

Funeral Services Held for Former Alliance Youth at Oregon City

News reached Alliance yesterday of the death at Oregon City, Ore., of Arol Rosco Sharp, seventeen years of age who met his death by heart failure while swimming. The youth was the son of Mr. and Mrs. F. M. Sharp who left Alliance last spring. The family was well known in this city. The following account of the death and funeral is taken from an Oregon City newspaper:

Funeral services for the late Arol Rosco Sharp were held Monday, August 8, at the Holman and Pace Chapel.

Rev. B. F. Clay of the Gladstone Christian church spoke upon the life of the young man who had recently joined the Christian church of which Rev. Clay is pastor.

Arol R. Sharp was born in Mason City, Ia., December 25, 1904, and is survived by his parents, Mr. and Mrs. F. M. Sharp, three sisters, Effie, Venola, Elizabeth Baly, Estella Beth, two brothers, Gale Marion and Caswell Allen, all younger than himself.

Mrs. Della Green and Mrs. Naomi Armstrong-Warren sang "Asleep in Jesus," "Beautiful Isle of Somewhere" and "Nearer My God to Thee," with Miss Francis Cross at the piano.

Interment in the Mountain View cemetery.

The pallbearers were boys of H. S.

Arol was a member these being Melvin Zorothera, Delbert Hayward, Ray Wilkinson, Lyle Williams, Averila Shannon and Wayne Vedder.

Arol R. Sharp came to his early death by heart failure while swimming with his boy friends in the Clackamas river Saturday August 6. At noon he asked his mother if he might go in swimming and she agreed. He waited until 4 o'clock and had been in the water about twenty minutes when one of his companions saw him go under and pitch head first into the water of what is known as the big sdy above the S. P. bridge. Frank Murphy of Clackamas Heights who was on Billie Goat Island heard the boys on shore call for help and swam down about half a mile and secured the body in less than 15 minutes. Dr. McLean was summoned and worked over the lad for nearly two hours without success.

The Sharp family recently moved here from Nebraska and are living at Gladstone Chautauqua park where they have made a host of friends.

Sunday being a very rainy and disagreeable day, the Antioch ball game was very much of a fizzle inasmuch as Ellsworth was concerned, only five players on the team showing up. The game was scheduled and Antioch still wished us to fill the date and in spite of the overwhelming defeat administered to us, all who made the trip reported a good time. September 18 the Oil Magnates play us the return game and we will endeavor to show 'em a little baseball then.

Mr. and Mrs. Ross Schafenburg of the Joy ranch were Sunday visitors at the Kennedy home.

Sunday August 21 we will endeavor to have a ball game on the home diamond as the last three Sundays games have been elsewhere. The game will probably be with the Sand Hill Colts. The following Sunday, August 23, Whitman comes down for a struggle, they have a very fast team and we know it, the "fans" are accordingly making arrangements to "spike up" and will have complete charge of the day's affairs. A big day for Ellsworth in the baseball line and best material available will be obtained in order to give the Whitman bunch a trouncing.

"He is not in. He has gone to play golf," renders, "Will you take a chair and wait?" quite superfluous.

"Better business ahead, says banker," according to a headline. The only trouble is catching up with it.

From the makers of U.S. Royal Cords to the users of Fabric Tires

THE U.S. USCO TREAD

Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

IN all of modern merchandising the biggest conundrum is the fabric tire situation.

Around 70% of all car owners use fabric tires.

Their instinct for *quality* is as strong and insistent as any one else's.

Why, then, are they offered such hodge-podge stocks of "discount tires," "odd lots," "seconds," "retreads" and other so-called bargains of uncertain origin?

Sooner or later the public always seeks out *quality*. As a matter of *self-protection*—if for no other reason. The out-and-out opinion in favor of U. S. Fabric Tires has spread more this year than it ever did.

People have gotten very close to the U. S. policy. Felt it. Benefited by it. And passed the word along.

It's a policy settled to onestandard for all U. S. Tires. Whether fabrics or cords. Small sizes or large.

Giving to the *fabric* tire user *fresh, live tires*. Being made now. Being shipped now.

All the original U. S. *vitality* and *service* comes through when you buy a U. S. Fabric Tire.

"Usco," "Chain," "Nobby." Three different treads.

Built by the same brains, the same policy, the same quality ideals that have made U. S. Royal Cords the *standard* measure of tire worth.
