John Sawyer is proving the most successful disciple of Isaac Walton in this section, catching from ten to twenty-five wall-eyed pike each day. His catch yesterday was twenty-one, and he remembered this writer with a quartette of fine ones.

The absence of foul stench from alleys in the city is not due to the cleanliness of the by-ways, but to the unusually dry season. It was noticed that immediately after the rains of last week a very unpleasant odor came from these alleys but it disappeared with the evaporation of the moisture.

Malarial and other atmospheric influences are best counteracted by keeping the blood pure and vigorous with Ayer's Sarsaparilla. A little caution in this respect may prevent serious illness at this season. Ayer's Sarsaparilla is the best all-the-year-round medicine in existence.

From the small amount of silver which has circulated around this office during the past month it is quite evident that there is not enough of the metal passing among the people. Just at this time bacon, hominy and potatoes will pass as currency for the liquidation of accounts due this office.

J. A. Fort left yesterday morning for the west part of the state to renew his work of getting people interested in irrigation. An audience that overflowed the Baptist church and out to the sidewalk gathered to hear Mr. Price sing his solos and speak on "The Brazen Serpent" Sunday night. During the week the church has been full to standing room every evening. To many the singing is the attraction, to others the bible talks; while to some both are most acceptable. The services continue until next Sunday evening, Sept. 3d, when a great union meeting takes place at Keith's opera house. All are cordially invited to attend these services. Every evening at eight o'clock.

City clerk Sorenson has received letters from a half dozen eastern financial institutions saying that as soon as congress, one way or the other, settles the present financial controversy they will be in position to make bids on the electric light bonds. They could make bids at present, but they deem that price they might offer would not be considered by the council. The bids of these institutions expressed the belief that within sixty days the financial situation would be sufficiently settled to warrant them in making bids which would prove satisfactory to the council.

Alex. England, one of North Platte's best and most respected citizens, died at 8:30 Saturday evening from heart disease, with which he had been affected for several weeks. The deceased was a merchant by trade and had worked in the North Platte shops for about twenty years. Being a sober, industrious and steady workman as well as a good financier, he accumulated property worth probably twenty thousand dollars, one of his holdings being a valuable tract of land about twelve miles west of town. The deceased was a member of the Presbyterian church and an honored member of the A. F. and M. lodge and it was under the auspices of that order the funeral was held at the Presbyterian church Monday afternoon. Rev. Irwin delivering the sermon. A large concourse of people attended, thereby attesting the esteem in which the deceased was held. Mr. England at the time of his death was sixty-one years old and leaves a wife and six children to mourn the loss of a kind husband and father.

CARD OF THANKS.—To all those who so kindly assisted us during the sickness of and at the funeral of the late Alex. England we offer our heartfelt thanks.

The Boston Store in the Grady block, will have its opening on Saturday next. For several days past Mr. Pizer and his assistant have been busily engaged in shoving the large stock of new goods which have been arriving and by the opening day everything will be in tip-top shape. The stock is a heavy one, embracing dry goods, notions, shoes, clothing and ladies' gents' furnishings, and Mr. Pizer assures us that the prices to be asked for these goods will prove satisfactory to the purchasing public. The Boston Store is here to stay; it is not a stock shipped in to be sold in sixty or ninety days, but to remain permanently. The public is invited to attend the opening, inspect the goods, learn the prices and then avail themselves of the bargains offered.

The Leon W. Washburn circus and menagerie is on its travels and will visit North Platte, Thursday, Sept. 7th. All the bill boards, dead walls and old barns and deserted houses are plastered with red and yellow posters, emblazoned with the figures of creatures from every clime. Undoubtedly, in popular estimation, the chief attraction of Mr. Washburn's menagerie lies in "Cupid," the little baby elephant, who is only three feet high, three months old, and weighs two hundred pounds. Cupid is the most gentle and tinnest of elephants, and is never so pleased as when a crowd gathers around him, when he at once begins poking his trunk in all directions for dainties. The visitors give him cakes, candy, apples and fruit at an average of two bushels per day and he can digest anything but nails and quids of tobacco, of the latter of which he is very wary. As staple food, he eats potatoes, hay and bran. He has a constant attendant and keeper in Dan Melville, who has been with him since birth. There is also a special groom for his quarters, and altogether he has a pretty good time. He is certainly a great feature, far ahead of any that have been seen in this city, and Mr. Washburn may well feel proud of so valuable an addition to his already extensive menagerie.

The city schools will open on Tuesday morning next.

THE TRIBUNE favored selling the reed lumber belonging to the city because it was business to do so. The reference to "chronic kickers" was applied to no one in particular. For years past when a councilman has stated that certain complaints had been made to him, some other councilman would immediately say something about "chronic kickers," and in this way the term has become a general one in the council. It refers to no one in particular, but is general to all those who complain of the market which has been closed during the summer and we hope to see him succeed.

The meeting at the opera house Friday evening for the purpose of organizing a branch of the Railway Employees' Union was quite well attended. Eugene Debs addressed the audience, stating the object of the union and the advantages which accrue from it. He scored the engineers on account of their aristocratic feeling, and deplored the existence of that religious persecution which made enmity between two men working at the same bench. Such disturbances were welcomed by the railroad magnates, for so long as the men were fighting each other they were not fighting the management of the roads. Mr. Debs is a good talker and pleased his audience. Mr. Howard, his assistant also made an address. At the close of the meeting a local union was formed by the election of Louis Clark president. Alex. Stuart vice-president and S. H. Donohover secretary. The union starts with a membership of about fifty.
