 A French minister has refused to fight a twelfth duel on the ground that it is a foolish practice. Having gone unscathed through eleven of the harmless things, it is no wonder that he begins to be a bit bored.

LEGISLATURE WOULD REDUCE ELECTION COST

Bill Introduced in Lower House Would Eliminate Counting Boards in Small Precincts

Lincoln—An attempt to reduce the high cost of elections is being made at the lower house. A bill introduced provides, among other things, for elimination of counting boards in precincts having less than 200 voters. It reduces the number of judges on such boards from three to two. Allows a party polling one-tenth of total vote at previous election one judge on the counting board. It authorizes filing of complaint against any judge or clerk on election boards who refuses or fails to serve.
 The bill requires that the county canvassing board record votes by mail in a special poll book and to add the total of such votes as though they were cast in separate precinct. It repeals the provision requiring election boards to make duplicate unsealed returns to the county clerk on an official ballot. This provision would work a hardship to newspapers in their endeavor to get the final returns to the public at the earliest possible moment.

Asks Recodification of Statutes
 Provision for a complete recodification of Nebraska Statutes following the present legislative session is made in a bill which Representative Moseley of Lancaster county, introduced in the house. The sum of \$40,000 is appropriated by the measure to pay the expense thereof.
 Mr. Moseley's bill calls for a new compilation of the statutes, under state authority, every four years. The laws enacted by intervening legislatures are to be published as session volumes, which will supplement the preceding statutes.

Would Reduce Motor License
 A bill introduced in the house by Representative Franklin calls for reduction of the present motor vehicle license fee one-half, making the minimum fee for automobiles \$5 and 25 cents additional for each 100 pounds of weight in excess of 2,000 pounds. It also reduces motorcycles from \$5 to \$2.50. The bill provides a special fee of \$1 regardless of weight, for motor vehicles used by rural mail carriers and sheriffs.

Complain About Printing
 House and senate members are complaining of the quality of printing on the legislative stationary. Packages of letterheads printed by order of the state printer have been laid upon the desks of senators and representatives. Legislators have been heard to remark that the small country printing office could turn out better work. There is some talk of legislative action toward rejection of the work.

Recommend Raise for Deputies
 State executive officers, whose salaries were raised to \$5,000 by the recent constitutional amendments, have recommended to the governor that in his budget he include an appropriation raising the salaries of the deputy officers to \$3,000.
 The executive officers include the governor, secretary of state; state auditor, state superintendent of public instruction and the attorney general.

To Codify Game Laws
 The state fish and game laws of Nebraska, now scattered through the statutes without any semblance to orderly arrangement, are being codified for submission to the present legislature in concise and orderly form. The codified laws will repeal all the old statutes, but no change will be made in the substance of the acts further than to simplify them.

Provides Fund to Promote Industry
 Cities and villages of Nebraska are empowered to set aside from their general funds an amount equal to one-tenth of one per cent of the assessed valuation, as a special fund for encouraging immigration, securing new industries, and advertising local advantages, under the terms of a bill introduced by Representative Medlar.

Pass Free Tuition Bill
 Free tuition in Lincoln schools for the children of state legislators received the almost unanimous endorsement of the house.
 Under suspension of the rules, the senate passed the same bill and it is now ready for Governor McKelvie's signature.

Approve Child Code Program
 A disposition to accept the children's code commission program incorporated in fifty-three bills, was indicated by the Nebraska state senate in passing without a dissenting vote the first four measures to come up for third reading.

Seek Drainage Legislation
 A group of Tekamah men visited the capitol to consult members of legislative committees in regard to changes in the drainage laws of Nebraska, and also with reference to the legislative, judicial and congressional reapportionment.
 The largest drainage project in Nebraska, costing three-quarters of a million dollars, has been carried out in Burt and Washington counties, etc. Men there are particularly interested in making the drainage laws more workable.

SECOND PUBLIC RECITAL BY CLASS OF EXPRESSION

The second public recital to be given by the high school class of expression, will be at the Methodist church, Monday evening, January 31 at 8 o'clock.
 A number of smaller girls from the lower grades who are also pupils of Mrs. Dunning, will assist the high school girls with their evening's entertainment.
 Part I of the program will be miscellaneous, composed of piano and vocal music, readings and musical recitations. Part II will disclose a scene in which Ma Sweet and her twelve very talented daughters will entertain the audience, each in her own particular line of accomplishment.
 Your presence will be much appreciated and you will not only enjoy a most pleasant evening and insure yourself many hearty laughs, but you will assist in making the work of the Expression class an attractive as well as most beneficial feature of the regular high school course. Admission for adults 50 cents and children 25 cents.

La Grippe

If you have LaGrippe or a head cold or any of the ailments of the season, you are, no doubt, trying to bring your body back to a state of normal health before some of the more serious "complications" overtake you.

Now the question may arise in your mind, "Just how would CHIROPRACTIC help in my case?" This question has, we think, been quite clearly answered by James G. Greggerson, D.C., in his article, a portion of which follows:

"We Chiropractors work with the subtle substance of the soul. We release the personal impulse, the tiny rivulet of force, that emanates from the mind and flows over the nerves to the cells and stirs them into life.

"We deal with the magic power that transforms common food into living, loving, thinking clay; that robes the earth with beauty, and hues and scents the flowers with the glory of the air.

"In the long ago this power spoke and there was life. It quickened the slime of the sea and the dust of the earth and drove the cell into union with its fellows in countless living forms. Endlessly it worked until it produced the crowning glory of them all.

"With tireless energy it blows the bubble of each individual life and then silently, relentlessly dissolves the form and absorbs the spirit into itself again. And yet you ask, 'Can Chiropractic cure appendicitis or the flu?'"

"Can the power that produces also repair? Have you more faith in a product of that power than in the power itself?"
