—John Robinson came over from Oshkosh Monday after supplies for the Oshkosh ranch. John says a few weeks more will complete their irrigation canal and that by the last of April they will have their land flooded with water. This ditch is one of the most important in the county.—Chappell Register.

The Fremont Herald thus pokes fun at the gentlemanly fellows who wear the "brass clothes and blue buttons": "The Union Pacific conductors are keeping a sharp lookout for spotters these days. A man has to make a 'flash' if he rides on a Union Pacific train these days. A few days ago one of the passenger conductors discovered when he got to Gilmore that he had his wife's photo in his pocket. He paid fare from Omaha to Gilmore and left the photo with the agent at that place."

John Ericsson and Fred Ginapp were North Platte visitors Tuesday.

J. H. Giffin started last Wednesday for California where he will view the sights for a month or so.

Morris VanTyle left Wednesday for Gothenburg, where he has secured a position in a furniture store. His many friends here mourn his departure—especially some of the young ladies.

The high wind Wednesday blew the snow off the river so skating is again indulged in these moonlight nights.

Rev. Ebersole has engaged to teach the spring term of the De Wolf school.

N. P. Solomon was at the county hub last Friday.

During the high wind on Wednesday V. V. Ritenour climbed upon his windmill tower to repair the wheel, when in some way he fell to the ground, breaking his leg. It has only been a short time since his daughter had a limb broken by being kicked by a horse.

Laurie Mullens, section foreman, was laid off Monday. A Mr. Watson has taken his place.

The dance held at the Globe hotel Friday night was not very largely attended, owing to hard times.

Rev. Matthews, of Lincoln will expound the gospel at the M. E. church next Sunday.

Protracted meetings begin next Sunday, and many are expected to turn from their sinful ways.

A trio of bums struck this place Saturday; during the day they went around taking up contributions of cold hash, but as the shades of darkness settled over our peaceful village they changed their tactics by entering the house of R. C. Burke and purloining some blankets and a suit of clothes. Shortly after a freight came along and they took passage in a "side door sleeper" for parts unknown. The theft was not discovered in time to intercept them.

—Manager Lloyd has booked the Jarbo Dramatic Co. for the evening of the 28th inst. The company will present "Starlight."

—W. A. Penn, dentist, will be in Dr. Eves' office Friday, Feb'y 15th, and will do all kinds of dental work. Prices very low.

—The dancing party at Lloyd's Friday night was not so well attended as it should have been, but those present speak in glowing terms of their enjoyment.

—There was a pleasant dancing party Friday night at the home of Wm. Chambers, over on the north side of the river. About forty guests were present, and all report a very enjoyable time.

—Last Saturday the county treasurer paid over to the treasurer of this school district \$2,000.00. This amount with the funds available that are in the North Platte National bank, would put the district in pretty good shape.

—Among the heavy amounts of taxes recently paid into the county treasury we note the U. P. R'y Co. with \$27,151, the B. & M. R'y Co. with \$8,132, the American Waterworks Co. with \$494, the W. U. Tel. Co. with \$287.

—The nicest line of valentines ever shown in North Platte can be seen at C. M. Newton's book store.

—"Buck" Sawyer picked up a fellow over at the round house Saturday who was offering to sell a couple of pairs of new pantaloons, the sizes and price marks of which had been removed. It is thought they have been stolen and the would-be salesman is being held at Hotel Miller for investigation.

"Buck" is waking up to his duties as an officer, and his night partner will have to look to his laurels, or he will get sadly left.

—As it is a rather serious thing in these economical democratic times to charge a man with being the father of twins, THE TRIBUNE must acknowledge that it was misinformed in regard to Frank Frederici being guilty of the above offense against the peace and dignity of the community. His transgression was only to the extent of one boy baby of standard specifications and details.

—W. A. Penn, dentist, will extract teeth without pain Friday, Feb'y 15th, at Dr. Eves' office.

—It is said that the "tiger" nightly grows in this city, and that last week a party who was in attendance at court got into a little game of "draw" and in a very short time was able to draw out with more than his hotel expenses and something on the side. North Platte sports (?) are not always successful in getting the best of Uncle Jay when he comes to town.

—Tim Keliher probably has the neatest paper weight in the city. It is made of glass and has his name, residence and occupation blown in blue letters upon the inside. Its weight is about two pounds, came from Marion, Ind., and is presumably a gift from Dennis O'Keefe.

—The class of '95 held its ninth meeting last night at the home of Miss Minnie Sorenson. The programme consisted of recitations, the reciter of the most comical one receiving a prize, who was Miss Jessie Bratt. Miss Eva Fenwick won the prize in the game "Transposition." —Overshoes good and cheap at Otten's Shoe Store.

—Secretary Ward of the Grand Rapids (Mich.) Y. M. C. CLINTON, THE JEWELER.

THE LEHI BEET SUGAR FACTORY.

In a conversation with W. H. McDonald, who has just returned from a trip of inspection to the Lehi, Utah, sugar factory our reporter elicited the following as the result of his tour. The factory at present is not in operation, having completed its run for the year. In company with David and C. L. Patterson, Mr. McDonald was shown entirely through the plant, and its workings explained. It has a capacity of 350 tons daily, and was put in by a California company who builds and furnishes machinery for sugar factories, and will guarantee to furnish men who will successfully and profitably operate them; provided, of course, if sufficient beets are afforded them. The Lehi people would not recommend North Platte to build a smaller factory than they have, and only wish their's had a greater capacity. The manager there states that he has the finest beet sugar plant of its size in the world, and he claims to have seen all of them. The machinery is said to be much simpler than the German manufacture used by the Oxnards, and is said to do its work more economically and satisfactorily.

The beet growers there are well satisfied with the price of \$4 per ton for their product, and are now said to have their lands in excellent shape for the growing of beets. Although they appear to have some natural advantages, yet to a great extent the same conditions appear to obtain in this vicinity.

Another point that seemed to be necessary was that the company operating the plant must have a good working capital, outside the cost of its plant, or the sugar trust would fasten its tentacles upon the concern. In evidence of this the above octopus had a couple of representatives who visited the factory the day Messrs. McDonald and Patterson left. It is thought the reason of the former's visit was because the Lehi factory had 1,500,000 pounds of sugar ready to put upon the market, which it was holding for a satisfactory price.

So far as the condition of the agricultural class out in that country, it is said the beet growers of that locality are like the ditch farmers of Lincoln county—they are the only ones who have odd dollars in their pockets to clink one against the other. They are well satisfied with their efforts to obtain a beet sugar factory, and are well satisfied with its workings; their only regret being that it is not a larger concern. Now the matter is before North Platte people, will they seize their opportunity and secure a profitable enterprise?
