WEALTHY CHILDREN.

HOW THE BOYS AND GIRLS OF THE RICH ARE BROUGHT UP.

by its parents and grandparents.

The parents of the children who will

some day own one-sixth of all the wealth in this country are very careful about the training and the education of these fortunate youngsters. They are bring-ing them up as carefully as ever the chil-dren of the royal families of England and Germany were brought up. Their teachers are selected from the best in the world, and they are taught, disciplined and drilled in a wonderful way—a way that many children would consider very hard, strict and tiresome.

These millionaire children must be well trained, because they will control many of the railroads of America, teleing the country to tide over the graph companies, and gold, silver and oil mines, besides iron interests and other great industries.

Though they do not have candy and jewelry and him that his case was next on the docket, rich clothes and rich food, they have and he hurried over to find the opposing luxuries which other children do not have. They own beautiful horses and fine dogs, all of the best breeds. A millionaire boy has his saddle horse and often his tandem team when at his country home, and some of these boys have a four in hand. When one of these boys wants a new horse, he buys one or selects one from his father's stables. He has a kennel of dogs, besides rare birds and other pets. And if he wants to own a collection of stamps or stones or butterflies or any other one thing, his father gives him money to buy the best that

can be bought.
When young William Astor Chanler, who is now exploring the heart of Africa, was spending his summers at Lake George not many years ago, he was seized with a fancy for owning boats of all kinds. He wanted canoes, duckboats, yachts and launches.

And he got them all. But the children of the neighborhood used to say that "poor Willie Chanler" was never allowed to buy soda water or candy. One day the temptation to buy candy became too strong for the boy millionaire, and he marched boldly into a candy store with a company of Lake George "Give me 25 cents' worth of candy," aid he, "and charge it to William A."-

The Jury Suited the Lawyer. A Chicago attorney, somewhat noted for his sharp practice, sent his client one counsel already beginning. In vain he looked for his client. He was nowhere to be seen. In vain he asked for delay. but the court told him that the carelessness of a client would not allow such a thing. At last he glanced into the jury box and saw his client there.

The stupid man had thought he heard his name called and had marched in with the rest. The opposing counsel was so anxious to hurry the case along that he neglected to examine the jury. Seeing the thing was in his own hands, the Chicago attorney turned to the court. "I withdraw all objection," he said. "I have my client where I want him."-

FRENCH WOMEN JOURNALISTS.

Some Are Ranked Among the Notables Paris—Their Work and Manners. The newspaper women of France are comparatively few. They are constant-ly accused of a total lack of the critical Sweetmeats For Most of Them.

There are in the United States about 100 children who, upon arriving at the age of maturity, will come into the possession of very large fortures. They will each have many millions of dollars. In fact one sixth of the wealth of the United States is supposed to be in the hands of 20 millionaire families, and each child of each family will some day own the millions that have been accumulated for it by its parents and grandparents.

Why is it that a woman can struggle until she is red in the face and worn out both in temper and body by a window in a railroad train in her vain endeavors to close or open it when all that a man has to do is to walk up and go over exactly the same line of action that she has already exhausted, and down comes the refractory window in a jiffy? Birds Enjoy a Shower Bath. A friend reports a pretty incident During the hot, dry weather the birds about her house were apparently much in need of bathing places, and the lady discovered that every day when she went out to water her flowers a little bird hovered about as if he wanted something.
