Vote for RE-ELECTION of

CHIEF JUSTICE

Andrew M. Morrissey

"The political parties have made no nominations for Chief Justice. The Chief Justice is not elected as a party candidate, but his name will be found with other Judicial Candidates, and school officers on a separate ballot."
 "We favor the re-election of Chief Justice Morrissey because we believe in the law designed to take the courts out of politics and to elect Judges because of their qualifications."
 "Six years ago when he became Chief Justice the court was about three years behind. Today the court is as nearly up with its work as it is practicable for a supreme court to be. Credit for this is not wholly due to the Chief Justice, but other members of the court who have contributed to this result give full credit to Chief Justice Morrissey for his share in its accomplishment."
 "He has executive ability that gets results. He enjoys the friendship and co-operation of his associates. He has the respect and confidence of the lawyers who have business in the Supreme Court. He has helped to clear away many technicalities of the law. Law-breakers have been brought to justice and honest men enjoy the protection of the courts."
 "If you are in doubt about how to vote on Chief Justice, ask your District Judge."—Lincoln Tribune.

Properly Oiled Motors Purr

Those lubricated with Polarine invariably run smoothly and quietly. When fine bearing surfaces are "filmed" with the finest oil, the squeaks, rattles and wear of friction are practically nil.

Polarine is made by the most up-to-date refining methods—the result of over half a century of experience and research. It is efficient every season of the year. Does not thicken in autumn and winter, or "wear" thin during a long trip.

To meet the requirements of all makes of cars and trucks, Polarine is made in four grades, differing in body but not in quality. These grades are

- | | |
|-----------------------|----------------------|
| Polarine | Polarine Heavy |
| Polarine Medium Heavy | Polarine Extra Heavy |

For winter use the Polarine and Polarine Medium Heavy grades are recommended.

For full mileage and power, use Red Crown gasoline—the standard motor fuel. It is just as dependable and uniform as Polarine. At Red Crown service stations and authorized dealers—everywhere.
