—Judge I. E. Tash was very pleasantly surprised last night when his son, Charlie Tash, dropped in to spend a day with home folks. Since returning from the service, Charlie has been with the W. R. Nichols Auto company of Omaha, the Dixie Flyer people. This is Charlie's first visit home since his discharge, and his many friends here are more than glad to see him.

—Things have been doing in the oil game around Chadron the last few days, according to the Chronicle of that place. Contracts have been let for three wells and even now the machinery is being hauled to the first site, about eighteen miles north and east of Chadron. The Chadron editor is not only interested, but enthusiastic, and seemingly sees in his mind's eye a picture of Chadron completely surrounded by Derriks. Friendly geologists say that the structure, which is a term this editor expects soon to know all about, shows greater promise of being an oil producer than some of the richest Oklahoma fields, and if this turns out to be the case, it will be a great and glorious thing for Chadron.

"Real Stuph"

Stock Yards Station, Omaha, Nebraska, October 1, 1919.

Gentlemen and Friends:

Keep Your Eye on Omaha, when it comes to Market Values. You don't need to divert your live stock taking in the St. Joe or Kansas City market, because we have got the Real Market here. You might occasionally strike a cattle market down the river or up the river when the prices would vary sufficiently to warrant their sending, but nine times out of ten, Omaha is the place. Here is where the Buyers come.

Beef Steers: We haven't much to write you about this week. The receipts started out Monday with 19,000, Tuesday around 11,000, and Wednesday about 5,000. This is the lightest Wednesday we have experienced since the fall run started, and as a consequence would not be surprised to see the market close up higher. In fact, beef steers have met a good demand all week at steady to strong prices.

Possibly some shipments of cattle have been diverted away from Omaha on account of the riot which prevailed on Sunday of this week. There has been no further outbreak since Sunday, and conditions are normal again. Let your stuff come right along, and come yourself, because there is nothing that will endanger your interest.

Cows and Mixed Stuff: We wish to quote the cow and heifer market, especially the killing grades anywhere from 25 to 50c lower and very dull, especially the killing grades anywhere from 25 to 50c lower and very dull. Some choice 1050 lb. Montana cows plum fat sold this week Monday, at \$9.55, and others at \$9.50. The bulk of the fat cows and heifers selling from \$7.75 to \$8.25 and \$8.50, but they must be good to bring the latter prices. Bulls and vealers about the same. Wet cows, stockers and feeder cows and heifers, especially, if carrying the quality steady.

Stockers and Feeders: There has been a pretty good demand for cattle of this kind, and the market opened up Monday steady to some higher on the desirable grades, others slow about steady. Tuesday the market was about steady on stockers and feeders but closed up slow and some lower on the undesirable kinds. On account of the exceedingly light supply today, cannot quote anything but firm trade. We quote:

Hog Supply Moderate For This Time of Year—Pork Market Continuously Breaking—Prices Now \$1.00 Lower Than Week Ago.

There don't seem to be any encouragement to offer the shipper and feeder of hogs for the immediate future. You will notice that they are taking it off of provisions, and surely it must come off the live hog. The markets all over the country are on the decline, and before this week is over, the decline is liable to equal \$2.00 per hundred compared with prices last week best time.
