**HIGH SCHOOL NOTES.**

The Alliance high school opened Monday with two hundred and twenty pupils enrolled in the different classes. Of these ninety-eight are freshmen. This is the largest number of pupils ever enrolled in the school.

There are seven new members on the faculty this year. They are: Miss Steckleberg, domestic science; Miss Bishop, commercial department; Miss Braddock, English; Mr. Chase, manual training; Miss Sneathen, mathematics; Miss White, history, and Mrs. Emerick, reviews and Journalism. Mrs. Emerick needs no introduction, as she has taught in the Alliance schools for the past four years. For two years she has been principal of Central school.

Everyone knows Superintendent Pate. We consider ourselves very fortunate in having him with us again this year.

Miss Rena Kieth, of the language department, has been teaching in the A. H. S. for the past two years. We were rather doubtful about having her back again this year, as it was rather a case of "two opposing forces". However we are mighty glad we are the fortunate ones.

F. R. Cunningham, science, was also with us last year, and made many friends, who look forward to another year with him.

—and Mr. Prince.—Is it too late to extend our congratulations? If not, please accept them. Mr. Prince took the place left vacant by the death of Mr. Stockdale last year, at the beginning of the first semester. Since that time he has commanded

and we have obeyed—sometimes—and when we didn't,—well—we would rather not discourage the freshmen, let them find out for themselves, so we will just say we are glad to have him back this year.

Football practice started Wednesday night. Only ten were out Wednesday but a large number turned out Thursday evening. We have the promise of a good team this year as we have lots of good material to select from. The first game of the season will be with North Platte at Alliance, September 24.

A new course is being offered to the students of the A. H. S. this year. It is a journalism course. This subject is entered as an English credit. It takes up mainly writing for high school papers. Everyone who is on the Spud staff this year will be required to carry this subject. About twenty people are enrolled in the class already, and there will probably be a few more.

All those interested in tennis are asked to bring a garden hoe to school and help clean off the court. During the summer the weeds have grown so that it will be impossible to play until the court is cleared.

Alice Boon, M. J. O'Conner and Royal Irwin, sophomores last year, seniors this. They will graduate from the high school in three years. This was made possible by carrying extra subjects and work during the summer.

Are you going to see the finish of the first Nebraska airplane race, Omaha to Crawford, finish at Crawford on the afternoon of Thursday, September 16?

**PERSONALS**

**MORE GRIEF IN SIGHT**

The International Paper Co., one of the largest if not the largest paper producer in the country, announces

that it will not guarantee to fill more than 80 per cent of its contracts for 1921. That is, the man with a contract for a thousand tons can only expect to get eight hundred. Publishers who have the extra page habit in order to gratify their vanity by putting out a big paper and all others who use more paper than is absolutely necessary should keep this information in mind. When the International falls down it isn't likely that smaller mills will be able to do any better.—Harvard Courier.
