

PHONE COMPANY MUST PAY \$600 OCCUPATION TAX

(Continued from Page 1)

Under either the present or the proposed plan, there would be a city clerk, presumably at a salary, and it is unlikely that there would be any reduction in the number of city employees, the objectors to the city manager point out. The issue will probably be of fought out along these lines.

Four-Year Term for Council
Under the city manager plan, five councilmen will be elected from the city at large, the three receiving the highest vote to serve four years and the other two for two years. One member of the council is to be elected as president, and will serve as ex-officio mayor. Councilmen are nominated by a non-partisan primary election, and candidates must file petitions containing at least twenty-five names to get a place on the ballot. The ten receiving the highest vote in the primary election will have their names placed on the regular election ballot, and those receiving the five highest votes will be declared elected.

The council will choose a city manager and a city clerk. Members of the council may not serve as manager, although one may be selected as clerk. The city manager will have complete control of the appointments and may hire an office at will. A provision in the law states that members of the council may not give order to city employees, either publicly or privately.

The recall, applying to councilmen and not the city manager, and the initiative and referendum are features of the law.

No Change for Four Years
If the city adopts the city manager form of government, there will be no opportunity to change for four years. The law states that the plan may not be abandoned until it has been in force that length of time.

The powers given the city manager under the proposed plan are quite inclusive. He is chosen for an indefinite period, at the discretion of the council, and need not be a resident of the state or city. He may receive any salary the council decides to pay. His powers and duties are:

To see that the laws and ordinances are enforced; to appoint and remove all heads of departments and all subordinate officers and employees in all departments; to exercise control over all departments of the city; to attend meetings of the council, with a right to participate in the discussions but not to vote; to recommend such measures to the council as he may desire; to prepare the annual budget and keep the council advised as to the

of the council. He is to be elected by the council may direct. The advocates of the city manager plan admit that it would cost more, but insist that the increased efficiency would be worth all that it would cost.

CHURCH OF CHRIST.

Whatever is beneficial and from whatever source it comes, let us utilize it to the best of our ability. Sift out the useless and much good will be left. A knowledge of God's revealed word and a vision of humanity's needs will help us in our choices of selection. The sermon subjects to be used by the minister for next Lord's Day are: "Utilizing the Power of Prayer," and "God's Final Word." These will be scriptural and helpful. The results of each worshipful service depends upon the presence of the many. Each department of the work is a portion of the larger field of Christian service. Our Lord said that his sheep would go in and out and find pasture. This we are trying to emphasize at each service. Come to the church with a message and a welcome.
S. J. EPLER, Minister.

LUTHERAN CHURCH.

The Lutheran church has English service next Sunday afternoon at 2:30. Sunday school at 10 a. m. All children are asked to be present to practice the Christmas program.
