Cups Have Arrived for Western Nebr. Track Meet Here

Two cups for the western Nebraska track meet have arrived, the meet winners cup, which was donated by the Lions club, and the relay cup, donated by W. R. Harper. The cup for the winner of individual honors, which was given by H. F. Thiele, has not come as yet, but will be on display as soon as its arrival. The trophies may now be seen in Thiele's window. The winners cup is about 18 inches in height, and has a long stem, the cup proper being about 8 inches across the top. Mr. Harper's relay cup, is about 15 inches in height and about the same distance across as the other. The Thiele cup for the individual honor man is smaller than the relay cup. Plans are at present being considered for a special train from the valley towns. As there are a large number of towns along this line that are planning on coming, this should materialize.

There will probably be about fifty tracksters alone from this section. All the indications point to the largest meet ever held in western Nebraska and the competition should be keener than ever before.

Tracksters Making Some Good Records In Spring Practice

Garvin is fast developing into a all-round track man, his latest stunt in addition to being the star broad jumper and century man, being to put the shot 38 feet, and throw the discus 97 feet. There is little doubt that these records will be bettered before the end of the season as Garvin's form in both of these events can be greatly improved upon. Dailey won the 220 yard dash in 24 1-5, which is good considering the state of the track. Fowler took high hurdles, beating both of the speedsters, Garvin and Dailey. Beal ran the half in 2:31, which, while not particularly fast will no doubt be improved upon. As yet no records of over five feet have been made in the high jump. It is doubtful if this distance will even gain a place in the meet. No milers have been showing up and it does not seem likely that the locals will be very formidable in this event. Dailey will be able to take care of the pole vaulting in a manner that will take first, as he has already demonstrated his ability in this line. Coach Pringle will have to develop some hurdlers, Garvin and Dailey being likely material in addition to Fowler if they are not already being overworked. If Fowler continues to show up well in the high hurdles, he will probably be placed in this event as his only other duty is to fling a nasty javelin.

Capt. Bob Roper Challenges Lewis For Mixed Bout

Captain Bob Roper, former army heavyweight boxer has challenged Strangler Lewis, heavyweight wrestling champion to a mixed match, each to follow his own line of battle, Lewis to wrestle and Roper to box. Lewis has been repeatedly hurling challenges at Jack Dempsey, averring that he could put the king of heavies on his back with little trouble and without any great damage to himself. Roper's offer is a chance to prove his ability if he is in earnest, for Roper is by no means an easy mark for anyone, although the matter of pinning his shoulders would be much easier than doing this to Dempsey. This would be a good opportunity for Lewis to prove his ability, and would smooth the path to a mix with Dempsey, if the heavy champ has any idea whatever of taking up this novel offer.

Omaha Commerce Shows Up Poorly In Class Compet

The Omaha Commerce interclass track meet must be viewed with surprise to those who recently read a story in an Omaha paper of the marvelous ability of the Bookkeepers track team. This story told of some of the records made by the Omaha tracksters few of which were below the state record in that event. Krasme the giant Penpusher athlete made the only really creditable record of the day when he put the shot 42 feet 11 inches. He was said to be putting the shot over 46 feet or slightly over the state record.

The 220 man was also cracking the record in this event beyond repair but the time made in this event is little short of ridiculous. Kline the Omaha star sprint man made the distance in 29 4-5. Dailey of the locals recently stepped this distance on a muddy

track in 24 1-5. The time in the century dash was 11 4-5. Either Dailey or Garvin of the local high school can make the 100 in 10 2-5, while Dailey has a record of 10 1-5. The time in the 440 yard dash in the Commerce meet was 68 seconds. Beal has a mark made this year in this event of 46 1-5, and Captain Strong, holder of the western Nebraska record of 55 1-5, will be competing this year.

The time of the 1 mile run was 6 minutes 1 1-5 seconds. Five minutes is by no means fast for this event. The Commerce time in the half mile was 2:25 which is far from good is passable. Unless the Bookkeepers improve wonderfully they have little chance to even place in any event in the state meet, with the possible exception of the shot put.

Baseball Meeting This Evening at C. of C. Rooms

The second meeting of the Alliance baseball fans will be this evening at the chamber of commerce, all those who are interested in baseball being urged to be present. Plans for the financing of the team, and the obtaining grounds for both playing and practicing will be discussed. It is thought that the team may use the grounds north of the high school if permission can be obtained. This would be much more conveniently located than the fair grounds where the games have been held formerly.

Plans are being made for a dance, which will be held in the near future for raising money for the baseball fund.

There is a great deal of good ma-

terial and there should be no difficulty in getting a team together that will be a credit to the town. Most of last year's players will be again available, and as good a team as Alliance had last year can be again gotten together, there should be some baseball well worth seeing in Alliance.

RAILROAD NOTES

G. L. King, who has been working at Theford the past three weeks, was relieved Saturday by regular operator C. E. Thurmond who has been off with the flu, being quite sick for some time.

Conductor T. J. Campbell has been laying off the past ten days resting up. His turn in the pool has been held by extra conductors, M. E. Lander and Dan Ford.

M. F. Lander has given up his turn on 43 and 44 which he has held for some time. He will take extra conductor's work for some time later going on a through freight turn as brakeman.

Due to a slight mishandling of orders while on the road recently an investigation has been held concerning the local crew who are under Conductor C. D. Rider and Engineer A. E. Nelson. It is not thought that the outcome will result seriously, for those concerned, as no accident resulted from the mistake although it will not be known for some time yet until Chicago officials make their report.

The agency at Pringle is now open

for bids, the former agent there having bid in the agency at Englewood. Many bids are being placed upon this position as this little station is ideally located in the Black Hills and is also a good paying station.

The operator's position at Edgemont, third shift, has not been definitely assigned as yet some old bidders placing bids upon this, later deciding not to accept has held up the assignment, although it looks as if G. L. King, formerly of Merna now working extra will be assigned the position. J. T. Caldwell now a dispatcher at Sterling, but at one time a telegrapher on this division still holds rights here and his bid for the position has also held up the assignment as a technical point in the schedule does not permit his assignment to a position when he will not work it in the near future.

A large number of men were lined up to be placed back at work on the "trip track" and other departments in the Alliance yards recently but owing to the coal strike causing a slight falling off of business these men were not placed at work and instead a few were temporarily layed off. Although busi-

ness has slightly fallen off Casper oil is still steadily moving and several extra lumber trains are in sight from the west which together with movement of preterred empty equipment has kept up business in such a way that no more freight crews have been taking out of the "ool working out of Alliance there still being eight, R. E. McKenzie holding the youngest turn.

Dispatcher R. V. Cox was off two days last week, being relieved by vacation dispatcher, C. J. Hitt, formerly operator at Lakeside who has been "breaking in" as extra dispatcher in Alliance for the past few weeks. Mr. Hitt has been quite successful in his new venture and promises to make good.

Pearly Beach made a trip over the east end of his division the latter part of the week. Mr. Beach recently gave up his position in the superintendent's office and is now in charge of Alliance division expenditures for new equipment on the roads.

We put on Ford top covers complete for \$12.00. Threlkeld, 124 West 3d Street.

MIXED FEET

A tree toad loved a she toad
That lived in a tree;
She was a 3-toed tree toad,
But a 2-toed tree toad was he,
The 2-toed tree toad tried to win
The she toad's friendly nod;
For the 2-toed tree toad loved the ground
That the 3-toed tree toad trod;
But vainly the 2-toed tree toad tried—
He couldn't please her whim;
In her tree toad bower, with her V-toe power
The she toad vetoed him.
