Judge Neville held court in
Keith county a couple of days this
week.

The Methodist relief store has
been moved to the Hershey building
on Spruce street.

With but little care and no trouble,
the beard and moustache can be
kept a uniform brown or black color
by using Buckingham's Dye for the
Whiskers.

District court will convene on
Monday next, and as there are
about 175 cases on the docket it will
probably be in session at least two
weeks. The first week will be de-
voted to hearing jury cases.

W. A. Penn, dentist, will be at
his office in this city February 7th
and 8th.

The contract for printing the
revised city ordinances in pamphlet
form has been awarded the Tele-
graph. That paper's bid was the
highest, but the council thought the
contract it had with the city entitled
it to the work.

J. G. Crabtree, of Myrtle, called
at this office Wednesday and had his
name placed on our subscription
list. He was in our city for the pur-
pose of ascertaining if he could rent
a farm upon an irrigation canal.

Unlike most proprietary medi-
cines, the formula of Dr. J. C. Ayer's
Sarsaparilla and other preparations
are cheerfully sent to any physician
who applies for them. Hence the
special favor accorded these well-
known standard remedies by the
World's Fair commissioners.

Inquiries regarding the irrigat-
ed lands of Lincoln county are in-
creasing daily, and considerable ac-
tivity is noticeable at the office of
the Immigration Association. Henry
Nesbitt is at present acting in
the capacity of corresponding sec-
retary for the Association.

Here, says an exchange, is
something that is worth five dollars
to every farmer in the land to know:
Sprinkle a little stone lime in your
stock tank and not a particle of
scum will form on the water. When
the lime loses its strength and scum
begins to form, which may be-
come during the season, wash out
the tank and repeat the dose. It is cheap
not harmless, but wholesome, keeps
the water clean, and saves work.

If people would purchase green
coffee and brown it in their houses,
there would be fewer cases of dip-
theria, scarlet and typhoid fever.
The aroma arising from the brown-
ing berry is one of the best agents
in disinfecting dwellings of impure
air. It is easier to buy coffee al-
ready browned than to prepare it,
but in the preparation once a week
saves health and doctor bills. The
doors should be left open, and let the
aroma pervade every room.—Ex.

MINOR MENTION.

Several of the friends of Mrs.
W. H. Broach assembled at the fam-
ily residence and gave her a charm-
ing surprise Tuesday evening, it
being her birthday anniversary.

Arthur Connors is having the
city carpenters figure on a house
which he expects to have erected
in the spring upon a tract of land
which he owns in Mylander precinct.

The Masonic fraternity gave a
social at the hall last night, the
guests being the children of the
members of the order. It is said
the young people had a gay time
and plenty to eat.

It is not considered proper to
chew gum while on the stage taking
part in an entertainment. This in-
formation is given for the benefit of
two or three young men who pur-
sued the habit vigorously Tuesday
evening.

C. E. Osgood was in Lincoln a
few days ago for the purpose of see-
ing what could be done in regard to
the sale of the South Side precinct
irrigation bonds. It is said that he
found the demand for this class of
securities rather light.

Josh Iseman, who has charge
of Buchanan's abstract office thinks
the little squib in Tuesday's issue
was a reflection on his integrity.
In this Joshua errs, for THE TRIB-
UNE believes he is all right in his
work, and had no desire to insinuate
anything against his rectitude.

Dentist Penn, who has his of-
fice with Dr. Eves, will be in the
city Feb. 7th and 8th. All work
guaranteed.

In a letter to Rev. Foulk, Rev.
Adam Stump, formerly pastor of
the Lutheran church of this city,
but now located at York, Pa., states
that his congregation will if desired,
send a car load of seed wheat, corn
and potatoes to the people of this
county.

Few consumptives believe they
are in danger till medicine is of lit-
tle avail. Ayer's Cherry Pectoral
taken in the early stages, has pre-
vented further progress of the dis-
ease and saved many a life. At any
stage of phthisis, Ayer's Cherry
Pectoral affords great relief.

Word was received in the city
yesterday stating that during a
cyclone in Texas Friday the house
of J. Q. Thacker, formerly of this
city, was entirely destroyed, but for-
tunately the members were unin-
jured. We regret to learn of the ill
luck in which our old friend has
been playing for some time past.

John Meyer, of Vroman pre-
cinct, who is suffering from mental
derangement, was brought to the city
Tuesday and was given an exami-
nation by the insanity board. His
hearing was bad Wednesday and
he was adjudged insane and will be
sent to Norfolk as soon as permis-
sion is obtained from the hospital
authorities.

Photographer Broach is now tak-
ing photographs for the views which
are to appear in the illustrated
pamphlet to be issued by the Immi-
gration Association. The pamph-
let will include views of the railroad
shops, Spruce street, and several
business blocks and private resi-
dences in addition to the several
irrigation ditches. The books will
be ready for distribution in about a
month.

Up to Wednesday 460 families
in the county had received more or
less aid from the several depots in
this city. A number of these were
not really entitled to aid—that is
they are so situated as to be able to
help themselves, but because the
aid goods were on hand, embraced
the opportunity to get a supply.
The managers of the depots, how-
ever, are getting on to those fellows
and hereafter they will not be given
anything. There are needy families
who have not yet applied for help,
their high spirit being such as to
not permit them to be considered
objects of charity. These cases are
being hunted up and the necessary
help extended them.

—Valentines at Newton's.

—Will Briggs, who went to Den-
ver about sixty days ago, has al-
ready been given a regular crew on
the Gulf system.

—J. E. Evans of Lincoln is keep-
ing this office well supplied with
state and legislative documents, a
favor that is duly appreciated.

—Several extra firemen were
chopped off yesterday and one
hostler was put back to firing.
Business on the road hardly jus-
tifies an extra list.

—John Holman writes from Cin-
cinnati that the cancer has been en-
tirely removed from his lip, and the
wound is healing. He will not,
however, be home for ten days or so.

—"Coin's Financial School" is for
sale at the Book store; price 25 cts.
—M. C. Harrington informs us
that there is much inquiry for al-
falfa seed, which is an indication
that this forage plant will be raised
quite extensively the coming sea-
son.

—Five barrels of clothing from
Sing Sing, N. Y., and consigned to
Rev. McDonald came in by express
yesterday morning. They were
not the fashionable stripes of that
locality.

—N. S. Harding, of Nebraska
City, special agent of the Sprin-
field Insurance Co., was in town
yesterday adjusting the loss on the
barn of D. A. Baker, which was
burned a week ago.

—A letter received at this office
from E. F. Rideout, of Columbus,
Ind., conveys the information that
the people of that city will ship a
car of relief goods to North Platte
in a few days.

—All accounts due H. Otten &
Co. are payable at Otten's Shoe
Store. The firm having dissolved,
a settlement is urgently requested,
that books may be balanced.

—At the request of the coal
dealers, Observer Piercy gave us a
touch of winter weather yesterday.
The light fall of snow was only a
forerunner of what is to come dur-
ing the present month.

—The nicest line of valentines
ever shown in North Platte can be
seen at C. M. Newton's book store.

—Rev. McDonald's subject next
Sunday evening will be "The Re-
formation in England, the Council
of Trent, the Roman Schism, and the
Episcopal church just like the Cath-
olic?" In the morning the third an-
nual sermon will be delivered.

—To-morrow is "ground-hog
day," and according to tradition if
the animal comes out of his winter
quarters and sees his shadow he
will retire for a period of six weeks
in order to escape the severe weather
which will follow. If he fails to
cast a shadow, the back-bone of
winter is supposed to be broken.
This journal does not take much
stock in this ground-hog tale.

—Shoes at half price. A large
assortment of good goods. Buy
them quick and save half your
money. OTTEN'S SHOE STORE.

—Ex-county commissioner Baka-
well, of Logan county, got in a snap
the other morning. After building
a fire in the stove he noticed smoke
pouring from the roof of his house.
Hurriedly calling his children to
climb upon the roof, knock a hole
therein and pour on water, he tried
to climb into the attic through a
small trap-door. He got his head
and shoulders through, and there he
stuck, while the children, who had
cut a hole in the roof directly over
him, were pouring the water down
upon him at a furious rate. It was
some time before he could make
them understand that he was being
drenched with ice cold water. In-
vestigation developed that the
smoke came from a disjointed stove-
pipe. The boys are having consid-
erable fun at Bakewell's expense.

—The Kirmess given at the opera
house on Tuesday evening by the
ladies of the Episcopal church and
under the directions of H. S. Stiff,
proved a very pretty entertainment.
The dozen dances were excellently
executed by those taking part; in
fact it was a source of surprise that
the younger ones could be taught
so perfectly in the short time which
was allotted to practice. The
changes in some of the dances were
difficult, yet they were executed
gracefully and with precision, thus
giving evidence of Mr. Stiff's abili-
ty as an instructor. The costumes
worn were attractive and especially
was this true of the Colonial
Minuet and the Spanish dance.
Without making special mention of
any particular one, it is but justice
to say that all did creditably, not
a single mistake being made in the
entire programme. The attend-
ance was not as large as the merits
of the entertainment demanded, the
net receipts being about \$65. At
the conclusion of the programme
the floor was cleared and many
present accepted the invitation to re-
main and dance until twelve o'clock.
The music for the evening was
furnished by Klein's orchestra of
five pieces.

city and will continue to give in-
structions in dancing. He may de-
cide to give select dancing parties

to-morrow afternoon.

bers will give a free entertainment
consisting of vocal and instrumen-
tal music. The Association quar-
terette are doing great work and have
some fine music. E. R. Chap-
man will lead the meeting next Sun-
day. Subject—"Christ a working
man." Good music. All men are
welcome. H. E. H.

—The form which the applicant
for relief from the state commission
is requested to fill out and sign
would seem to be a pretty effectual
safeguard against the danger of
furnishing relief to unworthy ap-
licants. The applicant is re-
quested to state the number in his
family, what personal property he
owns, specifying the number of cat-
tle, horses, mules and hogs; the
number of acres of grain he had in
1894, specifying the corn, wheat,
oats and barley as well as the pota-
toes; the number of bushels of each
raised and the amount now on
hand. He must make oath that he
is, and has been for six months
prior to January 1, 1895, a resident
of the county wherein the applica-
tion is made, that he is without
money or other means of securing
the articles applied for, and that if
seed is furnished him he will stay
in the county, sow the seed and use
every endeavor to raise a crop. In
addition to this the blank provides
for the oath of two freeholders of the
county that they have known the
applicant for the period of six
months previous to Jan'y 1st, 1895,
and that he has been a bona fide
resident of the county for that time.
The applicant must also receipt for
all goods he gets and the receipt is
forwarded to the state relief com-
mission.

and H. D. Rhea attended district
court at Ogallala this week.

—Ted McEvoy, of Keith county,
and Cy Fox, of Garfield, are among
the visitors in town to-day.

places registered fourteen degrees
below zero at 7 o'clock this morning.

—THE TRIBUNE is informed that
the Presbyterian people will hold a
social at the Birge residence Thurs-
day evening next.

—A private masquerade ball will
be held at the Opera house this Fri-
day evening. It is likely genuine
fun will run riot.

—"Buck" Rowland will put in
something less than a thousand
acres of garden truck under the ir-
rigation ditch south of town, this
season.

—The ill-fated "Elbe" which went
down at sea a few days ago is the
vessel upon which Henry, Maggie
and Bertha Lentz came to the United
States.

—E. F. Seeberger has recently
formulated a platform for the popu-
list party of Lincoln county which,
in his opinion, will sweep things.
Brethren of the populist faith are
earnestly invited to call and inter-
view Mr. Seeberger.

—Geo. R. Hammond has been at
Siloam Springs, Ark., for a week or
so, and writes that if he had his
wife and horses there he might con-
clude to locate; in other words he is
well pleased with that section. He
reports R. F. Forrest, who is located
there, as doing an extensive law
business.

—Engineer Wm. Crusen, whom
Rev. D. W. Crane had expected to
assist in the revival meetings, has
been kept at home on account of
sickness in his family. However,
he may yet be able to be present at
the close of the meetings, and give
us some rousing exhortations, for
which he is noted along the line of
the U. P.—Ogallala News.

—A meeting was held at the
court house Wednesday evening for
the purpose of appointing a county
central relief committee to receive
and distribute through precinct
committees the relief to be fur-
nished by the state. The commit-

—Mr. Stiff announces the re-
organization of his dancing classes,
commencing to-morrow afternoon.
The children's class will be held
from 2 to 4 and private lessons for
ladies and gentlemen will be given
by appointment both afternoons and
evenings. Rates and dates made
known upon application to Mr.
Stiff at the Hotel Neville. A series
of select dancing parties will be
given at Lloyd's, commencing next
Friday evening, at which instruc-
tion will be given in the later so-
ciety dances in connection with a reg-
ular dancing programme.

—The people of Cozad are wide
awake on the irrigation question,
having finally completed plans thro'
the Cozad Irrigation company for a
canal with forty miles of ditch, in-
cluding two main laterals having a
capacity of 40,000 acres. This pro-
ject is a sure "go" work having been
already commenced upon the canal.
The Cozad enterprise virtually com-
pletes a chain of irrigation canals
of more than 100 miles Center town-
ship east of Kearney extending
some distance west of North Platte
and Sidney. This rate of progress
is most encouraging, and the effect
can hardly be prophesied by the
most sanguine.—Kearney Hub.

—The world has a tremendous sur-
plus of wheat, but it will be a long
time before it has more sugar than
it cares to consume. Sugar is the
thing for Nebraskans to pin their
faith to from this time until they
have overtaken the national demand
for the product.—Journal.

—The snowfall on the western half
of the continent has been heavier
this winter than for several years
past. The drought is broken thor-
oughly even in northern Mexico and
southwestern Texas, where it some-
times reigns for more than a year.
All the mountains are full of snow,
and the whole region will be run-
ning over with water when the sum-
mer comes. Plenty of snow means
copious spring and summer rains
all over the western plains.

The Irrigated District of the Platte
Valley, Lincoln County, Nebraska.

The officers of the Immigration
Association are looking for a suit-
able and catchy title for the illu-
strated book, descriptive of the ir-
rigated district. It should not contain
more words than the above heading.
Suggestions will be gladly accepted.

secretary's office with your idea.

—A Kansas legislator offered a
concurrent resolution the other day
demanding that the federal govern-
ment be put in the hands of a re-
ceiver and that Tom Reed be ap-
pointed such receiver. This is a
good proposition, says an exchange,
and it is to be hoped that congress
will lend ear to it and act promptly
in the premises.

THE FAIR.

SHERMAN says that the trouble
with Carlisle is that "his way of
meeting a dilemma is to argue it
out whereas in many cases, and
indeed most cases, in the treasury
department, an executive act is re-
quired without a word of explana-
tion." This is only another way
of saying that he wavers and wob-
bles, and should make prompt
decisions and stick to them.

CLEVELAND has several
times lately observed that he
was not afraid or ashamed to ask
counsel of republican statesmen.
He will find the next congress both
willing and anxious to make the
closing year of his administration
a grand success. The sooner he
gets the idea that he is the presi-
dent of the whole people of the na-
tion the better.
