Maybells to Move Back to Falls.

Roy Maybell, of Angora, Nebraska, recently closed a deal through C. A. Cowley & Son, of this city, for the purchase of a building site on the north lot and a fraction of Mrs. Sadie P. Grisham's place on Cherry street just north of the Grisham cottage and south of Hugh Finley's place.

Mr. Maybell expects to move back to the Falls early next year and it is his intention to erect a new bungalow on the lots. He and his family left the city about a year and a half ago, and since that time he has been engaged in business or farming at and near Angora, Nebraska. He recently sold his farm there on which he raised a bumper crop last year and as soon as he can dispose of his crops and property he hopes to come to the Falls.

The many friends of the Maybells will be very glad to know that they are coming back to the Falls to make their future permanent home, as they now believe.—The Chase Co. (Kan.) Leader.

GOOD NEWS FOR EX-SERVICE MEN

Representatives of Vocational Training Board to Visit Grand Island December 22

Good news for ex-service men suffering with disabilities which constitute vocational handicaps was received in Alliance today by the American Legion posts, the Red Cross and other agencies co-operating in the work of aiding former service men. Announcement was made that on December 22, 1920, and any man who believes himself entitled to retraining at the hands of the federal board for vocational education may have his case decided by appearing in Grand Island on that day, and if he is eligible for same, may be placed in training at once.

Local people who received the announcement declared it marked one of the most important steps taken by the federal board for vocational education in the handling of its job of retraining soldiers, sailors, marines or nurses, whose disabilities incurred in, or traceable to the service prevent them from competing successfully in their old employment.

The coming of representatives of the board to Grand Island on the date mentioned will, it is hoped by those concerned, reach the attention of every man who might have a claim against this department of the government, and the visit of these representatives will mean for each man the following things:

1. That if he has not yet made application for vocational training such application will be made for him on the spot. Immediately he will be examined by a physician of the board and his case rated. Then the case will be decided by a Washington representative of the board, and if the man is declared eligible he will be placed in training immediately.

2. Those men who have made application for training, but who yet have certain papers to finish before their cases are completed may have these papers completed on the spot, and their cases acted upon and decided. If they are found eligible for training, they will be placed in training immediately.

"It is our purpose," the announcement says, "to decide all cases possible while the representatives of the board are in Grand Island. This will save time required previously in sending cases to the St. Louis office for rating, completion of papers, medical examination and decision. We hope to be able to give a rating to any man who comes before this case board, and if he is eligible for training, if it is his wish, to furnish him transportation to his place of training before he leaves."

Every man is asked to bring with him a copy of the original of his discharge. He also is asked to bring with him, provided he has been awarded compensation, the letter of award, or if this is not available a check showing that he has received payment. These two documents are vitally necessary to the completion of and decision on his case.

All men who wish to avail themselves of this opportunity are asked to get in touch with the American Legion posts or with the American Red Cross. "As it is not known," members of the board say, "when it is possible for another case board to visit this section, every man is urged to avail himself of the opportunity granted him."

Case No. 2988.

"You Can Win"

Over any financial depression that may possibly strike our country, and you can feel safe and secure all the time. Every man makes his own "good times" or "hard times." No combination of circumstances can overcome the man who is determined to make "good times" for himself. He has it all in his own hands. We'll tell you how—

IT IS VERY SIMPLE—JUST BY "COUNTING THE DOLLARS"

The man who spends without keeping any account or record of his expenditures is bringing "hard times" on himself as sure as the sun shines. The man who makes payments by check knows to a cent how his finances stand at any hour. His record is before him, and money does not "slip away" easily. He holds his expenses within his income, and thus enjoys what is ordinarily called "good times."

The "checking man" is always a man of credit, for he is known as a man who keeps an account of his dollars. We serve those who want to have money and credit.
