On the question as to the number of PUBLIC STILL DISCUSSING times physicians had found it advisable to prescribe alcoholic beverages per month, 157 physicians had found it admisable to prescribe whisky, and 2.4 had not found it advisable. Eightyfive physicians had found it advisable to prescribe beer, and 303 physicians had not found it advisable. Eighty-three physicians had found it advisable to prescribe wine, and 301 had not found it advisable. The number of cases varied in the practices of differ-

ent physicians. On the question as to whether paysicians should be restricted in number of prescriptions for alcoholic of the Northwestern Bell, which owns beverages, 323 physicians stated that exchanges in towns north of the Patte, they should be restricted and 202 did not believe such restrictions neecssary; 89 physicians answered yes but did not more to give service than it did the specify a limit; 106 stated that the number should be limited to absolutely

"Bridgeport's argument was that the state engineer favored a state aid road that would connect county seats. As I have stated before, the G. P. C. Highway associtation organization was for the purposes of selecting a Na-tional north and south highway as di-rect and feasible as possible, from the Gulf of Mexico to the Canadian border. Everything went lovely until it hit Ne-braska, then petty jealousy crept in. You can readily see Governor, had the G. P. C. highway tried to connect county seats merely because they happened to enter a part of the county, where the road would have ended. That is the case in Morrill county. As planned, the community building would have a second story, with gymnasium and a seating capacity sufficently large to accommodate any games that might be played. It was suggested that this main floor could be made an auditorium, and that instead of building it above the present armory, it might be constructed on the lots just east of the city hall the property of the city, which would give it a street entrance and would probably be somewhat less expensive han remodeling the present structure into a two-story building.

The cost of the undertaking, Mr. Kemmish ,said should not be more than \$10,000, and it could be handled by a bond issue or by public subscription. In any event, it would probably be in charge of some organization that
