A Column of Local News.

—Mr. and Mrs. Harry Rice have returned from a brief visit with friends in Denver.

—Harry Langdon, employed in a drug store at Denver, has been visiting his parents in this city for a week past.

—Mr. Fodrea, state examiner of county treasurers, was in town Monday checking up Treasurer Buchanan's books.

—That boy baby at the home of W. J. Roche is just a week old today, and Mr. Roche has recovered his normal condition.

—The harvest home social given by the ladies of the Lutheran church at the Adams' residence Saturday evening was well patronized.

—Mrs. Rev. McDonald and Mrs. H. V. Hilliker, who had been visiting Omaha friends, returned home the latter part of the week.

—Bob Fulton writes that he considers Rawlins "the last place the Lord made," and has a longing desire to get back to North Platte.

—THE TRIBUNE starts in to-morrow on the work of printing the ballots for the coming election. The job requires about 300 pounds of paper.

—Captain Akers spoke at Gandy Thursday evening and at Garfield Friday evening. At both places he had large and appreciative audiences.

—W. H. C. Woodhurst was in Omaha the latter part of the week, going down principally for the purpose of hearing the Thurston-Bryan discussion.

—Matt Daugherty, who will undoubtedly represent this district in the next congress, will address the people of this city and vicinity on Saturday, November 3d.

—The oyster supper at the Episcopal guild house Thursday evening netted the guild about twenty dollars. The supper will be given monthly during the winter.

—In cases where dandruff, scalp diseases, falling and grayness of the hair appear, do not neglect them, but apply a proper remedy tonic like Hall's Hair Renewer.

—Our good democratic friend Dr. L. C. Lenon, of Wallace, whiffed away a half hour or so in this office Friday. He reports business in Wallace very quiet, with no assurance of a revival until a crop is raised.

—In many cases, the first work of Ayer's Sarsaparilla is to expel the effects of the other medicines that have been tried in vain. It would be a saving of time and money if experimenters took Ayer's Sarsaparilla at first instead of last.

Dr. S. C. Webb, Liberty, Miss., says: "I have been using Ayer's Pills for over twenty-five years, and recommend them in cases of chronic diarrhea, knowing their efficiency from personal experience, they having cured when every other medicine failed."

Why Was It

that Ayer's Sarsaparilla, out of the great number of similar preparations manufactured throughout the world, was the only medicine of the kind admitted at the World's Fair, Chicago? And why was it that, in spite of the united efforts of the manufacturers of other preparations, the decision of the World's Fair Directors was not reversed?

BECAUSE

According to RULE 15—"Articles that are in any way dangerous or offensive, also patent medicines, nostrums, and empirical preparations, whose ingredients are concealed, will not be admitted to the Exposition," and, therefore—

Because Ayer's Sarsaparilla is not a patent medicine, not a nostrum, and not a secret preparation.

Because its proprietors had nothing to conceal when questioned as to the formula from which it is compounded.

Because it is all that it is claimed to be—a Compound Concentrated Extract of Sarsaparilla, and in every sense, worthy the endorsement of this most important committee, called together for passing upon the manufactured products of the entire world.

COMPOSITION ON A BOY.

A boy is a man before he is grown up. But his pants only run down to his knees. A boy is a very useful article. His usefulness comes in when his big sister wants him to run an errand, but his principal usefulness is in wearing out clothes, especially pants. Some boys wear out one pair each season. Others wear out two every week. The cut below illustrates a happy boy. Why is he happy? Because his mother has bought from us

This outfit consists of a Double Breasted Coat, two (2) pairs of pants, and the latest style Stanley Cap of same material. (Extra buttons with every outfit.) The goods are of most excellent and stylish fabrics especially adapted for service, and we can sell you the whole outfit as cheap as you can buy the bare suit from other dealers. Buy our Stanley Combination for your boys and make them happy.

MODEL CLOTHING HOUSE

Max Einstein, Prop.

—NOTICE.—All members of the fire department are requested to attend the annual ball Wednesday evening, Oct. 31st, in full uniform.

H. O. EVANS, Chief.

—The presentation of "Gary Owen" at the opera house Friday evening by the Tony Farrell troupe was excellent and well pleased the audience, which was an unusually large one. The singing by the members of the company proved to be one of the features of the entertainment.

—Wm. Munson is soliciting orders for pastel portraits, a class of work that has given his patrons excellent satisfaction. These portraits, including a handsome frame, cost but five dollars. Portraits are always acceptable Christmas gifts, and if you wish one for this purpose leave your order with Mr. Munson.

—The republican meeting at the court house Saturday evening was well attended, every seat in the room being occupied and a number found it impossible to gain admission. H. M. Grimes opened the meeting with a thirty minute talk, in which he made a number of points in favor of protection to American manufactures and to American wage earners. He was followed by Capt. W. R. Akers, who spoke for an hour and a quarter on the tariff, monetary and irrigation subjects. His speech was a forcible one, the subjects being handled in a clear and practical manner. The audience received much information on these three subjects, and especially in regard to irrigation, and were anxious that the Captain talk longer, but he had already exceeded his time by fifteen minutes and closed his remarks amid enthusiasm.

North Platte will give Captain Akers a very heavy vote, for the people recognize in him a level-headed and practical man—a man devoid of the buncombe and vagaries possessed by his opponent, C. D. Shrader.

Resolutions of Respect.

At a recent meeting of Two Rivers Lodge No. 75, D. of H., the following resolutions were unanimously adopted:

WHEREAS, It has pleased the Almighty Father to remove by death from our midst our worthy brother Henry Clark.

Resolved, That in the death of Brother Clark Two Rivers Lodge No. 75, D. of H., loses one of her most respected brothers.

Resolved, That this Lodge extend to the family of Brother Clark our sympathy. That a copy of these resolutions be spread on the records, also a copy be sent to the Workman and each of the local papers for publication and a copy be furnished to the wife and family.

Millinery Sale at Rennie's.

Nichol Nuggets.

Bad colds are quite prevalent at present.

Mrs. J. G. Feeken is entertaining a sister who resides in the east.

Miss Mattie Ball left Thursday evening for a visit with a sick sister in Iowa.

The dam of the old ditch company gave way a few days ago, and was the means of supplying the country with plenty moisture for a time.

Archie Strickler, of Hershey, has been suffering for some time from a bad and painful abscess on his back, but is now receiving relief from the skillful treatment of Dr. Somers, of North Platte.

At this writing eight cars are standing on the spur at this station ready to be loaded with baled hay.

Prospects for another wedding in this neighborhood are excellent at present.

Will Brooks and Dug Brown left Saturday by team for Sidney. They are expected home the last of this week.

We were informed by a ditch farmer a few days ago that, in his opinion, potatoes throughout the valley would not average more than half a crop.

Mr. Davis, father of Mrs. Mary Spurrer, has returned from an extended visit with relatives in the east.

The potato harvest will be about completed this week.

Wm. Porter, the teacher in the Sisson district, is erecting a new stable and building a frame addition to his home in Hershey.

Fall grain where the ground was irrigated previous to and since it was sown is looking fairly well.

The highways are lined with teams hauling potatoes out of the valley to various sections of the country for home use.

We understand that Agent Smith of Hershey is taking a lay off at present.

W. K. Miner, a merchant at Belvidere, and who has been running a branch store at Hershey the past summer, has closed out his business at the former place and shipped his goods to the latter place where he now has a large stock on hand. He has also moved his family to Hershey.

J. G. Beeler, the pop candidate for county attorney, and T. Fulton Gant expounded populist doctrine to a small audience at Hershey on Thursday evening of last week and as usual made more votes for A. H. Church, the republican candidate for the same office.

Ditch Supt. Seiberger and wife were calling in this part of the county recently.

On Wednesday evening last, the evening previous to Mattie Ball's departure for Iowa, several of her friends called upon her, where the time was spent in various games and the partaking of refreshments furnished by the guests.

Don't forget that Capt. Akers, the republican candidate for senator in this district, and A. H. Church, republican candidate for county attorney, and numerous other noted speakers will hold forth at the hall in Hershey on next Saturday evening, Oct. 27th. Everybody turn out and have a pleasant time. Saturday night, this week, at 7:30 western time.

There will be but very few if any spuds shipped out of the valley this season. Home consumption will take them all.

Rev. Nichols, formerly of Brady Island, passed up the grade recently with his family, house-hold goods etc., on his way to his new home at Paxton where he will preach to the people for the coming year at least.

The old ditch company is repairing its dam this week.

W. K. Miner of Hershey is putting in a set of scales near his store.

Rev. C. Jones, of North Platte is trying to raise money to erect a church at Hershey.

The revival meetings which have been in progress at this place for the past two weeks closed Sunday evening. They were a grand success in every sense of the word. A deep interest was manifested from the first to the last and many converts were made. Large audiences greeted the different ministers and others who participated on every occasion. On Sunday a class of thirty-three was organized with J. W. Liles as leader. Great credit is due W. J. Cruzen, who had charge of the meetings, for his untiring work which was the cause of the success and the bringing of many souls to salvation.

At the wreck near Hershey on Thursday last week, we are told by good authority that four car loads of coal and five car loads of sheep, doubled decked, were ditched. No one was hurt, but fifty-one sheep were smothered to death. One car was so badly smashed up that it was burned as it lay upon the ground. The balance of the sheep were turned over to the U. P. and were taken care of until Saturday, when the main line adjustor and Charlie Burke of the Platte came up and loaded them and sent them on to Omaha. It was a narrow escape and might have been far more disastrous. Engineer Fenwick and Conductor Briggs had charge of the train. PAT.

Spannuth Shavings—Wood haulers pass down our valley every day.

Fine weather this and the carpenters are fast completing our school house.

T. C. Elder and Mr. Miller were after wood Wednesday and Thursday.

Mr. Loostrom's family visited Rev. Gustason's Friday and Mr. L. had his carpenter work inspected by his better half.

The valley is lonely since the boys went away. "Wonder if they'll ever return" is the expression of the belles of the valley.

Wesley Lewis visited Mr. Loostrom's Saturday evening and Sunday.

Ben Dean dropped in on us. Quite a surprise, Ben, but you did not stay long enough.

Miss Elder will soon move her flock back to the school house in district 32.

Ben Dean left for Grand Island Friday morning to enter school again. There is room at the top Ben.

The children eye the new school house with a certain degree of covetousness and wonder why it takes so long to get it done.

Our boys have not forgot to play base ball yet, as frequently on Saturday afternoons they can be seen "fanning" their opponents.

Mr. Swedeland took in Gothenburg this week, but has been on the sick list a day or two since. Mr. Isaacson has also been sick but is better now.

Miss Olive Retenour has been confined to the house so as to be unable to attend school. VERE.

PRODUCTION AND EXPORTS.

According to the statistical abstract of the United States treasury 37.20 per cent of all the wheat grown in this country or imported to it was exported during the year 1893. We imported 968,125 bushels of wheat and reshipped 572,750 bushels, retaining for home use 295,375 bushels of foreign grain. We produced 515,949,000 bushels and exported 119,912,635 bushels.

Of corn less than 3 per cent was exported, the home crop being 1-

628,464,000 bushels; exports, 47-121,894 bushels.

The oat crop is estimated in the United States abstract at 638,854,850 bushels. The exports are not recorded, but the report of the bureau of commerce and navigation fixes them at 2,380,643 bushels.

The exports of fresh beef amounted to 206,284,724 pounds in 1893, and of salted and dried beef to 58,423,963 pounds. There is no official record of the production of beef for 1893, or indeed since the last census.

There is no official record of the number of pounds of pork for 1893 but the exports are stated as 391,758,175 pounds of "hog products," 82,118,154 pounds of hams, 912,644 pounds of fresh pork, and 52,459,722 pounds of pickled pork. The classification is vague, but it is that of the report of the bureau of commerce and navigation.

We exported 8,940,107 pounds of butter in 1893; the quantity produced is not given, but it is probable that the percentage of export is very trifling.

No account is at hand of the quantity of cheese produced. The exports were 81,350,923 pounds.

Estimates of the production of beef, pork, butter, and cheese best can be obtained from the pages of trade journals, but even these are but plausible guesses. Inter Ocean.

The republican ticket grows in confidence and favor. It includes no man unworthy the support of republican voters or who will suffer by claim with his opponent. We do not claim for our nominees perfection, or that they are the "Lord's chosen few." All such people have finished their earthly pilgrimage and heaven is their home. We do claim that the republican ticket is an exceptionally strong ticket and worthy of solid support.—Beatrice Express.

ALWAYS A REASON WHY.

This has been a year of wonderful growth for The Lincoln State Journal. Its aggressive methods have pushed it to the front. One thing that accounts for this is The Journal's principles. It is republican, true and blue, but first of all it is a great newspaper and considers news the most essential feature. It prints more state telegraph news than either of the Omaha papers. The business interests of the state recognize in The Journal the only state paper which is standing up for the welfare of Nebraska. You can see how The Journal is growing in your own town. It is gaining in every other town in the state just as much. The reduced price is only 50 cents per month without Sunday, or 65 cents per month with Sunday. This also accounts for the big growth. The Semi-Weekly Journal has the largest circulation of any Nebraska paper. It has completely routed its old-fashioned once-a-week rivals. It is being sent from now until January 1st, 1896, for \$1.00. This carries readers through the coming legislature and through the next presidential campaign. It gives readers two complete papers each week for the price of one. Gov. Furnas is farm editor, and I. L. Lyman, poultry editor. It is published at the state capital and is a paper for Nebraskans.

Richard Smith, the Philadelphia type-founder, who died recently in Paris, left \$500,000 for the erection of an elaborate monumental memorial, ornamented with statues of distinguished Pennsylvanians who took active part in the civil war. This memorial is to take the form of granite arches, one to be used as a driveway and two others as footways, in accordance with plans already prepared and approved by the testator.
