

STEVENS & BARE, EDITORS AND PUBLISHERS

SATURDAY, SEPTEMBER 3, 1897.

The city council will hold its regular semi-monthly meeting Monday evening. D. W. Baker will have an electric light in front of his residence on Fifth street. Late excursionists to the mountains report a large amount of cold and stormy weather. Geo. G. McKay has been in Chicago this week laying in a supply of goods for his large store. The engine at the mill will be ready for starting in a few days, when the electric light will shine forth again. The young men of Plum Creek propose to organize a militia company. Fifty names have been subscribed to the enrollment roll. A meeting will be held at Dr. Warren's office next Tuesday evening at eight o'clock to perfect the organization of the gun club. Cards are out announcing the wedding of Wm. J. Stuart and Miss Anna Gibbs on Tuesday evening, Sept. 6th, at the residence of the bride's parents. Use "Carter's Diamond Brand Paint" A. F. Stretz, sole agent. The Tribune has been blamed for the thinness of its baseball column last week. The fact is the less said about the hippodrome performance at the fair grounds on Friday of last week the better. Charles Parker has been taken to Wyoming for trial. The penalty for his offense is from one to twenty years. U. S. judges are not overstocked with sympathy and it is likely the boy will go up for a long term. The storm of Thursday afternoon did not extend as far west as O'Fallon's or as far east as Brady Island. The people of the west end of the county got a two-hour's heavy rain yesterday morning. S. D. Wadsworth, on the road for Deere, Wells & Co., interviewed friends here Thursday. Mayor Hammond and street commissioner Baker feel quite proud of the manner in which the street filling stood the flood of Thursday afternoon. Where completed, the next morning it was hard and dry. Miss Rose Stannus, an elocutionist and improviser of Irish characters, will give an entertainment at Lloyd's opera house Saturday evening, September 10th. The lady is highly recommended by the press and public. Mr. Cash has fed over 6000 cattle at the stock yards in this city during the past ten days, besides numerous horses and sheep. The cattle are mostly steers and the hay crop is in the best of condition. The capacity of the yards was not overtaxed. Noticing a box of Havana's in the office of W. T. Wilcox being passed freely about, inquiry developed the fact that a baby had arrived at the home of Mr. and Mrs. W. on the night previous. THE TRIBUNE smoked the health of the heir. Most everybody predicted that with the onset of rains, hot weather was over, but for all that the mercury managed to float up to the 90th mark on several occasions this week. The damp atmosphere made the heat quite oppressive. P. H. McEvoy desires to state to the public that on next Monday he will receive an elegant line of solid and plated silverware in designs suitable for wedding presents. He will also receive a fine line of diamonds. B. I. Hinman, C. F. Iddings, T. J. Foley and C. L. Wood, the railroad committee of the Board of Trade, made a trip this week to Omaha and Fremont to confer with railroad officials. They obtained considerable information that may result greatly to the benefit of the city in due time. The committee is still at work corresponding with different roads. The institute brought together most of the candidates for superintendent of schools, there being quite a number desirous of securing that office. They are all gentlemen and after comparing notes they were all good fellows. This disseminator of news has not heard of any lady candidates this year. Occasionally mistakes occur in newspapers that are not only ludicrous, but what makes them worse is that they are not self evident. Such mistakes make an editor "hot." The one in last week's Tribune about the mercury falling as low as 37 degrees below zero haply was not of this nature. Such a degree of cold would keep any one cool, and that's the effect it had on us. The body of Engineer Peter Masteron was found Tuesday about three miles below the wreck. The body was about the middle of the stream, lying on its side, partially buried in the sand. The creek and the Platte river had been thoroughly searched as far down as Sterling on both sides, but of course the body could not be found until the water subsided sufficiently to disclose it to view. The teachers of the institute held a social at the court house last evening which was attended by our citizens to form a better acquaintance with the teachers. Besides the sociable feature, there was an informal program rendered, consisting of music, reading of a paper edited by the teachers, and short addresses. It was a pleasant gathering. The city schools will commence Monday. Several changes have taken place since the teachers were assembled in the school house, with the principal, J. H. Byrly, assistant, Miss McKeen, and Miss Wadsworth, and the following: Miss George McNeal, intermediate; Miss Betty Graves, principal 1st ward; Miss Eunice Babbitt, assistant; Miss Effie Cleland, principal 2nd ward; Miss Frankie Kocken, secondary; Miss Clara Federhof, primary; Miss Mary Conway, principal, 3rd ward; Miss Annie Stolle, assistant; Miss Sarah Thomas, west end school. A large and brilliant flash of lightning during the rain of yesterday morning was suddenly followed by a heavy roll of thunder. The nearness of the explosion conveyed the impression that the lightning struck not far away, and a rumor was current that an empty passenger car was the sufferer. Inquiries among railroad people failed to find any foundation for the rumor, but developed the fact that railroad men never heard of such a thing as a car being struck by lightning. An old section man had been in many storms on a hand car when the lightning played shuttlecock on the telegraph wires shattering poles near by, but he felt none of the effects of the electricity on the car. Railroad men have no fears of the lightning when on a train. Married. In North Platte, at the residence of the bride's parents, on Thursday evening, Sept. 1st, Mr. A. O. Hamilton, of Edgerton, Mo., and Miss Luella L. Ross of this city, Rev. John Hopkins officiating. The bride has been a resident of this city for several years, and is highly respected by her numerous friends. Mr. Hamilton is in the employ of the Rock Island road, being station agent and operator at Edgerton. The ceremony was quietly celebrated, only a few friends of the family being present. After a few days the couple will start on a month's visit to friends in the east, returning at the end of that time to their future home at Edgerton. To the happy couple THE TRIBUNE sends greetings. May their paths always be spread in pleasant places, illumined by the sunshine of love, peace and happiness.

PEOPLE AND EVENTS. J. E. Edwards returned Thursday from a trip in the Rockies looking much improved. Mr. Rhincoold, late in the employ of J. Q. Thacker, left for Kansas Wednesday evening. Charley Poole leaves for Omaha this evening to attend the fair and visit old-time friends. Mrs. Wm. Whitlock arrived home from Colorado Monday after an absence of several months. Mrs. O. O. Carnahan is visiting friends in Western Pennsylvania and will be absent quite a while. A. A. Pangborn, station agent at Brady Island, spent a few hours in the city Thursday evening. Oni Vesela, of Gibbon, was shaking hands with old North Platte friends a couple days this week. Clerk McKenzie, of McKay's store, returned home late last week from a vacation spent with friends in the east. Will Woodhurst came in from Denver Sunday and for the present will fill a position in Agent Griffin's office. Miss Kate Bentley returned from Salt Lake Sunday evening after a three weeks' visit at points of interest in Utah and Idaho. Ben. Familton of Brady Island was perambulating our streets yesterday. The hay crop will be heavy in his neighborhood. J. E. Carrigan started for Illinois Thursday evening, having received word at noon that his father was not expected to live. Walter Papworth, the popular conductor, has been confined to his room for some time past with a severe attack of malarial fever. C. A. McDonald left for Ann Arbor Wednesday to resume his course of instruction in the great university located at that point. Father Conway will start for Wisconsin next week, intending to spend a month amid the scenes of his youth near Reedsburg in Sauk county. After a couple months sojourn at different places in the Rockies, Mr. and Mrs. T. Kellher returned home Tuesday having had a very pleasant time. Miss Betty Graves returned Thursday evening from her home in Council Bluffs where she has been spending her school vacation. Many friends welcome her return. Dr. and Mrs. A. D. Buckworth returned from Idaho Springs, Colorado, Tuesday evening. Mrs. B.'s health was much improved by the mountain air. Miss Maggie McKenzie, sister of Mrs. C. H. Gordon, was elected Saturday night to fill the vacancy in the grammar school caused by the resignation of Miss Effie Dougherty. Miss Davis and Miss Bowen, enroute from Colorado to their homes in Baraboo, Wis., have been spending the week in town, the guests of Mr. and Mrs. J. E. Evans. Mr. and Mrs. W. H. Letton of Fairbury, Neb., on their return from a two months sojourn in the mountains, stopped off Friday to visit the family of Dr. Duncan and other friends. Jimmy Dallas started east Tuesday morning in search of a position as catcher in a ball club. As to his ability to catch a good game, we cannot say at all times.

REPUBLICAN COUNTY CONVENTION.
The republican elements of Lincoln county are invited to send delegates to a republican county convention to be held at the court house in North Platte, Nebraska, on Wednesday Sept. 21, 1897, at 10 o'clock a. m., for the purpose of placing in nomination candidates for the various county offices and to elect delegates to the state and judicial conventions, and for the transaction of such other business as may properly come before the convention. The basis of representation is one delegate for each twenty votes of major fraction thereof. The last session of the convention for John M. Thayer, for governor, provided that each precinct shall have at least one delegate.
The primaries will be held in the various precincts on Saturday, Sept. 19, 1897, between the hours of 1 o'clock and 4 o'clock p. m., at the usual places of holding elections.
It is recommended that no proxies be allowed in the county convention except such as are held by residents of the precincts claiming such proxy representation.
By order of the county central committee.
C. H. STREITZ, Secretary.

In Brief, And To The Point.
Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature. The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be had make the American people a nation of dyspeptics.
But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.
Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.
