

REPUBLICAN COUNTY COMMITTEE MEET.

The members of the Republican County Central Committee of Lincoln County are hereby called to meet at the court house in North Platte on Tuesday, August 24, 1887, at 2 p. m. for the purpose of issuing a call for a Republican County convention, agreeing upon a basis of representation, and for the transaction of such other business as may come before the committee.

CALL FOR JUDICIAL COMMITTEE.

The members of the Republican Judicial Committee of the 12th judicial district are hereby requested to meet at the office of Hartman & Dryden, Kearney, Neb., at 2 o'clock p. m. on the 30th day of July, 1887, for the purpose of calling a convention to place in nomination a judge for said district and to transact such other business as may properly come before the meeting. The members are earnestly requested to be present.

Custer county is the fourth in the State in the number of Republican votes cast, and has sixteen delegates in the State Convention.

Speaking of McGlynn, seems to us the associated press is giving this tool of Henry Georgeism too much prominence. Give him a rest, and O, give us a rest.

The people of Sidney have imposed an occupation tax on nearly every business carried on in the village, the lawyers being exempt. The Telegraph thinks this is showing partiality.

DR MCGLYNN was invited to Rome to see the Pope. He wouldn't go and so his Holiness excommunicated the Rev. Father from the Church. If the Pope will invite us to visit him we will go, and make no fuss about it either.

SOME time since THE TRIBUNE referred to the large number of claims for damages on account of roads that had been filed with the County Clerk; the amount now being \$6,322.10. In some of these cases the board has probably "got its foot in it," and will have to pay or vacate the roads. Of course if this policy of paying such enormous prices for roads is continued it will bankrupt the county, and a new plan must be adopted. The people want roads and must have them, but there is a limit to the ability of the county to purchase. That limit seems to have been reached at \$6,000. Draw the line right there, Mr. Commissioners.

The call for the State Convention reminds us that another election is approaching. The officers to be elected by the State are one associate justice of the supreme court and two regents for the University. In this (the 10th) judicial district a judge is to be elected. Throughout the State, county officers are to be elected, with the exception of county attorney, and of course the greater interest centers upon the local tickets. In this county, excepting for the office of county clerk, there are a number of candidates for nomination by the Republican convention, but at this time it will only be necessary to refer to those for treasurer and sheriff, it being conceded that Mr. Evans will be renominated and elected county clerk. Below we give the names of those whom we have heard mentioned in connection with these offices, simply prefacing that this paper expects to support the nominees of the convention heartily, doing all in its power to secure their election, and does not wish to be understood as favoring one more than the other.

For the office of county treasurer we have heard three names mentioned: W. T. Chadwick, C. E. Osgood and C. H. Stamp. Mr. Chadwick is a locomotive engineer and has been on the road ten or twelve years. A straight, consistent Republican, he is industrious and deserving, and is one of our most respected citizens. Mr. Osgood is a farmer and stock grower, having a fine ranch five miles south of the city. In the session of 1885 he represented the county in the lower house of the legislature, and in the fall of that year was a candidate for treasurer. He is the president of the county agricultural society, in which body he is an energetic worker. Chas. H. Stamp is a machinist and works in the railroad shops of this city. He is the present secretary of the Republican County Central Committee, being one of the best and most enthusiastic party workers. He has served one term as city treasurer, keeping well posted in financial matters. The office of sheriff seems to be more attractive than the others and competition for the nomination will be quite lively. Those whom we have heard mentioned for the office are: Maj. Woodhurst, W. C. Elder, Fred. C. Spanuth, A. O.

Kocken, Capt. J. D. Jackson, and John Hawley. Here is a list of most excellent gentlemen, and we apprehend the convention will have considerable work in making a choice.

Maj. Woodhurst is one of the pioneers of the county, having served one term as sheriff in early and stormy times, and was afterwards warden of the penitentiary. He has always been a wheel-horse in the Republican party, his superior judgment and foresight being always sought in party councils. W. C. Elder is a farmer residing in Medicine precinct, at present filling the important office of justice of the peace. He was a Union soldier and is a member of the Grand Army. In party harness he always pulls true and is an excellent worker. Fred C. Spanuth resides near the head of Warren valley in the east part of the county, where he has an excellent farm. He is postmaster of the office bearing his name, and has a wide circle of friends. A. O. Kocken is one of North Platte's oldest citizens, having carried on the business of merchant tailor for many years. He has been a consistent and earnest party worker. His personal friends are warm and steadfast, an index of personal popularity. Capt. Jackson is well known to most people, having been in the grocery business here for a number of years. He is a member of the Grand Army and as a Union soldier has a most excellent record. John Hawley has occupied the position of justice of the peace in this city for a number of years, and is also extensively known as the proprietor of the Hawley House, being one of the most popular landlords of the city, demonstrating that "he knows how to keep a hotel."

The Inter Ocean commends the wisdom of its Democratic contemporary, the Omaha Herald. It reads the Republican party a sound lecture for making any reference to the past history of the parties, and closes with this ringing classic sentence: "The present age is the age of the living; the issues must be issues of to-day, not of retrospection, but of prospect." It is the wisest platform the democratic party can build upon. The more they can make the people forget of the past of the party the better. The "retrospection" is gloomy. The question will be asked by many, is there much hope in the "prospect" without being "born again?" Work was commenced on the central or main building for the soldiers' and sailors' home near the city to-day. The B. & M. is putting in a side track for delivering material on the site, and the work will be pushed with all possible vigor. Both brick and stone are now on the way, the brick coming from Kearney via the Hastings and Aurora over the B. & M., and the stone from the B. & M. line south. Both Colonel Hammond commandant and Mr. Scott the contractor, are on the ground looking after the work and pushing it forward to the best of their ability, and the institution will be in good hands.—Grand Island Independent.

A somewhat unlooked for action has been brought by E. Nagle, receiver for the firm of Swan Bros., against the First National bank of this city. The bank, to whom the Swans owed \$83,000, sued out an attachment against the firm but it failed to hold. Now, Mr. Nagle, claiming that the bank under its charter, could loan but \$20,000, or 10 per cent, of its capital to a single individual or firm, and that in consequence its loan of \$83,000 was illegal beyond the sum of \$20,000. The receiver now sues to recover the difference from the bank for the benefit of creditors with some prospect of recovering the same. This, should it win, reduce the indebtedness of the firm \$63,000 and give that much more, for which the bank is said to hold full collateral security, to be divided among the firm's creditors.—Cheyenne Stock Journal.

Without any disrespect to the office of chief magistrate of the nation, the Salt Lake Tribune thinks it only fair to say that President Cleveland's address on the respect due that office, delivered at Clinton lately, was mostly, in the lexicon of the compositor, "hog-wash." It was turbling and bungling in diction, and through it the ran a strain of complaint which is unworthy of any incumbent of the office, President Cleveland has less real grounds for complaint of the treatment the people have given him than any other president. Wrong on a multitude of vital issues, he has never been more than gently criticised, except where his acts have permitted nothing less mild than denunciation. Up to seven years ago he had achieved no higher fame than that of a Buffalo ward politician. His existence was quite unknown to quite fifty-nine and a half out of every sixty of his countrymen. Considering all the facts, it does not require a speech from him to impress upon the people the respect due office of president.

We must pay for keeping the insane. A short time ago the County Clerk received the following notice from the Attorney General. The amount claimed is greater than was supposed was due, as several patients have been charged to this county who did not legally belong here. Nearly every county in the state is delinquent and if they owe an amount corresponding to their population, the hospital will have a half million dollars coming to it. Judging from this, keeping a hotel of this kind must be a mighty profitable business. It is likely that relief will be sought from the next legislature.

ATTY GEN'S OFFICE. LINCOLN, April 27, '87.

To the County Commissioners of Lincoln County, Nebraska. Gentlemen—There is now due the State from your county the sum of \$5,960.89 for keeping the insane patients from your county. Our supreme court has passed upon the legality of this claim in 18th Neb. at page 601. The amount due must be paid at once. It is not the intention of this department to make any costs against the counties, wherever they are trying to raise the amount by levy, but in all cases where the counties refuse to make the levy or refuse to pay what cost they have on hand, then in such case proceedings will be commenced. Please advise me at once whether or not your county has taken any steps to pay the amount due and outline, yours truly, Wm. H. Hall, Atty Genl.

Red Willow Precinct.

The storm of Friday shook our town people up in general, blowing Dr. Williams' store off the foundation and scattering Howard Bros. lumber over a section or two.

The latest arrival in this neighborhood as a permanent settler is a new girl, Mr. and Mrs. Hayden are the happy parents. Mr. Albert Wilsey of Hamilton county is here looking up a grain location. We understand that he is thinking strongly of locating in Wallace. We hope that some good grain man will locate here as we have considerable of grain that must be disposed of.

The Fair Haven S. S. Festival held last Thursday evening proved a financial success. Mr. Reynolds and Charley, "the Dutchman" had their crops badly damaged by hail Saturday. No other crops in the neighborhood were damaged. Five self-binders are running in this vicinity and yet the farmers can't get their grain cut fast enough; oats much better than was expected, taking from two to two and a half pounds per acre to bind them. What we need now is a good thrasher to do our threshing. Young ladies are scarce, items scarcer, and babies scarcer.

AGRICOLA.

Garfield Precinct.

EDITORS TRIBUNE: As I have not seen anything in your valuable paper from this corner of the county, thought I would let you know I'm not out of the place.

The weather this season has been very dry until last Friday evening we had a very good rain and Saturday night the rain fell slow and steady all night, wetting the ground some four or five inches deep and almost insures a corn crop for this season. The wheat crop here is little more than half crop, though what there is of it the grain is good and plump. Oats will not average high a crop; they are thin on the ground and very short straw. Some parties are mowing theirs for hay. The crop of early potatoes is short on account of dry weather, but the late rains will help the late planting. There has been considerable fax sown in this precinct this season; think it will do well in ordinary seasons.

There has been some eight or ten wind mills and pumps erected in this vicinity this spring and summer and several new wells have been dug, affording an abundance of water. We notice the Garfield wind mill has changed location, it is now pumping water for Cyrus Binder, the click of the binder, the Header and the Mower can be distinctly heard in this vicinity almost night and day and some times on Sunday. Owing to the high winds of last week some pieces of wheat have shattered out enough to seed the ground; hence the haste to get it in shock.

Our village blacksmith shop has changed hands, but the good work still goes on and Jake will have more time to thump the hogs. G. S. Topham has gone to the Bow on business. Date Aulsebrook and family returned Wednesday from a visit in Valley county; he reports crops splendid in that county.

The ex-soldier of Garfield held a camp fire at the school house last Wednesday evening and had a splendid time in general. The program consisted of music, speaking, telling army stories of camp life, battles and skirmishes, a supper of beans, crackers, boneless pork, coffee, etc. The entertainment closed about eleven P. M. by singing about a hundred and fifty yards of the song, John Brown. The boys say they intend having another round up before long.

Yours, FELTON.

Renews Her Youth.

Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own household work. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." A well-digger on 19-9-30, while digging a well for A. O. Stockton struck water at a depth of 130 feet. He was industriously picking away at the rock when suddenly the water and gravel flew into his face with great force, stunning and almost blinding him, but, recovering and calling to the windlassman at the top, he was hastily drawn beyond danger, as the water in less than two minutes had risen 10 feet in the well.—Grant Enterprise.

Land Office at North Platte, Neb., July 22, 1887. Notice is hereby given that the intention to make final proof in support of his claim, and that said proof will be made before Register and Receiver of U. S. Land Office at North Platte, Neb., on September 23, 1887, viz: Zeuss Leone on his E. E. No. 6718 for the northwest quarter section 15, township 9, range 31 west. He names the following witnesses to prove his continuous residence upon, and cultivation of, said land, viz: Wm. B. Fletcher, Edward Farrell, Lee Conger, Edward Reinhard, all of Van Wyck P. O., Lincoln Co., Neb. WILLIAM NEVILLE, Register.

A reader of the Pioneer furnishes the following dog story: A dog owned by Wm. Boughman, who lives about nine miles northwest of Plum Creek Decoration day. On the way home Mr. B. says the dog followed him within a mile and a half of the house and there he saw him chasing a rabbit. He paid no attention to the dog, but noticed when he got home the dog had not followed him. He did not come home for several days and he was thought lost. On the fourth of July some men were driving along the same road and they heard a noise at one side of the road. They went in the direction of the noise where they found an old well, 30 feet deep, in which they found the dog, which when chasing the rabbit, had fallen in and lived five weeks without food or water.—Plum Creek Pioneer.

Two Nebraska murderers under sentence of death, have escaped jail, and thus escaped punishment, Simmerman at Minden, and Bohannan at Nebraska City, and Olive, also under sentence of death for the most brutal murder ever committed in this or any other state, escaped by reason of technicalities. This uncertainty of punishment is what leads to the frequency of the terms of court held by Judge Lynch, who permits no reprieve, stays of execution or escapes on technical grounds.

Worth Knowing. Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe cold attended with a distressing cough and running into consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption, guaranteed to do just what is claimed for it—trial bottle free at Streitz's drug store.

AN EPIDEMIC. A Violent Form of Cholera Morbus at Belknap, Iowa, Prostrates the Whole Community. A Plain Statement of Facts by a Leading Merchant of the Town. Last summer we had an epidemic in this community in the form of cholera morbus. Nearly every man, woman and child was prostrated by it, and it seemed to be a very violent form. We tried every medicine we could find without relief. I then went to Ottumwa and Blake, Bruce & Co., wholesale druggists, advised me to take Chamberlain's Colic, Cholera and Diarrhoea Remedy. I do so and distributed it, and it gave relief immediately; it worked like magic. I ordered more of the remedy at once, and sold it during the day at my store and at night at my home. I sold as much during the night as I did during the day. The people here cannot say enough in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy. J. H. HELLWIG, Merchant, Belknap, Iowa. Sold by A. F. Streitz.

"JEWEL" PNEUMATIC 3-BURNER RANGE. The Pneumatic Range does away entirely with the elevated tank, and in its place uses a 3/4-inch seamless brass tube tank at the rear, entirely under the top, giving protection, and below the level of the burner orifices, with a perfectly tight glass end, at the oven end of the range, making it possible at all times to see exact quantity of oil in same, with filler funnel at operating end. The method of lighting is unique. It overcomes entirely the smoke and odor of burning gasoline in a dry cup. Perfectly simple, with no intricate parts likely to get out of order; strongly made, with all brass tubes and Union couplings. The Pneumatic will not puff or blow when properly lighted, allowing the Generator to become thoroughly hot. Sold in North Platte only by L. STRICKLER, Hinman's Block Front Street.
