In France the numbers approach more nearly to equality than in any other country, there being 1007 women for 1000 men. > The great wealth, either of the Mor mon church or of the individuals at its head, has been again demonstrated by the recent investment of \$10,000,000 by the "first presidency" in a new corporation called the Utah Company. This new company is to operate coal mines, a railroad, a bathing beach and pleasure resort at the Great Salt Lake and build, equip and operate telegraph and telephone lines. This is purely a church scheme in which gentiles have no part, and is, like the Zion Co-operative Company, to be managed to add to the wealth of the church.

> The democratic organs of Missouri and Arkansas are bright and early in the field after the late catastrophe to exhort what is left of democracy that the only salvation for them in 1896 is to "nominate a western man for president.' Certainly, certainly. And Adlai, he is the man. Let no western democrat forget Adlai for a minute. He was specially constructed for the Moses of this emergency when the world was young. Adlai of all other men is the man for the emergency. No other western democrat in the world would make so pretty grease spot on the wall .- Journal .

The coruption of the pops is simply stupendous. In some western precincts they went in force to the polls in the morning and ejected the one or two republican members of the election board and usurped the position without even being sworn in. They stole the returns from whole townships that were supman and Wagner sleeping cars, elegant posed to give large republican majorities and threw out republican votes on the merest technicalities. Such vicious performances ought to be rebuked. They certainly should not be allowed to get office and plunder by such means. The honesty and intelligence of the people of Nebraska revolts against such methods. -York Times.
