

An infant son of Mr. and Mrs. P. O'Hare, of this city, died on Monday.

To Rent.—A desirable room pleasantly furnished. Apply to Mrs. C. H. Randall.

Haymakers complain of too much damp weather for the successful prosecution of their work.

MARRIED.—On August 16th, by Rev. Adam Stump, Edward Whitaker, of Garfield, and Miss Hannah L. Pedrick, of Lamplugh's Lake.

A small party of ladies and gentlemen expect to start on Thursday next for a week's camping out in the canyons in the south part of the county.

Five companies of the Twenty-first infantry enroute to the encampment at Kearney will probably arrive in the city today. The detachment is accompanied by the full regimental band.

Miss Mary Conway has resigned as principal of the Third ward school. The election of a teacher in her place and also an additional teacher for the First ward will take place at the next meeting of the board.

Mr. Keith informs us that he has rented the room lately occupied by McEvoy to a gentleman from Kansas City who will open up a stock of clothing and furnishing goods in a couple of weeks. It is a desirable location for a clothing store.

The flambeaux ordered by the Democrats of this city have at last been taken out of "lock" at the express office after remaining there for over a month. There are twenty-five flambeaux and as soon as that many loyal Democrats can be found a grand (7) parade will occur.

Rock Springs lump or nut coal. C. F. Iddings

It was a mistake to say that I. A. Fort had been "appointed by the commissioners to survey and locate the new cross-country road to Wallace." When it comes to surveying county survey Slootskey will attend to it.

Some campers going west caught a number of fish in North river Tuesday night, two black bass being among the number, so they claimed. If they were bass, we believe they were the first that have been caught in the Platte. One is said to have weighed three pounds.

People residing on the south side complain of the foul stench arising from carcasses of horses deposited on the city lot at the north end of South river bridge. Is it lawful to leave dead horses there without burying them? It don't look as though such a practice is just the proper thing, whether lawful or otherwise.

C. F. Iddings, secretary of the Lincoln county agricultural society requests us to say that the society has decided to make an exhibit at the State fair, and to request farmers to bring in samples of all products. They can be left with Mr. Osgood, the president of the society, and should not be brought in later than the first of September.

The gentleman in charge of the Hershey vegetable gardens evidently understands his business, and is showing what Lincoln county soil will produce. Every other day he brings in a ton of cabbages, watermelons, sweet potatoes, etc., all of which are as fine as can be raised anywhere. On Monday last he shipped 2000 pounds of cabbage to Cheyenne.

Col. Hupfer, while riding over his north side ranch, discovered the root of a "sand lily" that had been partly excavated by the cattle. He dug it up and found it to be something over six inches in diameter, three feet long, with several large branches. The plant flourishes in sandy soil, and the root penetrates deep into the ground, drawing moisture from a long distance.

There appears to be a number of light fingered chaps in town who frequent places where those who handle their money in a careless way are apt to gather. On Sunday some one pilfered a couple dollars out of Billy Strubbers pocket at the fair ground. On another occasion five dollars were picked from a man at one of the restaurants. These thefts are not large, but they are annoying.

C. C. Hawkins, formerly of this city has been appointed traveling land agent for the B. & M. R. R. with headquarters at Lincoln. He expects to go east this fall and work up excursions, advertising the country along the line of the B. & M. paying special attention to lands in Lincoln, Keith and Perkins counties. THE TRIBUNE wishes Mr. Hawkins success in his new position.

The following School Districts have not yet sent in to the County Superintendent their "Annual Report of Director," viz: Nos. 3, 8, 24, 25, 38, 43, 44, 45, 47, 53, 55 and 56. These reports were due at the Superintendent's office July 30th at the very latest but through neglect they are not forth-coming. Supt. Langford wishes to state that unless forwarded within 10 days these Districts cannot expect to derive any advantage from the next State Apportionment.

The county road fund is in pretty bad shape, and from present indications some time must necessarily elapse before it can be brought into proper form. The board has proceeded on the supposition that the road tax would be paid in cash as usual; but it transpired a short time ago that both the B. & M. and U. P. Ry companies will work out the three-fourths of the road tax which the law provides they may. This will reduce the cash receipts of that fund about one-half, greatly interfering with the calculations of the commissioners. The consequence is that many of the accounts against that fund will have to lie over for another year. They cannot be very well provided for until the time for making another levy.

Business at the roller mill is humming. Mr. Allum taking orders for fifteen carloads of flour and feed during his trip in Colorado.

The North Platte Lumber Yard has in course of construction a huge coal shed the dimensions being 208 feet long, fourteen feet wide and eight high. The company will handle both hard and soft coals.

Rev. W. A. Ambury, presiding elder for this district, will preach in the Methodist church to-morrow, (Sunday) morning and evening. All are invited.

A new time-card will soon go into effect on the U. P. by which the "Flyer" will arrive here about half past six p. m., instead of ten as at present.

Lost.—A canvass hunting coat with Meerschmum pipe in pocket, on road over South river to Cottonwood Springs. A liberal reward will be paid for return of same to Room 7, Land Office Block.

The folks on Maple street have made several efforts to get a walk leading down from Front street to the school house, but mistakes seem to have defeated the scheme. We publish this week a second ordinance on the subject.

The commissioners have made quite a tour of the county lately inspecting roads and bridges. They thus become acquainted with the topography of the county and can more intelligently judge of the needs of the people when petitions are presented for roads.

On our second page to-day will be found an advertisement from H. C. Rennie in which he gives information that will be of financial benefit to ladies and others. Mr. R. maintains at the counter what he asserts on paper.

Sportsmen of the city are said to be slaughtering prairie chickens in great numbers, although it is unlawful so to do. About fifty men and boys were out last Sunday, some of whom were very successful in getting—"full."

Readers of THE TRIBUNE are invited to call at Rennie's and inspect his stock of fall goods.

Klenk & Gatward have made additions to their machinery in the form of a steam engine and new sausage grinder, thus greatly enlarging their facilities for preparing sausage and meats in that line. A fine new delivery wagon has also been added. The gentlemen propose to keep abreast of the times.

Lincoln county now offers better facilities to the farmer and stockman than any portion of the surrounding country. There is a splendid location for a ranch at the half way point from here to Wallace. The settler locating there would have unrestricted range for stock for some time to come, and it would be a stopping place for the heavy travel between the two points.

The Wallace sphere pounders and the North Platte sluggers will engage in a game of ball at the fair grounds this afternoon. The players from "Egypt," have, we are informed, vanquished every club they have played this season and unless the home battery does some fine work victory will perch upon North Platte's banner.

Indications are that there will be a larger number of land seekers visit western Nebraska this fall than for a couple years past. Every day THE TRIBUNE receives letters from parties in the east asking for information about western Nebraska and Lincoln County in particular. The crops of this section this season are attracting the attention of eastern farmers. Lincoln County holds out inducements to industrious tillers of the soil.

John Vest who has been traveling for the past three months through portions of Wyoming, Colorado and Utah in search of a good location for a stock ranch, arrived home this week. He was accompanied by his sons-in-law. Wherever they traveled they found that the choice locations were occupied. After you get into the mountain region it is not an easy matter to find locations affording water and grass that have not been pre-empted by some enterprising stock man.

Some time since word was received by Sheriff Baker from parties in Texas that they had Ernest Myers there. The county having spent several hundred dollars chasing after Ernest, the disposition to go down to Texas was not very strong. The parties were therefore informed that if they would deliver Ernest any place in Nebraska their reward would be guaranteed. He has not yet been delivered. In this connection we might say that some of those who were acquainted with Ernest Myers believe that he is not living.

Black Brother's celebrated circus show gave performances on Thursday and Friday of this week to crowded tents, the admission being ten cents. The performers are all good and the show possesses several performing horses and a herd of well trained dogs. A good feature of the show was the introduction of several new jokes by the clown and the omission of the old time-worn whistle or tin horn joke that tickled our grand parents so much when they were children. We don't see how the clown got along without it. After the show the manager informed us that it was hard for him at first but with close attention they broke him of all desire for the tin horn.

About a week ago affidavit was made that Wm. Miller of Fox Creek, was insane. A warrant was issued to bring him before the insanity board for examination. On being brought to town he was so violent it became necessary to place him in close confinement. Investigation of his condition established the fact that he was insane and at times violent. Before being brought to town he had attempted to kill Mrs. Ross Schmidt, assaulting her with an axe. It was with considerable difficulty he was disarmed and bound. Miller is a German, unable to speak English. He is an industrious, hard working man and a good team and wagon. He is unmarried. Application was made for his admission to the insane asylum, and word was received yesterday morning that he could be forwarded. He will be taken down.

The ladies of the Lutheran Church will hold a fair and festival at the opera house Monday and Tuesday evenings of next week.

P. Walsh has been awarded the contract to repair all the school houses in the city, the board having failed to make a contract with Mr. Adams as per his bid.

F. C. Spanuth left a thrifty sample of broom corn at this office Saturday last measuring ten feet in height. It promised to yield a very heavy bush.

Fall stock of goods just received at Rennie's. Special sale of silks and velvets.

Twenty-five cents will admit you to the fair grounds to-morrow to see the game of ball. The money received will go toward defraying the expenses of the visiting club.

Tom C. Drummond, at one time a type setter on the papers of the city but now a hard fitted granger of Wallace precinct, was a caller yesterday. Tom has made a success at farming.

Wheat is coming in quite freely, considering that only a few have threshed, 400 bushels being received at the mill Thursday. In a month the mill company expects over 1,000 bushels per day.

Rev. W. Henderson of Tamesville, Ontario, M. E. Conference, stopped in the city Tuesday to take a look at the town and to reach in a few days with Mrs. R. and son who have been visiting at Sheltons for several weeks.

Miss Edith Russell, of Lincoln, who spent several weeks here last winter, is visiting friends in the city.

Mrs. W. L. McGee and children started for Illinois Tuesday evening. Mr. McGee accompanied them as far as Omaha.

W. J. Roach went to Shelton Thursday and will return in a few days with Mrs. R. and son who have been visiting at Sheltons for several weeks.

Miss Bertha Thoelecke went up to Denver yesterday, desiring to spend a few days in the mountain air before the opening of schools.

Judge Hinman and family returned Sunday night from a pleasure trip in the northwest, a jaunt which was very much enjoyed by the party.

Mr. and Mrs. H. V. Hilliker arrived from the east Wednesday morning, Mrs. H. having been absent for over three months visiting friends in Boston.

Alex Ferguson left for Ireland last evening, intending to embark on a steamer at Philadelphia. In his leaving THE TRIBUNE loses a good man on "circular" work.

E. M. Stannard started the early part of the week for Appleton, Wis., to look after some real estate, so he states. Several friends of the gentleman are of the opinion that there is a young lady in the case.

T. Fulton Gantt arrived home Monday night from Minneapolis, where he delivered an address before the united labor societies of Minnesota at their regular annual gathering on the labor question. Mr. Gantt's trip to the metropolis of Minnesota was brief but pleasant.

James Langley returned from the west Thursday evening having spent a week or ten days at the Utah hot springs. When he left the other North Platte representatives at the springs were taking things comfortable, although Mr. L. says the hotel accommodations are none the best.

Mayor Omsby arrived home Tuesday, having spent a couple weeks visiting various points in the mountains. He reports the mountain towns as inexhaustible. Nearly all have first-class "booms" to sell, and they can be bought at almost any price. It's been a bad year for booms.

Mr. and Mrs. L. F. Simon returned from Chicago Tuesday night, having had a pleasant visit with their parents in that city. THE TRIBUNE regrets to state that Mr. Simon is still compelled to use crutches, the sprain he received several weeks ago not improving as rapidly as was expected.

A very desirable assortment of Hats and Bonnets, Flowers and Feathers, Ribbon and Laces still remains. They will be cleaned out at once—before September 1st if possible—so they are marked very low, at CONWAY SISTERS.

A Successful Burglary. A very quiet and successful burglary was perpetrated at the Hawley House Wednesday night. The marauder gained admission through the kitchen. Passing through to the office, he appropriated three valises belonging to guests, unlocked the front door, and went out on the street. From there he evidently went up Fifth street until he reached a point near Dr. Buckworth's residence. He then examined the contents of his satchels at leisure. One of them belonged to T. L. Davis, lately from England, and contained an outfit of fine clothes and numerous articles of gent's wear; also \$37 in money. This was what the thief was after, and he appropriated it, leaving the contents of the valises scattered around on the prairie without being injured. Everything but the cash was recovered.

The thief must be some one who had learned that there was money in one of the valises, but in the darkness could not tell which one, and hence took the three. He did not want clothing, or gloves or wearing apparel. It was the solid cash he was after.
