

REPUBLICAN COUNTY CONVENTION

A meeting of the Republicans of Lincoln county is hereby called to meet in convention on Saturday, Sept. 23rd, 1893, at one o'clock p. m.

Table with 4 columns: Name, Office, Name, Office. Lists names like Ahlberg, Anderson, and their respective roles.

It is recommended that the primaries for the election of delegates to the county convention be held in the various precincts Saturday, Sept. 23rd, 1893, between the hours of 4 and 6 p. m.

Also a meeting of the delegates elected from the Third congressional district to be held after the adjournment of the county convention for the purpose of placing in nomination a congressman for said district.

JUDGE MAXWELL has been tried—in what has been found wanting?

THE reserve fund of the New York banks is now ten million dollars above the legal requirements, and this is considered an encouraging feature of the financial situation.

WITH the exception of 1873, every financial panic in this country during the present century has occurred when the democratic party was in power. It is therefore evident that it is a good crowd to keep in the minority hereafter.

IN a recent 120-mile race the American yacht Navahoe defeated the yacht Britannia by two seconds. That may be termed an exceedingly close race, especially when the long distance is taken into consideration.

IF there is to be a decline in immigration to this country THE TRIBUNE will have no tears to shed. The country can get along very well if another immigrant didn't land on our shores for ten years. There are to many un-American cusses as it is.

THE consolidation of Nebraska land offices, which was threatened several weeks ago, occurred last week. The books and records of the Chadron office go to Alliance, those of Grand Island to Lincoln, Neligh to O'Neill and Bloomington to McCook. The democrats of the state have remonstrated against the consolidation but without effect.

A RADICAL change in the tariff would seriously effect the welfare of the country, but it would have the good result of knocking out the democratic party forever. To gain this latter end we might be able to stand adversity for a short time; but it wouldn't last long, for the friends of tariff would soon place it where it was prior to democratic interference.

THE frequency of express car robberies of late has caused a number of the railroad and express companies to send out guards on all through trains. The late "hold-up" occurred on a Michigan road Friday forenoon when a half dozen robbers secured \$75,000 which was being expressed to pay off the workmen of the Hecla mines.

THE republican primaries will be held in the several precincts on Saturday afternoon next. Well attended primaries mean a large and enthusiastic convention, and we trust republicans will take sufficient interest to attend the primaries and select delegates who will make it a point to be in their place in the convention.

IT is questionable if a Chinaman who tends strictly to his business is a more obnoxious personage than the ignorant Poles and Hungarians who come to this country, brandish the red flag and want to run the government. While in the deportation business why not send back to their native country the red-mouthed fellows who are not American citizens and will never become such.

THERE are a few republican leaders in the state who want Judge Maxwell turned down, but they certainly do not voice the sentiment of the fellows who do the electing. THE TRIBUNE believes that in Lincoln county the republicans want Maxwell re-nominated and re-elected and it would not be out of place to have them do so.

There was a grand rush into the Cherokee strip Saturday and now there is a rush to get out of it. All that glitters is not gold, and the boomers found it out, much to their disgust.

THE labor statistics of Massachusetts show that more capital, more stock, and more men were employed in the factories of that state in 1892 than ever before, and that the McKinley law gave employment to 17,020 more men in 1892 than had worked under the old tariff law the year before.

AS WE now and then hear the subject of township organization broached the following item from the Kearney Hub is of interest: Gage county has a supervisor system. At the July meeting the supervisors allowed bills for their own salaries amounting to \$1,690.40, and \$435.50 as a compensation for regular committee work. Some luxuries come high, and this is one of them.

DEPOSITORS in large numbers as besieged the banks in order to withdraw their money six or eight weeks ago gather in and around some of the same banks now when the banks are reopening, so as to put their money back. The scars, which were deepened by the groundless and which caused great damage to the banks, to the depositors and to general trade, is now over.

A YEAR ago the gold in the treasury, aside from that held to redeem certificates outstanding, amounted to \$12,000,000, while now it is only \$97,000,000. A larger amount of gold is in the hands of the people now, however, than there was then, and this fact ought to be kept in mind when comparing the financial situation at the two dates. The country on the whole is better supplied with gold than it was around the middle of September, 1892.

WE will not have so much wheat for export as we expected two or three months ago. Still the big stock which was left over from the crop of 1892 will help us to supply a large part of Europe's wants in this direction for the next seven or eight months. The demand abroad for all the wheat which we have to spare will be more active than it was in the last quarter of 1892 and the first quarter of 1893, and prices are likely to advance somewhat during the fall and winter.

IT is somewhat strange that the men who admire the French monetary system so much, says the Globe-Democrat, and who are trying to get this country to copy the French example with regard to the large stock of silver which France keeps on hand, make no provision to imitate France with respect to gold. France has \$100,000,000 more gold than silver, while the United States, if the plans of Faulkner, Peffer and the others should be adopted, would have \$150,000,000 or \$200,000,000 more silver than gold.

A FIRM of Boston importers appeared before the ways and means committee of the house urging immediate tariff reduction on the lines of goods in which they deal. According to their statement the importers are suffering very much by reason of the failure of congress to cut down the import duties. It would seem to us that the American people can lose nothing from the stagnation of business among the importers. When their business is brisk, American gold is flowing to Europe while foreign merchandise is coming to America. It does not hurt Americans to curtail their importations and consume American made goods.—Omaha Bee.

UNDER the heading of "alleged scarcity of land," the St. Louis Globe-Democrat in part says: The time is coming when the semi-arid territory of the country aggregating 200,000,000 acres, will be utilized for occupancy and cultivation. It is considered virtually worthless now because its value depends upon irrigation; but the facilities for its profitable cultivation will be provided in the course of events, and it will then be eagerly absorbed. The fact is to be considered, also, and it is really the most important one in the problem—that our population is spread over a much larger amount of land than it requires, or can till to the best advantage. It is characteristic of the American farmer that they are constantly reaching out for more of the soil, and the result is a system of loose and inadequate cultivation that is unknown in any other country. We might derive a valuable lesson in this respect from the Europeans nations—France, for instance, which supports a population of 38,000,000 on a no larger area than that of Texas. It would be infinitely better for us if our farms were so reduced in size as to make every foot properly productive. That is by no means the wisest and most remunerative form of agriculture which covers the most ground. It is possible for a man to make more money on forty acres than on four times as much. The secret of the largest profit lies in thoroughness of cultivation, which is an art that our farmers have not yet acquired. This will come to be understood as experience widens and practical knowledge increases; and then the farms will begin to grow smaller, and their productive-ness will be augmented accordingly, and the chances multiplied for the individual possessions of land.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was Chamberlain's Cough Remedy cured her of croup, and in turn administered it to her children, and always with the same success. For sale by A. F. Streitz and North Platte Pharmacy.

None but Royal

Baking Powder is absolutely pure. No other equals it, or approaches it in leavening strength, purity, or wholesomeness. (See U. S. Gov't Reports.) No other is made from cream of tartar specially refined for it and chemically pure. No other makes such light, sweet, finely-flavored, and wholesome food. No other will maintain its strength without loss until used, or will make bread or cake that will keep fresh so long, or that can be eaten hot with impunity, even by dyspeptics. No other is so economical.

If you want the Best Food, Royal Baking Powder is indispensable.

THE sappy gentlemen continue to prove, by argument, you know, that tariff reduction cannot lead to a reduction of wages. The argument is an able one, and to sappy people a convincing one; but, all the same, some hundreds of thousands of people are feeling that the mere prospect of reduction of tariff has reduced wages, and is reducing wages. More delegations of workmen than of employers are besieging the ways and means committee with petitions for continuance of protection to American industry.

FIFTY per cent of the printers in New York are out of work. Those who are at work have been assessed 10 per cent of their wages to help those who are not employed. Why is this? Because manufacturers and wholesale and retail dealers are not printing any catalogues this year. They do not know on what basis they will have to make or sell goods, and cannot therefore issue prices current nor state what goods they can offer. Moreover, foreign competition will doubtless play an important part in our future business. Dull trade thus affects all branches, even the printers, who have time to make a note of the fact and its causes, which note they can peruse later—say in 1896. Ex.

CONGRESSMAN BRYAN is supposed to be taking every precaution to make himself solid in the coming democratic state convention for an endorsement of his position on the silver question. The democracy of the state undoubtedly thinks as he does, but when it comes to giving the gold-bug administration of Grover Cleveland a slap in the face there will be a grand array of cowards in the convention that will be worth going hundreds of miles to see.—Hub.

For a lame back or for a pain in the side or chest, try saturating a piece of flannel with Chamberlain's Pain Balm and binding it onto the affected parts. This treatment will cure any ordinary case in one or two days. Pain Balm also cures rheumatism. 50 cent bottles for sale by A. F. Streitz and North Platte Pharmacy.

In Big Basin, Santa Cruz county, Cal., there are thousands of giant redwoods that will measure from 10 to 25 feet in diameter. But the titan of them all is a giant known far and near as "the Goliath of Big Basin." This monstrous vegetable growth is 25 feet in diameter at the ground and is perfectly solid, a fact noted as a rarity in these coast of the forest. Goliath is a fraction over 200 feet in height, the lower 100 feet of the trunk being free from branches or unsightly excrescences. Experienced woodmen declare that the tree would weigh more than 100,000 tons and that it would "cut" 1,500,000 feet of clear board measure lumber, besides 100 cords of wood that could be gotten out of the limbs and waste.—St. Louis Republic.

Antoinette Memorial. Horace Vermet is the best example of a striking portrait of a man. Life size, after having once looked at his model. Mozart had a great musical memory. Hearing twice the "Miserere" in the Sistine chapel, he wrote down the full score of it. There are scholars who during 24 hours can play the composition of other masters without ever skipping a note.—M. Binet in Revue des Deux Mondes.

A little Buffalo miss, when asked by her schoolteacher to name the presidents of the United States in order, began glibly, "Washington, Jefferson, Madison, Monroe, Adams, Watson, Kansas." Here she was checked by the teacher, who remarked that she seemed more familiar with the streets of her native country than with the presidents of her country.—New York Times.

What is a Quarantaine? It is this. If you have a Cough or Cold, a tickling in the Throat, which keeps you constantly coughing, or if you are afflicted with any Croup, Throat or Lung Trouble, Whooping Cough, etc., and you use Bullard's Horsehold Syrup as directed, giving it a fair trial, and no benefit is experienced, we authorize our advertiser to refund your money on return of bottle. It never fails to give satisfaction. Importer relieves Bronchitis. Sold by A. F. Streitz. 1-1

number of friends and neighbors from this locality the following came up from North Platte and joined in the good cause helping make things pass off lively: Andy Struthers and wife, M. H. Douglas and wife, and the latter's parents, Mr. and Mrs. Wright, formerly of Grand Island, Mrs. W. J. Patterson, Mrs. Ferguson, Will Deiner and Mrs. James Wilson. D. A. T. C. and Henry, sons of the old gentleman came down from the ranch in McPherson county and joined in the festivities. Oysters, watermelons and many other refreshments were served, to which all did ample justice. Take it all in all it was a decided success in every detail and heartily enjoyed by all present, who all joined in wishing the old gentleman many happy events of the same yet to follow and also that when he was done with the things of this earth that he would reap the reward which he justly merits beyond the bright and shining river. PAT.

One of the transparencies carried in the big republican parade at Akron, Ohio, Tuesday announced: "Cleveland is a successful smoke consumer. That tells one of the saddest truths that have ever been brought to the attention of an American people. They complained against smoke, and they have elected a president whose presence in the white house has closed the factories and thrown thousands of men out of work, to beg or starve. Cleveland is a great smoke preventer, but the American people have learned that factory smoke is not so objectionable as the democratic method of suppressing it.—Inter Ocean.

A Good Thing to Keep at Hand. From the Troy (Kansas) Chief. Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symptoms that usually precede that ailment, such as sickness at the stomach, diarrhoea, etc., we become scared. We have found Chamberlain's Colic, Cholera and Diarrhoea Remedy the very thing to straighten one out in such cases, and always keep it about. We are not writing this for a pay testimonial, but to let our readers know what is a good thing to keep handy in the house. For sale by A. F. Streitz and North Platte Pharmacy.

A great democratic daily says: "Every article not excepting coffee, tea and sugar, must bear its portion of tax for revenue." Yes, pop it on, and the boss democratic statesmen in 1896 will wish they had died while innocent boys.

The tariff-smashers are putting their heads against the significant fact that the duties were reduced by the last republican congress to the point that admits of no further decrease.

What's the difference between a good boy and an elephant? Why, good boys always take Hall's Sure Cure Cough Syrup and elephants don't. For sale by F. H. Longley.

The opening of the Cherokee strip will turn a large trade into Kansas City. One hundred thousand people will soon be plowing and building homes upon the rich acres of this new wild section.

In 1873 Stewart and the rest of the Pacific coast and Rocky mountain statesmen were all rabid gold bugs in their votes on coinage measures, and they are gold bugs yet in their business transactions.

Bullard's Snow Liment. Mrs. Hamilton Cambridge, Ill., says: I had the rheumatism so bad I could not raise my hand to my head. BULLARD'S SNOW LIMENT has entirely cured me. I take pleasure in telling my neighbors and friends what it has done for me. Chas. Handley, clerk for Lay and Lyman, Keokuk, Ill., advises us SNOW LIMENT cured him of Rheumatism. Why not try it? It will surely do you good. It cures all Inflammation, Wounds, Cuts, Sprains, etc. For sale by A. F. Streitz.

The movement in what is called the sand hill district of the state, looking to the reservation of large tracts of land for cattle raising, is not meeting with popular endorsement. Experience has taught the settlers that cattle ranges and farms cannot exist in the same township; one or the other must go. The pioneers of the sand hill country look with anxious foreboding at the efforts being made to crowd them out of their holdings, which they have acquired by years of incessant toil.—Journal.

We guarantee this to be the best Cough Syrup manufactured in the whole wide world. This is saying a great deal, but it is true. For Consumption, Coughs, Colds, Sore Throat, Sore Chest, Fluennonia, Bronchitis, Asthma, Croup, Whooping Cough, and all diseases of the Throat and Lungs, we positively guarantee BULLARD'S HORSHELD SYRUP to be without an equal on the whole face of the globe. In support of this statement we refer to every individual who has ever used it and every druggist who has ever sold it. Its sale is indisputable. For sale by A. F. Streitz.

Congressman Breckenridge begged his friends to "suspend their judgment" as to Miss Pollard's suit for betrayal and breach of promise to marry, but when he went into court and demanded, instead of denying the charges, it left the suspended judgments but a small nail to hang on. The only saving thing for a gentleman to do under the peculiar circumstances is either to deny or confess and be done with it.—Ex.

Wonderful Things Hood's Cures

"I read in the papers of the wonderful things Hood's Sarsaparilla was doing for others, and so I bought a bottle for my sick child. She was suffering with spasms. The physician had given her up. It was terrible to see her; she had spasms from 12 to 15 times a day and night. At last her head was affected and she was out of her mind so that she knew hardly anything. She has taken two bottles of Hood's Sarsaparilla, and is so much better that I cannot say enough in the way of thanks for this good medicine. Now this is the truth, and I believe it if it had not been for Hood's Sarsaparilla, my child would have been in her grave by this time. I earnestly recommend this medicine, believing it has helped my child, and will help others." Mrs. W. E. Patterson, Wolcottsburgh, Erie Co., N. Y.

Hood's Cures

Only the truth, and I believe it if it had not been for Hood's Sarsaparilla, my child would have been in her grave by this time. I earnestly recommend this medicine, believing it has helped my child, and will help others. Mrs. W. E. Patterson, Wolcottsburgh, Erie Co., N. Y.

Secretary Carlisle has ordered that the force of the mints at Philadelphia and San Francisco be increased to its full capacity, and it is supposed that he intends coining the gold which is kept as bullion in the treasury.

Shiloh's Vitalizee is what you need for Dyspepsia, Torpid Liver, Yellow Skin or Kidney Trouble. It is guaranteed to give relief and satisfaction. Price 75c. Sold by North Platte Pharmacy.

The people who are talking about silver mines being worthless are a good deal like the prophets of forty years ago who declared that the building of railroads would stop the breeding of horses. That they would be "worthless and not of the value of a yearling calf."—Inter Ocean.

Was a famous beauty; coming down to the present time we find a clear complexion, as essential to correct beauty. Hall's Sarsaparilla and Burdock Compound will produce a beautiful clear skin. For sale by F. H. Longley.

The hearings before the Ways and Means committee in regard to the tariff seem to be very superficial and nearing the close. But they have elicited the fact that the foreign producer has to pay the freight, and our Bryan, the man who teaches the gospel that the consumer must pay the freight, was the lucky man to draw out this truth. He probably learned something.

Has been so highly recommended to us that we have taken the agency for it and now ask our friends who are suffering with a cold to give it a trial and if it does not give satisfaction your money will be refunded. Every bottle is sold on a positive guarantee. Price 50 cents and \$1.00. Sold by North Platte Pharmacy.

The heroism of the man at Moberly, Mo., who recently rushed into a burning building and at the risk of his life rescued two bottles of beer is being heralded all over the country. The native Missourians with their innate modesty esteem all the honor by explaining that the hero was a sojourner from Kansas.

Than take in any other form is what many people think and Parks' Tea is stipulation and though not a cathartic moves the bowels every day. Sold by North Platte Pharmacy.

McKeighan is coming home to run for the United States senate. It is alleged that our Mr. Bryan is making himself so numerous as a fusion candidate lately that McKeighan feels very sore and is determined to capture the pensionism if he has to devote all his time to the canvass between this and winter after next. The early bird gets the worm.—Journal.

A Sound Liver Makes a Well Man. Are you Biliary, Constipated or troubled with Jaundice, Sick Headache, Bad Taste in Mouth, Foul Breath, Coated Tongue, Dyspepsia, Indigestion, Hot Dry Skin, Pain in Back and between the Shoulders, Chills and Fever, etc. If you have any of these symptoms, your Liver is out of order, and your blood is slowly being poisoned, because your Liver does not act properly. HENRICH'S will cure any disorder of the Liver, Stomach or Bowels. It has no equal as a liver medicine. Price 75 cents. Free trial bottles at A. F. Streitz.
