extensive list of raw lands, improved farms, stock and hay ranches, and Alliance city property for investment. If you are a homeseeker or are looking for an investment that will pay you well, you should consult the Thomas-Bald Investment Co. LLOYD C. THOMAS F. A.
