THE WATER WORKS NOT ACCEPTED

A Proposition From the Company.

Analysis of the Water.

The passage of the motion by the council Monday evening, notifying the Water Works company to sink their wells to the depth stated in the contract, is a virtual rejection of the works on the part of the city, although a somewhat indirect way of doing so. Properly the question should have come up in a differaudible proportions. This chunk of news question should have come up in a differwas so unexpected that a vote of thanks was at once privately proposed thanking Treasurer Dick for the very able and efficient manner in which he was perform-

Since the above was in type the water works company have made the proposition to the council that if they will accept the wells as they now are the company will agree to keep up the present excel lent standard of purity of the water and to allow the councils in the future to have the water tested yearly, one half of the expense of the same to be borne by the ten offered. Many can get homes in this company, and if at any time the water should prove to be contaminated by surface water, to allow the city to withold life by taking a few shares. It costs the hydrant rental until the wells are \$3.50 a month, or about 12 cents per day to carry five shares and in sixty months

Following is an analysis of the water as procured by the company:
National Tube Works Co.,) Laboratory Dept., C. E. MANBY, Chemist.

McKeesport, Pa., Dec. 3, 1888. W. S. Kuhn, Gen. Mgr. American Water Works and Guarantee Co., Limitd. Dear Sir: The following analysis and

The analysis of this water from North Platte shows an excellent quality due to the very small amount of organic matter in the form of free amonia and albumin-But to business.

Warren Lloyd presented a petition asking that James Flinn be appointed a special policeman to serve in the operation house without salary. The Mayor accordingly presented the name to the council for confirmation as such policeman, and the nomination was approved. actual practice. The water is crysta clear and tastes most refreshing, due to the bi-carbonate of lime and small amount of chloride of sodium. The following

Shows its degrees of hardness:
Temporary Hardness....3.31 \ U. S. Gallon.
Permanent Hardness....8.25 \ U. S. Gallon. Total-Hardness ... 11.65 Yours truly, C. E. MANEY, Chemist.

-A petition largely signed by our of Chas. L. Wood to the position of postmaster in this city was circulated this McEvoy, W L McGee, 'E S Keene, W B Conklin, J L Strickler, Warren Lloyd, John Hawley, Scott Keith, E T Redmond, M C Harrington, W A Vollmer.

Thos. Reed was appointed special policeman for the court house.

One ton of coal for each hose house

Master in this city was circulated this week. Without any disparagement of others who may apply for the position, and we understand there will be a number when it becomes evident there will be a vacancy, we can say we believe Mr. Wood would make a good postmaster. He was among the early settlers of the country and bas been an active and ones. seen. We understand an effort will soon be made to revive the Camp in this city, the prospects being that greater interest will be manifested by the members. The would be better, and so he threw in a whole hundred weight or more. The effect desired will be a certain result.

His Honor probably had this in mind when he made the appointments, only he reasoned that if an ounce was good a pound would be better, and so he threw in a whole hundred weight or more. The effect desired will be a certain result.

One ton of coal for each hose house county and has been an active and energetic party worker. However, a vacancy is not expected for some time yet, but dered at the fire on Front street on No-Nasby's that trite and true saying about the early bird and the worm. PERSONAL MENTION.

M. T. Allum went down to Grand Is land Tuesday on a business trip. E. M. Stanuard left for Appleton. Wis Thursday lo be absent some time.
