**GREAT ROAD BUILDING PROGRAM UNDER WAY**

Amendment to Federal Aid Road Act Gives Millions for 1920 Road Projects

The greatest road-building program in the history of the country is now under way and will extend throughout the year 1920, according to David F. Houston, secretary of agriculture, in whose department is the federal goods roads bureau. Secretary Houston says road work has been facilitated and much impetus given the good roads movement by the amendment to the federal aid road act.

Discussing the nation-wide campaign for better roads, which are made possible by federal aid in conjunction with the states, Secretary Houston says: "It is interesting to note that up to July 1, 1919, state bond issues aggregating \$224,800,000 had been authorized and approved by popular vote and that provision has been made for voting next year on proposals for the issuance of additional state road bonds to the extent of approximately \$314,000,000. During the present and next fiscal year there will be made available for road improvement at least one billion dollars. Certainly few laws, if any, have produced greater results, either in terms of expenditure for a good purpose or in terms of helpful legislation and machinery, than the federal aid road act.

"It seems clear, in the circumstances that the principal limiting factors in the 1920 program will be those of rail transportation, and production of, suitable road material, the contractors' organizations available, and the labor supply."

Secretary Houston says the 1919 program for road building was greater than any preceding year and was so great, in fact, that many of the states must postpone until 1920 the expenditure of federal funds simply because it is necessary to develop experienced contracting and engineering organizations from the stagnant conditions brought about by the war.

**THINK HAWAIIANS ARE WHITE SLAVERS**

An American girl about sixteen years of age was accompanying the troupe of male Hawaiians that gave a performance in this city Monday night, and Sheriff Dyson became convinced that the girl was being transported by the Hawaiians for immoral purposes. The sheriff, with the cooperation of the manager of the hotel, made an investigation and found that the girl visited the rooms of different male members of the troupe that night, and during the latter part of the night went to the room of one of the members, the light in the room being shortly afterward extinguished and the door locked.

The sheriff took the matter up with the county attorney and it was decided that the men of the musical company should be prosecuted under the Mann act in federal court. The sheriff learned that the girl's name is Mary O'Neil and that her home is in Portland, Ore. Mr. Dyson wired the chief of police at Portland and received information that the girl is a daughter of Mrs. Frank O'Neil of that city, and that her parents keep a store there. The Portland officer also stated that the girl left Portland with her mother's consent. A representative of the federal department of justice was in the city yesterday, and Sheriff Dyson placed the evidence in his hands. The traveling musicians went from here to Hemingford, Neb., and it is understood they later went to Alliance. It is probable that the federal representative will start a prosecution of the guilty parties on the charge of white slavery as soon as he overtakes them.—Bridgeport News-Blade.

**GOVERNMENT WILL SELL ARMY SHOES AT RETAIL**

Nearly two million pairs of men's shoes, of the types used in the army, will be sold to the public through the war department's retail stores in various cities of the country. This is the first time the government has offered to sell army shoes direct to the public.

The lot to be disposed of include the chocolate-colored marching shoe, a heavy, metallic-fastened shoe for field use, and a welt shoe. The marching shoe will be sold for \$8.25 a pair, the metallic-fastened shoe for \$7.50, and the welt shoe for \$7.50. It is planned to dispose of these shoes over the counter or through parcel post. The sizes range from 5's to 15's and the widths from A to EE.

The visitor at the asylum paused before a lunatic who alternately smote his head with a hammer and smiled beautifully.  
"Why do you do that?" he asked.  
"Because," quoted the nut, "it feels so good when I stop."—Ex.

"How are you affected? Appetite all right?" the medic asked the pale soldier.

**SPECIAL ASSESSMENT FOR BANK GUARANTEE FUND**

A special assessment levied the first of the year on a large number of state banks for the purpose of bringing their guaranty fund reserves up to 1 per cent of deposits is explained in a statement which Secretary Hart of the department of trade and commerce has given out. This is additional to the regular semi-annual assessment, amounting to 1-20 of 1 per cent levied on all banks that have been in business for more than a year.

The banking bureau aims to readjust the guaranty reserves once a year, but during the war this was not done. This is the first time that it has been attended to since 1916. In the meantime deposits have been increasing fast, and in a majority of cases the accumulated guaranty assessments fall considerably below 1 per cent.

Banks which had more than 1 per cent of deposits set apart for the guaranty fund were not required to add anything January 1, except the regular semi-annual assessment.
