One of the nicest events of the season was a dinner party given by the G. T.'s Saturday evening to their husbands. The G. T.'s have quite a reputation as to their entertaining abilities and the guests were loud in their praise when the evening was over. There were five tables of progressive cards. Mrs. W. R. McCrasky won high honors among the ladies and P. B. McCauley was first among the men, while Mrs. C. M. Dove and Mrs. A. N. Thurber tied for the booby. The honor gifts were a white ivory jewel case and a white ivory shaving mug. The booby was a good deck of cards. The tables were decorated with sweet peas. The place cards, tally cards and napkins were in green and white and carried the idea that St. Patrick's day is near. While dinner was being prepared, Cigars were furnished to the men who bunched together, in a smoker party. At 12 o'clock a two-course lunch was served, which consisted of oyster soup, celery, french radishes, coffee, two kinds of ice cream, angel and devil food cake and bowls of home-made divinity instead of the usual after dinner mints. How to Save Money On Your Long Distance Calls

This advertisement is intended to explain the different classes of long distance telephone service and how they may be used to the best advantage.

When you make a long distance call, if you are willing to talk to anyone at the telephone called, you will be using what is known as station-to-station service. This is considerably cheaper than other classes of service. Station-to-station rates are based on a charge of about 5 cents for each six miles up to 24 miles and 5 cents for each 8 miles beyond that distance, with a minimum charge of 10 cents.

HOW TO PLACE A STATION-TO-STATION CALL

When using station-to-station service you should give the long distance operator the name and address of the business or the individual with whose telephone you desire connection. In addition you should give the telephone number if you are sure it is correct. On this class of service the charge begins when the telephone called is answered.

The charge on a station-to-station call cannot be reversed; this is, it cannot be charged to the telephone called.

This is how you would place a call with the long distance operator on a station-to-station message: After giving your own telephone number and name, say, for example, "I want to talk to John Brown's residence at Blue Springs, Nebraska," or "I want to talk to George Anderson's store at Burchard, Nebraska." Care should be taken to make it clear to the long distance operator that you do not want to talk to a particular person or persons at the telephone called as in that case it would be a person-to-person call and you would be charged a higher rate.

By the very nature of your requirements for long distance telephoning, no doubt a great many of your business and social calls permit the use of station-to-station service. And in addition you can more often use this cheaper class of service if you make special arrangements with those with whom you desire to talk, either frequently or occasionally, to be ready for your call at a given time.

HOW TO MAKE A PERSON-TO-PERSON CALL

If you ask to talk to a particular person or persons over long distance, you will be using person-to-person service. The charge for this service is about one-fourth greater than for station-to-station service because the operators may have to spend considerably more time and hold the wires ready while they make an effort to locate the particular party. This class of service is not only more expensive but naturally slower than station-to-station service.

If you desire person-to-person service at a particular hour and wish to make an appointment to talk at a given time, the appointment rate will apply.

If you wish to talk to a person who does not have a telephone and for whom a messenger must be sent, the messenger call rate will apply.

HOW THE RATES ARE APPLIED

The following is an example showing the station-to-station and person-to-person rates for distances up to sixty-four miles:

Miles	Station-to-Station	Person-to-Person
0-12	\$.10	\$.15
12-18	.15	.20
18-24	.20	.25
24-32	.25	.30
32-40	.30	.40
40-48	.35	.45
48-56	.40	.50
56-64	.45	.55

While the messenger call rate and the appointment rate are not shown in the above table they are each about 50 per cent higher than the station-to-station rate. The report charge, which also is not shown, is about one-fourth of the station-to-station rate.

THE REPORT CHARGE

When you place a call for a particular person and for any reason not within the telephone company's control the call is not completed, or if you make a call and are not ready to talk when the other person is ready within one hour, a report charge is made. This is to cover a part of the expense of the operator's time and the use of the wires while we are trying to find your party.

SPECIAL NIGHT RATES

The special evening rate between 8:30 p. m. and 12 o'clock midnight on station-to-station calls is about one-half the day rate and the night rate between midnight and 4:30 a. m. about one-fourth the day rate. The minimum evening or night charge is 25 cents, the day rate applying where the charge is less than that amount. The evening and night rates for person-to-person calls are the same as the day rates.

The rate for any class of service may be obtained by calling "Long Distance."

Further information in connection with our long distance service will be gladly furnished on request.

BUILD NOW

Rent Money Lost

A man remarked to us the other day that he could easily have paid for a home with the money he had expended for rent in the time he had lived in Alliance. Now, after a number of years, he is compelled to vacate with no place to go.

Don't you think it about time for you to begin saving that \$40.00 or \$50.00 a month rent money?

If you can't afford to build as large a home as you would like at this time, perhaps you could make a start and complete it as you feel able.

If we can be of assistance to you with suggestions or plans, etc., we shall be more than glad.
