Mr. and Mrs. Ray Graham were very pleasantly surprised at their home on Tuesday evening, when some thirty of their friends gathered to spend the evening with them. They expect to leave in the near future for Kearney, Neb., where they will make their home. The evening was spent in a social way and at the midnight hour a delicious lunch was served, after which the guests departed, all declaring an excellent time.

AT THE MOVIES

"The Husband Hunter," with Eileen Percy in the title role, will be shown at the Imperial this evening. The picture tells the story of a vivacious young society belle, Myra Hastings, who sets out to capture the heart and hand of a man who at the time is a total stranger. The man, Kent Whitney, hears that she is a chronic husband hunter, and a plot is laid to defeat her plan. How Myra visits Whitney's country home, meets his "parents" and then turns the tables on the plotters is told in exceedingly funny situations, leading up to a surprising climax.
Saturday night's feature is "Trumpet Island," from the story by Gouverneur Morris. Three lives, widely different and each picturesque in its environment, form the basis of the document. One, a young girl, follows a path of roses, intermingled with thorns. The second, a youth, starts along a rocky road and finds at the end flowers growing among the stones due to the influence of the third way which is filled with mire and mud. The love interest is well handled. It is the type of love story that holds the attention and keeps one in suspense.
Justine Johnstone in "Blackbirds" is scheduled for Sunday. Each was a thief, he the most skillful picture thief in Europe, she the most adept smuggler of stolen goods in the world. They met and loved at sight, each believing the other honest. How horrible their profession seemed to each one of them when love pointed the way to a clearer life.
"All Dolled Up" is the interesting title of the Monday feature film. She looked like a million dollars to him. He was the living image of her dream prince. Did they get acquainted? Say! What happened when she found he didn't own the big automobile that had caught her eye, and when he found she didn't even have a bank account, makes one of the most amusing and delightful screen romances ever seen.

John W. Guthrie had the honor of getting one-tenth of the number of applications for life insurance in the Equitable company, in a recent campaign that that company staged in

honor of their president, W. A. Day, who had held that position ten years. They tried for 150 applications in the ten first working days of this month, and John carried off the highest hon-

ors with ten applications in his territory. John was gone when the letter came and when he got back he had only five days to turn the trick. Read The Herald's adv. columns.

KEEP AN EYE ON YOUR EYES

See Bauman and See Better

CAN YOU CONCENTRATE—EASILY?

OR DOES YOUR MIND ROVE?

Perhaps you easily get nervous—fidgety. Inability to concentrate is very often directly traceable to defective vision. Poor vision cause eye strain. Eye strain produces nervousness, headaches, "mental cloudiness." Have yours eyes examined.

Minutaire Free Press: Indications are that quite a number of Masons from Minatare and vicinity will go to Alliance and take the Scottish Rite degrees, up to and including the 32nd, on May 11, 12 and 13. This will in turn make them eligible for the Shrine. This work will be put on in Alliance in September by the Shrines from Omaha, Lincoln and Hastings, acting together, and it is certain that after September there will be more than one new Shriner in Minatare. The Scottish Rite work and the initiation into the Shrine will both draw a great many candidates from this part of the valley.

The senate advanced the American Legion boxing bill after cutting out the section that limits admission price to one dollar. The senate also advanced the co-operative banking bill.

Your Telephone Needs are Anticipated

We must estimate in advance the number of telephone users, and where they will live in each part of the town.

When a new telephone is ordered we try to have the wires in place, the switchboard equipped, and other intricate mechanism ready so service can be provided without unnecessary delay.

We must add to our equipment ahead of present requirements, to provide for those who will some day want a telephone.

Building for the future is expensive but it is part of our job.

Some FACTS About

Ford

THE UNIVERSAL CAR

Here are authentic figures from the Ford factory at Detroit. They show you just how many Ford cars and trucks have been built each month since January 1, 1921 and how many have been sold to retail customers, in the United States.

	Produced	Delivered to Retail Customers
JANUARY	29,883	57,208
FEBRUARY	35,305	63,603
MARCH	61,886	87,221
Total Production	127,074	Total Retail Sales 208,032

showing that actual sales for the first three months of 1921 exceeded production by 80,958 Ford cars and trucks!

April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000!

These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly replenished, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.

If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. Phone us or drop us a card.
