Buchanan Items.

Editors Tribune: A few items from Greenwood precinct may not be amiss in your news department. The prospect for a crop is of the line that makes the farmers rejoice, especially of wheat and oats, no one unless he be an inveterate croaker can find fault with the prospect of an abundant harvest. Some little complaint about the festive squirrel taking his share of the sod corn.

The Sunday School picnic took place on childrens day in the grove of I. L. Miltenberger. The attendance was quite good. Some 75 or 80 being present. Several buggy loads from Curtis.

The program was fully carried out, all the little folk did exceedingly well. 1st, Prayer; 2d, Introductory by May Schick; 3d, Reading part 1 page 3d of printed program; 4th, Singing; 5th, Recitation, The Bible—Cora Minick; 6th, Singing; 7th, Selection by girls class; 8th, Infant class exercises; 9th, Recitation—Our heroes—Emma Shick; 10th, Singing—Dare to do Night; 11th, Recitation by little boys—The tripple pledge; 12th, Recitation, Modern Knight Hood—by Bert Snider; 13th, Song.

The day was fine and pleasantly spent, a good dinner service under a large Elm tree, just such a dinner as the ladies of the neighborhood know here to prepare and serve.

After the Sunday school exercises were over, an informal meeting was called in regard to celebrating the coming national birthday. An invitation was given by the Curtisites to join with them in celebrating at Curtis. The people were assured that excursion trains would be run each way from Curtis and that a large amount of sailing craft would be in readiness to launch onto the great Curtis lake, provided, we had in the interval a good share of rain, at least the vessels would be ready.

It was finally decided to help the village to put on city airs once in her short life. O. A. Bacon from respects is getting pretty white, about all he talks about is something white, he imagines the harvest is getting white, he told Van Brocklin that the crops this season were white. Van thought O. A. a little off, or had white on the brain badly.

Our summer school will close the last day of June and the pupils are preparing to have a big time. Nearly everyone of importance from our precinct was in the county seat last week.

Hurrah for the 4th of July. Reports say there is to be a picnic at Mr. Lunda's and also one at Curtis. Let everybody go one place or the other.

Wilson Furnish has the best colt we have seen this season, having been offered \$50 for the animal. He also has twenty-five extra fine pigs.

Reports say that Alvin Van Loan will sail for Iowa in a few days. One day last week while Joe McMichael was riding across the prairie horseback, he saw an object ahead of him moving at a rapid rate across the prairie. He was at a loss for a while to know what it was, but came to the hasty conclusion it must be one of Green's antelope. He immediately gave chase, and after a hard ride of one hour or two he succeeded in getting in gun shot of his expected prize but alas for Joe he didn't shoot—it wasn't any antelope—it was only a parosol, that had escaped from its fair owner, while picketed out, as it had a rope attached when Joe captured it. Joe was much pleased with his prize and tied it to the fence till he should go home in the evening; before going home he went to get his captive, but alas it had escaped—having pulled out a fencepost. Joe has spent much time in looking for it and he looks very sorry about it and he says if he don't find it by Sunday night he is going to give it up for gone. G. RANGER.

There are in Chicago at the present time between 35,000 and 40,000 Bohemians, who have all come to America within a few years, the great majority since 1870. Most of them know very little English; some none at all. They form a distinct community, with their own organizations, journals and peculiar ways of life.

STATE ITEMS.

The county attorney of Dawes county has compelled the saloon keepers of Chadron to remove the obstructions from the windows and doors of their saloons.

The people of Valley claim that a drunken man on the streets of that town is a very unusual sight.

It is said that a man by the name of Smith, living in Platte county, has invented perpetual motion.

The Hon. E. K. Valentine has gone to Washington to argue a land case before the interior department.

It is believed that Nebraska's increase in population the present year will be without precedent in the history of the state.

The Wahoo Trotting association has filled a number of purses with \$1,200 cash, for the first annual meeting to be held on July 4, 5 and 6. The best horse-flesh in Saunders county will shake their oats on those days.

A fossil strata has been discovered near the surface in Kimball. This gives a boost to the growing belief that the old timers were not planted deep enough.

The Elkhorn Valley road from Fremont west is being ballasted with gravel, fifty carloads a day being distributed along the track. The road will soon be in first-class condition.

Creighton is a rank prohibition town but an occasional jug is snaked in to stimulate the natives. One evening last week a well known squire was seen hugging the shadows of back yards on his way home, with a suspicious looking vessel in his grip. A party of noesags instantly started out to head him off. The judge gracefully uncorked and passed the jug around. It was loaded with buttermilk, liberally mixed with croton oil.

The commissioners of Dawson county have plowed up considerable indignation and ugly interrogations by purchasing scrapers in Omaha for \$9 each which could be bought at home for \$6.30.

Svan Lindquist, a native of Sweden, a bachelor and a farmer of considerable means, was found dead at his home three miles northeast of Mead, having been shot through the body. It is supposed that he committed suicide.

The Hastings Independent calls loudly for a protective asylum for fools with whom the city seems to be overstocked. This does not include the number taken in by the railroad fakirs lately. It refers solely to those speculators who followed a brass mounted sharp and invested \$300 in snide chains and Waterbury watches last week.

E. R. Bison, a prominent farmer of Platte county, was suddenly robbed of dyspeptic symptoms last week by a kick from a horse. The animal planted his shoe impressively on his pit for good luck.

Billy Putt, of Fairmont, mounted on a bob tailed mule, invaded a pasture in which the family bull was browsing peacefully. The picture roused the bull to instant action, and before Mr. Putt could put himself on the safe side of a fence he was thrown to an altitude that gave him a brief but thrilling view of the surrounding country. Then followed the mule and both landed violently on the ground. The mule was gored to death and Putt saved by the timely arrival of neighbors.

At a special election yesterday \$34,000 bonds for waterworks were voted by Falls City.

It is growing so fashionable for great men to kiss pretty girls in public that a question has arisen concerning the propriety of the movement. It is very evident that public men are not averse to following the fashion. They think it a very beautiful custom, and will not oppose it as long as the "good wife" files no objection. It is said that at Governor Gordon's reception in Nashville the other day hundreds of people pressed about him to grasp his hand. In the throng was Miss Annie Clare, one of the most beautiful girls in the South. As she approached the Governor he took her face between his hands and kissed her on the lips. She was considerably abashed but accepted it modestly and gracefully as the tribute of greatness to beauty.

The cause of so many failures in the world is eminently due to the desire of young men to begin life at the top. They cast about, and upon every hand see men who are in possession of wealth, living in luxury and ease and the imagine that they too are abundantly able to live in like manner. They begin life without having first lain a good foundation, and after numerous failures wonder why it is so. The man who has by years of toil, hardship and economy amassed wealth, locates the trouble at once, but believing experience to be a valuable school as well as a dear one, permits all such to pass along with will. It is hard for men, no matter what their natural ability may be, to correct and overcome the effects of an error committed just at the beginning of their educational or commercial career. How very important it is then that young men should begin at the beginning—at the foot of all life's ladders—and steadily ascend, contesting every inch of the way, and thoroughly testing every round before placing all thereon.

The president's wife went with a party of lady friends the other day to visit the grave of John Brown, while her husband and his male companions were engaged in trout fishing. It is by acts of this gracious and tender character that Mrs. Cleveland commends herself to the favor and admiration of her patriotic countrymen. And thus, also, we are touchingly reminded that the soul of the grim and splendid martyr of Harper's Ferry still "goes marching on."

As an evidence of the rapid development of mechanical and manufacturing industry in the South, it is announced that contracts amounting to \$1,000,000 for machinery and mill appliances were made recently by the Cotton-seed oil company.

The factories will be erected in eight cities in the South, and as soon as these shall have been completed eight more will be started. The production of cotton-seed is estimated at \$6,000,000 tons, and the projectors of these works contemplate the working up of all this supply of seed, providing markets can be found for their product.

The builders in small towns all over the country are reporting an increasing demand for small houses. The building and loan association is spreading in the West. The outflow of money from sluggish financial localities in the East is stimulating enterprises in a great many small channels.

A London paper says there is not one corner in Europe where American small cost hardware is not for sale. Krupp of Germany, Armstrong, of England, and Hotchkiss, of France, with all their vast resources, are unable to produce a monkey or screw-bar wrench equal to the American wrenches.

The largest landed proprietor in the world lives in Connecticut. He owns 2,000,000 acres of land and his name is Wilson Wadsworth.

London is said to be "rapidly filling up with kings, queens, princes, and other royal personages who come to attend the celebration of her Majesty's jubilee." The Wild West show, however, continues to be the paramount attraction.

According to Herodotus Babylon was a square fifteen miles on each side, with 100 brass gates. It was composed of twenty-five streets each way, 15 miles long and 150 feet broad, crossing each other at right angles besides four half streets, 200 feet wide, facing the walls.

I had been troubled all winter with cold and pain in the chest and got no relief from remedies recommended by Druggists and Physicians. At the same time I was advertising Dr. Bosanko's Cough and Lung Syrup. I had little faith, but thought to try it as a last resort, now I believe even more than they tell me of its curative qualities. [From the News, Elizabeth, Ky.] Sample bottles 5 cents at A. F. Streitz's Drug Store.

Western cities and towns are developing their manufacturing capabilities rapidly. Denver, Colo., is becoming an important manufacturing center, and will produce \$30,000,000 worth of products this year. Eastern manufacturers are pioneering over the West seeking opportunities.

Never in the history of book-making have covers been so handsome and artistically designed as now. The covers of a book should always be adapted to the contents, and it is a pleasing study to book lovers as well as designers and artists.

The parents of a pair of twins named one Simul and the other Taneous, because they were born at the same time.

A Kansas sufferer with an innocent mug and a team of horses tarried in Benkeman long enough to dispose of the animals and fall into the hands of the sheriff. He had borrowed the team.

The Bourbon press continues to rail about Sherman's speech, but carefully refrains from quoting the speech or attempting to refute his statements.

Begg's Cherry Cough Syrup Will relieve that cough almost instantly and make expectoration easy. Acts simultaneously on the bowels, kidneys and liver, thereby relieving the lungs of that soreness and pain and also stopping that tickling sensation in the throat by removing the cause. One trial of it will convince any one that it has no equal on earth for coughs and cold. A. F. Streitz has secured the sale of it and will guarantee every bottle to give satisfaction.
