STRIKERS SURRENDER.

Brooklyn Street Car Employes Finally Starved Into Submission.

LASTED THIRTY-FOUR DAYS.

Fight of Empty Stomachs Against Capital Results In Victory For the Latter-Strikers Issue an Address to the Public. Cost, \$3,000,000.

BROOKLYN, Feb. 18 .- In calling off the strike of the Brooklyn Heights and the Brooklyn, Queen's County and Su-

"To the public: Acting in behalf of their employes, we presented to the on their roads for the year 1895. Subsequently these requests, which were never other than of the most reasonable nature, were modified so as to leave the companies no excuse for a failure to come to an agreement with their employes. We have exhausted every honorable means to effect a friendly settlement, but the trolley officials assumed a most uncompromsing attitude and refused to make a single concession in response to our reasonable requests.

"They went further and so far from improving the conditions of their emprotest in 1894 and in previous years. then there has not been a day on which the men have not been willing to go more than half way in an endeavor to adjust a difficulty that entailed hardships on the employes as well as incalculable loss and inconvenience to the public. The companies have not had the same consideration for the public; the same spirit of compromise. They started out to starve their employes into submission and they have finally succeeded. It has been a fight of dollars against empty stomachs and as was to have been expected the dollars have won a victory, heroic resistance have at last submitted to the inevitable. The civic, military, and in some instances the judicial powrs, have all been used to coerce them.

"We desire to return our most sincere thanks to the organizations and individuals who have in any way aided our people during the strike and hope our sympathizers may never feel the power of corporate oppression. Many of our people still need assistance to keep the wolf of hunger from their doors. A little from the many will suffice, and any citizen, society or newspaper that will help our men in this respect will receive the best thanks of all, with the hope that the time will yet come when equal rights will be accorded to all, special privileges to none, and that all will stand equal before the law."

This action on the part of district assembly No. 75 will permit the strikers of 33 roads to return to work, or at least apply to be taken back. The strike against President Norton of the Atlantic avenue line is still on.

The strike, which has lasted 34 days, has cost an enormous amount of money. Three million bollars is considered by those involved a moderate estimate. When the strike started it was stated that District Assembly No. 75 had from \$69,000 to \$80,000 in its treasurer. About \$65,000 was subscribed by sympathizers.

All this has been spent and the \$350,-000 wages the men would have earned has been lost. The Brooklyn Heights company was the heaviest loser among Alix, 2:0334, the world's champion trot- in driving an air course when they the roads. It is estimated to have lost directly \$600,000. The other systems have lost \$300,000. The cost to the city and state troops is expected to exceed \$250,000. The damage done by cars manned by inexperienced men is placed at \$100,000 more, and the loss in earning capacity by the militia during their stay in Brooklyn is conservatively estimated at \$250,000. There were many other losses to swell the amount in addition to the inconvenience and suffering caused by the big strike.

Last Act of Wyoming Legislature. CHEYENNE, Wy., Feb. 18.-Just before the legislature adjourned sine die at 5 o'clock Sunday morning a resolution was introduced and unanimously adopted instructing the attorney general of Wyoming to at once begin proceedings against the bondsmen of Otto Gramm, ex-state treasurer, and the assignee of the T. A. Kent bank of Cheysignee of the T. A. Kent bank of Chevenne to recover \$56,000 of state funds which the treasurer lost on account of the failure of the bank in July, 1893. Mr. Gramm failed to reimburse the state when he turned over the office to his successor on Jan. 7 of this year.

French Protectionists and American Mest. PARIS, Feb. 18.-The Republique Français, the organ of M. Melin, leader to the efforts to facilitate the entry of American meats into France, urges that | election to be held Feb. 27, 1895. immediate steps be taken to prevent the importation of American dead cattle.

Hill Divorce Case, GUIHRIE, Feb. 18.-Famous divorce case of Mrs. Dora Hill vs. John T. Hill, sessed value of the personal estate is allotting agent of the Shawnee Indians, placed at \$4,537,000. was decided in the district court. The plaintiff gets \$500 alimony in addition to that already paid.

Would Restore the Will. SAN FRANCISCO, Feb. 18.-Charles Fair received an anonymous letter offering to restore his father's will for \$15,000.

King of Spain Recovers. MADRID, Feb. 18 .- The king has recovered from his recent illness.

> BICYCLISTS MEET IN NEW YORK Annual Convention of the League of Amer

ican Wheelmen. NEW YORK, Feb. 18 .- The annual convention of the League of American Wheelmen began at the Grand Union hotel in this city, with an attendance of bicyclists from all the states from Maine to California. The object of the convention is to discuss several important changes in the laws of the league and the selection of a place for the next annual meeting. It is probable that the question of whether or not the color line will be drawn in the league will come up during the present session and there is also likely to be a fight as to where the next meeting of the league is to be held. There are two parties, the Boston and Asbury Park, and both maintain that it would be best for the league to hold its meet on their respective

The undertaker hurried home and informed the small band of mourners of the situation.-Norristown Special in Philadelphia Press.

INVENTORS BARRED OUT.

Only Flying Machines That Have Been Perfeeted Will Be Patented.

time in regard to new inventions which are coming out for the purpose of enabling a man to fly, either from efforts of his own or through the intervention of steam engines or other motors. It is interesting to note the attitude which the United States patent office has taken in regard to such inventions. They practically destroy all claims for flying machines beforehand, and the following is an abstract from what is practically a circular letter sent out to all attorneys who have made application for flying machine patents. It reads as follows:

"On taking up this case for examination it is found that the invention disclosed thereby is, as a whole, incapable ail for fraudulent banking.

Students Promise to Be Good.

CEDAR RAPIDS, Feb. 18.—Those stu
Upton. There are also present a sumthe device will be incapable of ascension. In other words, it is not useful

"No evidence will be consid-red sufficient to demonstrate the operativeness of the device and warrant the withdrawal of the objection made by the office except a working model-that is, one with which it is possible to actually ascend and direct the course of flight at

Thus it is practically useless for any inventor to make an application for a patent until he has actually succeeded in flying. It it barely possible that such a stand as this in regard to certain inventions would not be amiss, as there are more impracticable ideas patented than the world at large have any idea of. While it may be considered as a hardship by flying machine inventors that they are debarred from the protection of the patent office, yet until they have actually produced something which will accomplish the results claimed they certainly have no right to overlap the claim of protection on the patent office. —Aeronautics.

One of the Entombed Miners Elected. Tom Picton was buried hundreds of feet in the ground in the Gaylord mine, and he was on the ticket for school director. Knowing almost to a certainty that there was no chance of his being found alive, no one ventured to suggest that another name be substituted on the ticket. Every vote was recorded in his favor, and with a pathetic touch of human nature one of his neighbors said after the result was announced, "If he gets out alive, the office is his, and if the poor fellow is dead we have respected his memory."-Wilkesbarre Daily News-Dealer.

To Stop the Pilgrimage. The French authorities have begun to exert strong pressure to stop the annual pilgrimages by Moslem inhabitants of north Africa to the prophet's tomb in Mecca. It recently came out that it is the custom on board cholera infected pilgrim steamers returning from Mecca to burn the bodies of the victims of the disease in the furnaces because it is forbidden to throw them into the sea -Paris Letter.

English as She Is Written. The following interesting communication was received by a prominent silver house a few days ago:

Dear Sir i rite this Day of lord 1894 i wish to act as an agences for Your in this country to sell Silver Weard for you Please send med catlong and i will Sen in wyared at once Ocala

It is to be said that no jeweler of that town bears the name of the "riter."-Jewelers' Circular.

Florida Style of Eating Oranges. There are many ways of eating oranges, but the Floridian has probably the most common sense way of disposing of the fruit. He uses a sharp knife and pares the orange much the same as one would peel an apple, taking care not to cut through the white rind that protects the pulp. Then holding the orange at mer time. You may have a tickling the poles and cutting through the cencough or a little cold, or baby may have ter the seed pods are removed. The rest the croup, and when it comes you ought is easy. As a colored boy in Jacksonto know that Park's Cough Syrup is the ville said, "Put yoah face in it and eat till you come to the rind."-New York
