## Alliance Defeats Bridgeport 15-5 Sunday Afternoon

The Alliance baseball team defeated Bridgeport Sunday, 15 to 5, in a somewhat weird game, three of the best men failing to arrive until after the third inning. Captain "Chuck" Griffiths, Ray Butler and Bert Slattery were the absent members. The Alliance aggregation, playing with substitutes, was in the lead, 4 to 3 at the end of the third, however, and with the arrival of the lost members ran away with their opponents.

Garvin pitched the entire game, and although hit fairly hard, tightened up in the pinches and easily won with the support he was given. Garvin showed possibilities of making a first-class pitcher, although he is as yet somewhat inexperienced.

Alliance nicked the Bridgeport pitcher for seventeen hits, while Garvin allowed but eight. The game was featured by heavy hitting, Alliance getting a number of extra base hits. The Bridgeport team was the second victim of the season for the Alliance team. The next game will be with Hemingford at Hemingford today. The score:

Alliance 3 10 2 3 0 3 3 0—15 17 2  
Bridgeport 0 1 2 0 1 0 1 0—5 8 7

Batteries—Alliance, Garvin and McNulty; Bridgeport: Jensen, Kilting and Brown.

## Antioch and Local Tennis Clubs Mix Sunday Morning

Three members of the Alliance tennis club drove to Antioch Sunday to play a few of the members of the newly organized club there. Those making the trip were William Rhoads of Reuler's store, Elmer Hollingsworth of the Schaefer Auto Supply, and Edwin Burr. Antioch won three of the five matches played, Rhoads and Hollingsworth losing to J. M. Literas and O. C. Chilcote 2-6, 6-4, 6-1. Literas defeated Hollingsworth 6-2, in a one-set match, and Rhoads 6-4, also in a one-set match. Burr defeated Miller, 6-0, 6-0, and also Chilcote 4-6, 6-3, 6-1.

The Antioch court is half concrete and half clay, and while this may seem to be a rather peculiar combination, the result is entirely satisfactory, according to the trio who made the trip. The Antioch club has twenty-two members, who keep the one court busy all the time. A great deal of enthusiasm over the court game is apparent, as quite a number of people were on hand to witness the games, which were merely friendly contests and not a tournament in any sense of the word. Both men and women are taking part in the game in Antioch, and there is little doubt that a number of good players will be developed.

It is expected that return contests will be scheduled for the Alliance courts at a later date.

## Houser Shatters Shot-put Record in National Meet

"Bud" Houser, of Oxnard, Cal., broke the world's interscholastic record in the shot-put with the almost unbelievable heave of fifty-six feet, in the national interscholastic track meet at Stagg field of Chicago university. The records in all events show the remarkable ability of the young athletes, for these marks will stand up well with those made by any college.

Frank, the Tobias wonder, who won both the mile and the half mile at the state meet, placed second in both these events at Chicago. Both of these events were run slightly faster than Frank's best marks. The Nebraska boy may yet smash records and win national recognition. One of the most noticeable features of the meet was the strength of the western entries, the west and the middle-west running off with practically every event in the high school section.

Cox, a Rochester, N. Y., lad won the mile in 4:35. The 100-yard dash was stepped in 10 seconds flat in the high school section, and in 10 2-5 in the academy division. Both made the 220 in 22 2-5.

In the Chicago meet the high hurdles were made in the extremely hurried time of 15 2-5, as compared with a national high school record of 15 1-5. Daley, Alliance sprint man has a chance of being sent to the national meet next year if he should train hard and increase his speed slightly. Daley has twice been clocked in the 100 in 10 flat, and holds the western Nebraska 220 record of 22 3-5. Daley made an extremely poor showing at the state meet, due to a lack of training, and according to Coach Schulte of Nebraska, a faulty stride. Schulte, who is recognized as one of the few leading coaches in the country, said that if Daley would train and develop his stride along certain lines laid out by him that he could break the state record in the 100 and 220. He believes that Daley could run the 100 consistently in 10 flat. Should he do this he could break the Nebraska state record and probably place first in the national meet.

### A DOUBLE SCOOP

Western Exchange—Yesterday we were the first newspaper to publish the death of John J. Parker. To-day we are first to deny the report. The Morning Bugle is always in the lead. —Boston Transcript.

## Ellsworth Defeats the Fast Whitman Baseball Aggregation

In a well played game at the Ellsworth ball park last Sunday afternoon the Ellsworth team trounced the Whitman team 12 to 7. The game started out with two strike outs a short single that was worthless as the next Whitmanite was struck out for the third out, only one man reaching first. Ellsworth was, however, able to place a man on third at their turn to bat but the first inning ended neither side scoring and it looked as if the game was to be one of small scores, however after retiring the Whitmanites in one-two-three order in the second inning the Ellsworth lineup leading off with Black a neat single followed by Kennedy, Longenbeck and Seebahn each getting singles a run was crowded in, the errors and timely hitting proved in two more runs giving Ellsworth a three run lead.

Whitman was held scoreless for the first five innings while Ellsworth crowded in a score in both the fourth and fifth innings. In the first of the sixth inning Whitman by hard hitting run in two scores while Ellsworth's turn to bat netted them seven runs, House on the mound for Whitman being batted clear out of the box, Manager Carpenter replacing him with McCubbins off first base. This fateful inning cinched the game for Ellsworth but the Whitmanites made a hard fight for it in the next turn to bat running in four scores which was started off with a neat single by House to center field, two errors and hard hitting allowing them four scores for the inning.

The Whitman boys were short some of last year's bunch having to substitute for four men of the old bunch, King on third, and Waite on second, also a left fielder not playing with the team this year. Joe Maupin who was on the mound for Whitman last season has also been released but the management of the team is still scouting for a new twirler and we are sure that their team will be greatly strengthened in time for Ellsworth's visit with them next Sunday at Whitman. John Schonard, Ellsworth's second baseman, made a beautiful catch in the first of the ninth of a line drive with two men down, making the third out which ended the game.

The Whitman boys are a clean bunch of sports and the game was thus immensely enjoyed by all, there being fans present from Lakeside, Pawlet, Spade, Bingham, Ashby, Hyannis and Whitman.

The score by innings:  
Whitman 0 0 0 0 0 2 4 0 1—7  
Ellsworth 0 0 0 1 1 7 0 0 x—12

Batteries—Ellsworth, E. V. Black and Seebahn. Whitman, House, McCubbins and Carpenter.

Summary—Struck out by House in 6 innings, 2; by McCubbins in 3 innings, none; by Black, 10. Hit by House; Seebahn (2), Black, Schonard. Hit by Black, McCubbins, Stolen Bases—Black (2), Kennedy, Young, Wightman, Carpenter (2), William Abbott. Two base hits—Black (2), H. Abbott, William Abbott, Carpenter, Clark (2), E. Schonard. Time of game—1:47. Umpires—Macumber and Dick Crandell.

A few sets of harness. Just the kind for that extra team through the rush season or haying. Price \$32.00 and up. Rhein Hdw. Co. 52&54

No need to ask Who's Wu in China. Wu's Who!—Boston Transcript.

## Berea Still Heads In County League Baseball Race

Berea retained its clutch on first place in the county baseball league by defeating Fairview in a one-sided game 27-3. Berea seems to be too fast for the rest of the league, although all of the other teams are well matched. A. Mundt, the Berea pitcher, allowed eight hits, but his team was walloping the pill so hard that this made little difference. About 150 people attended the game. With the exception of this game, the Sunday battles were remarkably close. The Red Sox lost to Ash Grove 12-8, before a crowd of 300 people, after having led at the end of the seventh inning. Marple defeated Snake Creek 14-13. There is some dispute about this game as the Snake Creek supporters aver that in the ninth inning a Snake Creek man was called out merely because he slid to first. The matter will be decided by the board later, however, if any formal protest is made. Lawn defeated Pleasant Hill 9-8, and prevented the Pleasant Hill team from breaking their losing streak. The Pleasant Hill aggregation has played good ball all season, but has lost a number of games by close margins. They seem to be pursued by a jinx. Four teams are now tied for second place, while last week four were tied for third.

The standing:

	W	L	Pct.
Berea	5	0	1000
Ash Grove	3	2	600
Lawn	3	2	600
Marple	3	2	600
Snake Creek	3	2	600
Red Sox	2	3	400
Fairview	1	4	200
Pleasant Hill	0	5	000

## Mississippi Floods More Extensive Than Anticipated

New breaks on levees in Texas and Louisiana in addition to high waters in Mississippi and Illinois have added to the millions of acres inundated and many more people have been added to the 75,000 people made homeless by this, the most disastrous and destructive of floods known in the history of the Mississippi valley according to the latest reports received from the American Red Cross by the officers of the local chapter.

Supplies have been rushed by the national organization which has devoted \$100,000 to meet the immediate emergency in the flood regions as well as trained Red Cross workers to assist the local chapter on the problems of provisions and housing for 30,000 homeless people in Mississippi and a similar number in Louisiana. Contributions are coming in from all parts of the country in answer to the appeal of Chairman Payne of the American Red Cross seconded by President Harding for \$500,000 as the minimum needed.

The first stage of rushing supplies and workers is now followed in some sections by the difficult emergency problem of enabling the farmers before it is too late to plant their crops and become self-supporting. Careful surveys by the chairman of the local Red Cross chapters in flood areas indicate large funds will be required for this. The citizens of Illinois are now raising one quarter of a million dollars estimated as necessary for that state. In many states hit by this disaster the people as in the Pueblo river flood, must continue to receive help and are dependent on the warm-hearted generosity of fellow-Americans everywhere.

As a measure of the force of the flood Cairo, Ill., states the Mississippi rose fifty-three feet above the normal at that point where so many river systems converge leaving Cairo like an island in the water that overflowed almost entire counties north of there. All this war and more has spread out on the states further south.

Where the waters have receded, it

will be several weeks before the headwaters are drained off to permit farming and the deep mud silt makes it harder to get supplies to isolated families than when boats could be used. The live stock has been lifted up on platforms where they must be fed. The sown crops of wheat are destroyed. A new corn crop can be planted only in the drier spots and the farm machinery and even the homes have been destroyed. Epidemics of typhoid and malaria, due to the pollution of wells and the decay in the wreckage are causing added privations and the Red Cross field workers find make increasing care necessary. Putting the population back on a self-supporting basis for some weeks in these areas has created new emergency conditions for the Red Cross which is still feeding the families in tent colonies or in their homes giving them provisions until they can again care for themselves.

Fourteen carloads of seed grain and food stuff have been shipped into various points on the lower Illinois on the orders of the Illinois Red Cross flood relief committee, by the agricultural representatives in co-operation with the county farm bureaus. The country is now being scoured for stocks of available seed grain for this relief work. The requirements for these seeds and feed alone are larger than originally anticipated and will require an expenditure of \$70,000 in that state. Additional needs are being revealed as the survey progresses and few families are being found in destitute condition.

A large number of cities in the states of the central west, Nebraska, North and South Dakota, Minnesota, Wisconsin, Illinois and Iowa have reported successful raising of flood relief funds, and the surrounding states are rapidly coming to the rescue. The Chicago Association of Commerce raising \$100,000 in Chicago alone, reports that quotas had already been met by a number of sub-divisions of the association and it was confidently stated that the full amount would be quickly secured. William Wrigley, Jr., made the first response with a contribution of \$500 which was followed by one from James A. Patton for a similar amount and many other donations were reported.

According to Walter Davidson, manager of central division, there is need for haste in sending in contributions to the local Red Cross chapters so that funds may be immediately available at the scene of the disasters. Food supplies for destitute men, women and children have to be kept up from day to day and unless the farmers are able to plant their crops as quickly as the floods recede and are supplied with seed grain for this purpose there will not be time for a new crop this year.

### WHERE THE FIGHTING LINGERS

With the withdrawal of the American forces from the Rhine, it would seem that the war is over for all except those who married to avoid the draft.—Our Navy (Washington).

The more they step on the gas, the higher it goes.—Washington Post.

## STRONG EVIDENCE

Is the Statement of This Alliance Woman.

Backache is often kidney ache; A common warning of serious kidney ills. "A Stitch in Time Saves Nine"—Don't delay—use Doan's Kidney Pills. Profit by the experience of Mrs. E. E. Bates, 114 Platte Ave., Alliance. She says: "I have great confidence in Doan's Kidney Pills as they have saved me many doctor bills in the past twenty years. I had occasional at-

tacks of kidney complaint and if I neglected them I suffered a great deal with my back. I got lame across the small of my back and could hardly get around to do my work. If I stooped I became dizzy and could hardly see. Doan's Kidney Pills which I got at Thiele's Drug Store cured me of the attack."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bates had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 1-A

## Their Medicine Chest For 20 Years

IT is characteristic of folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Holivar, Mo., making and selling a vegetable compound to my friends and customers—what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestine, while others would only act on the lower or large intestines, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as Nature's Remedy, which I truly believe goes further

and does more than any laxative on the market today. The thousands of letters from users have convinced me I was right, and that the user of Nature's Remedy as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.

My knowledge of medicine and the results of its use in my own family and among my friends, before I ever offered it for sale, caused me to have great faith in Nature's Remedy from the very first.

And now as I find myself nearing the age when I must bow to the inevitable and go to another life, my greatest pleasure is to sit each day and read the letters that each mail brings from people as old or older than I, who tell of having used Nature's Remedy for ten, fifteen and twenty years, and how they and their children and grandchildren have been benefited by it.

It is a comforting thought, my friends, for a man at my age to feel the assurance from his own success, one has done something for his fellow man. My greatest satisfaction, my greatest happiness today, is the knowledge that tonight more than one million people will take a Nature's Remedy (S. H. T. B.) and will be better, happier, happier people for it. I hope you will be one of them.
